**Medical.**  
**THE KIDNEYS.**  
 The Kidneys are two in number, situated at the upper part of the loins, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior. The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tub, and called the Ureter. The ureters are connected with the bladder. The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Muscular. The upper expands, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children. To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue. The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.  
**GOUT, OR RHEUMATISM.**  
 Pain occurring in the loins is indicative of the above diseases. They occur to persons disposed to acid stomachs and chalky concretions.  
**THE GRAVEL.**  
 The gravel issues from neglect of improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder but allowed to remain, it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.  
**DROPSY.**  
 Dropsy is a collection of water in some parts of the body, and bears different names, according to the parts affected. It is generally diffused over the body, it is called Anasarca, when of the abdomen, Ascites; when of the chest, Hydrothorax.  
**TREATMENT.**  
 Helmhold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharge of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommended by the late Dr. Physick, in these affections. This medicine increases the power of digestion, and excites the absorbents into healthy exercise by which the watery or calcareous depositions, and all unatural enlargements, as well as pain and inflammation, are reduced and it is taken by men, women and children. Directions for use and diet accompany.  
 PHILADELPHIA, Pa. Feb. 1867.  
**H. T. HELMOLD, DRUGGIST.**  
 DEAR SIR—I have been suffering, for upwards of twenty years, with gravel, bladder and kidney affection, during which time I have used various medical preparations, and been under the treatment of the most eminent Physicians, experiencing but little relief. Having seen your preparation extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.  
 I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious. In fact I had almost given up, and determined to use no remedy hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of Buchu, cubebs, and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article, and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case, at the time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure knowing then it would be of greater value to you, and more satisfactory to me.  
 I am now able to report that a cure is effected after using the remedy for five months. I have not used any now for three months, and feel as well in all respects as I ever did. Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a
