THE KIDNEYS. The Kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the Posterior, and the Exterior. The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior.

DR. SIMMS' White Pulmonic Balsam. It cures with a rapidity unequalled by any other remedied for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country.

GOUT, OR RHEUMATISM. Pain occurring in the loins is indicative of the above diseases. They occur to persons disposed to acid stomach and chalky concretions.

THE GRAVEL. The gravel ensues from neglect of improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain, it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY. Dropsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca, when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT. Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections.
