THE KIDNEYS.
The Kidneys are two in number, situated in the upper part of the loins, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.
The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tub, and called the Ureter. The ureters are connected with the bladder.
The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Muscular. The upper expands, the lower retains. Many have a desire to urinate without the ability to do so, or without the ability to retain. This frequently occurs in children.
To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.
The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

White Pulmonic Balsam.
It cures with a rapidly unequalled by any other remedy offered for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Fennell writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known - and this popularity arises from the fact that it cures every kind of Cough, Cold, Sore Throat, Asthma, Bronchitis, Croup, Blood-spitting, Hoarseness, and even Pulmonary Consumption, when the system is not broken down with the wear of the disease, or protracted medicine, or inexperienced advice, that this Balsam will not cure if carefully used, according to directions. We guarantee it all we represent it to be, and invite a trial from the afflicted. Price, 50 cents, medium size, and \$1 for large sized bottles. Prepared only by

THE GRAVEL.
The gravel ensues from neglect of proper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder but allowed to remain. It becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY.
Dropsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

DEAR SIR-I have been suffering, for upward of twenty years, with gravel, bladder and kidney affection, during which time I have used several medical preparations, and been under the treatment of the most eminent Physicians, experienced but little relief.
Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.
I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious, in fact I despaired of ever getting well, and determined to use no further medicine unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of Buchu, cubeba, and juniper berries, it occurred to me and my physician, as an excellent combination, and with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago. From the first bottle I was astonished, and gratified at the beneficial effect, and after using it three weeks, was able to walk out I felt much like writing you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure knowing then it would be of greater value to you, and more satisfactory to me.
I am now able to report that a cure is effected after using the remedy for five months. I have not used any now for three months, and feel as well in all respects as I ever did. Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.
