It Did Not Die.

The situation of the Republican party, since the smoke of the battle has lifted, certainly does not present as fearful a sight as it was feared by some that it would present. We all see more clearly now because of an inclination towards Democratic principles. It did not come because of a renunciation of Republican principles. It came through private or personal irritation that created local contests, and these local contests generated defeat. The party did not die. To-day, far down in the depths of its great heart, quietly throbs the earnest desire for the success of those principles that have made it the wonder and glory of the world. It has not yet filled its mission. It cannot yet die. Senator Sumner, in a speech tending to the same point, recently said:

I would add one further word in reply to those who insist that the Republican party has done its work, and therefore may die. Nothing is more absurd. It has done a great and ever-memorable work, but much remains to be done. It has put down a terrible rebellion waged by slavery; it has abolished slavery; it has secured equal rights at the ballot box and in courts, with distinction of color; and it has secured the rebel States on the solid foundation of the Declaration of Independence. Besides these heroic achievements, which cannot be forgotten so long as men throbb in sympathy with human rights, the Republican party has provided homesteads for the needy; it has built a Pacific Railroad, bringing two oceans together; it has, by honest taxation, reduced the enormous national debt contracted by the rebellion, and, at the same time, it has reduced taxation. If a political party is to be judged by what it has done, then may the Republican party fearlessly ask your vote. But there is another reason for your continued support. The whole work of reconstruction and the establishment of equal rights is still disputed and assailed by the Democratic party. I might quote resolutions and words of orators, showing how they still hold out. Repudiators of the national debt, they would repudiate all that has been done for the national Union, and for that equality before the law which is one of our greatest triumphs and safeguards. This is enough. Until this new form of repudiation is extinguished, there is need of the Republican party. So long as anybody assails the Declaration of Independence, the Republican party cannot cease its patriotic labors. It is foolish to imagine that this great party, consecrated to human rights, can die. It will live as long as people cherish those sublime truths declared by our fathers, of which it is the representative and guardian. Its special work will be always to stand by the nation in its unity, and by the people in their rights. For such a party there can be no decay. Men whom I now advance grow old, but the Republican party will be ever young.

Hoping Against Hope.

For ten years now (says the Chicago Post), ever since they passed hopelessly into the minority, Democrats have been vigorously counting up their "gains." The boy upon the campaign does not more industriously count his chips and forecast the day when he will be a millionaire; the crazy "queen" in an asylum does not more assiduously arrange her ribbons and anticipate that she will shortly be enthroned than the Democratic party figure up the gains in Skunkopolis and Swampscot to show that they will elect the President of the United States next time, or at some early day thereafter.

Despatches from South Carolina.

State that on the 20th day after the election, a band of ex-rebel whites, in the interest of the so-called Reform Party, destroyed the ballot-boxes at Laurens Court House, and shot three officers of the State police. Gov. Scott asks aid from the United States.

In the Selma, Ala., district a colored man named B. S. Turner, is running for Congress. His platform is universal amnesty, universal suffrage, universal repudiation of the war debt. The last plank of his platform ought to suit the Democracy.

ENOUGH is known of the election held in South Carolina on Wednesday, the 19th inst., to warrant the assertion that Gen. Scott has been re-elected.

THE friends of Senator Cameron rejoice that the report current on Saturday that he had been stricken by paralysis is not true.

The War in France.

The authorities of Paris, it is said, have stocked the city with supplies. The flesh of horses, cattle and sheep have been salted down for future use. The French keep up a continuous fire on the Prussians about Paris, making it a difficult and dangerous job to put up the works and guns to be used against the city.

The women of Paris are full of zeal against the Germans. They have organizations for the assistance of the soldiers, as far as it is possible for women to assist under such circumstances.

The Germans keep up their commotion to the Rhine. Despatches say that some of the governing men of the French Republic favor peace, while others are strongly for a continuation of the war, cherishing the hope that it will soon take a favorable turn for France.

The Prussian journals declare that Prussian industry has suffered as much as has French industry. The French fleet, it is said, is about to operate against some of the Prussian ports.

Bazaine is charged with an offer to sell out for a regency with the Prince Imperial. The French government at Tours is making preparations to move further south. Papers, books, and correspondence are kept packed, with the exceptions of such as are required for immediate use.

Prussian papers confirm the report that General Boyer's visit to King William was to treat for the surrender of Metz. London despatches say that General Bismarck, Sheridan and Forsyth, have received orders from the Washington Government to leave the continent and at once repair to England.

Rumors of peace follow each other rapidly. Despatches state that England, Austria and Italy are in perfect accord on the peace question. What the despatches next received will state, remains to be heard. An armistice is what the Powers are now called for. On Saturday the French made a sortie against a Prussian stronghold. Of course it was a failure. "They marched up a hill, and back again." Perhaps that is what a sort means.

The conflicting reports concerning Metz are scarcely worth repeating.

Majority.....4,293

The New York Herald since the Late election in Pennsylvania, Ohio, Indiana, Iowa, and Nebraska writes the situation in this way.

First that the people of the United States, by a heavy majority, accept, endorse and approve the administration of Gen. Grant. Second—that the Republican party on the platform of this administration are sure of a decisive majority in the popular branch of the next Congress, whereby, the Senate being secure, both Houses will be in accord with the President to the end of his term. Third—that he is good for a second term against all opposition combinations and opposing candidates. Fourth—that the Democrats have made no headway of any account since 1868. Fifth—that the new element of the colored vote is en masse with the Republicans. Sixth—that there is some danger that the Democracy may lose New York in November.

Two German Steamers Captured and Destroyed by a French Gunboat.

NEW YORK, Oct. 21. A correspondent from Rio Janeiro says that two North German vessels—the Concordia and Lucia—were seized by the French gun boat Hamelin, cruising off Rio Janeiro, but were allowed to go into Rio and discharge such cargo as they had on board belonging to neutrals, after which the vessels were taken out to sea and destroyed, together with the remainder of their cargoes which belonged to belligerent German owners. The Concordia is owned at Danzig. The Lucia was built in Elzephth, to which port she belongs.

The Great Medical Discovery! Dr. WALKER'S CALIFORNIA VINEGAR BITTERS.

Hundreds of Thousands Bear testimony to their Wonderful Curative Effects. WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK, Made of Pure Rum, Whiskey, Proof Spirit and Refine Licorice, &c., &c., called "Tonic," "Appetizer," "Restorer," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE-GIVING PRINCIPLE of the system, and restorer of the system, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Biliousness, Headache and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Their effects are caused by Vitiating Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION. Headache, Pain in the shoulders, Conga, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, flatulence in the Mouth, Bloating of the Belly, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Itch, Salt Rheum, Blotches, Spots, Throat, Psoriasis, Boils, Carbuncles, Ring Worms, Scald-head, Ring Worms, Erysipelas, Itch, Scabies, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are instantly cured up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiating Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Itch, cleanse the blood, and you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the treatise around each bottle.
