ers that have not the capital to work it that keeps so many poor. Small faiths are better than large ones, simply because they are better suited to the average capital of common farmers. Large farms with large capital are better than small in the possession of a man who has only enough capital to stock and develope ten er than any other store in the United States. acres leads to one of two things-either and be convinced of the truth of the assertion that he pays taxes on one hundred and ninety acres which he does not use, or, as is more commonly the case, that he spreads his small capital out over the whole two hundred; and that is so thin that it is like a spoonful of guano on the Grand Prairie.

"Farming is a good business for all men who conduct it on business principles, and have capital according to the size of their farms. 'If a man does not understand his business, he will fail whether he be a farmer, lawyer, minister, or merchant. If a man attempts to run This way for Bara mine, a manufactory, a bank, or a farm without capital, he will fail alike in all or any of them, but no sooner in one than another of them.

and entirely different thing. Some men prefer dogs and horses, some men pietures, some men landscapes, gardens, and fancy greenhouses, and other fancy farms Over Coats Dress Coats, Business Coats as a means of agreeably spending their money and occupying their leisure. A farm may be a rich man's plaything --He does not live from his ground. His ground lives from him."

CHURN MORE MILK OR SKIM DEEPER.

An experienced dairyman says: "From observation, I believe too culars and Fors. many batter makers do not skim as deep, or churn as much milk as they ought. I hear them say, often that they do not sell el like to get so much milk, or sour cream, Water streets. in with the cream. It is a common practice for most butter makers to have a skimmer that is perforated with holes, that the milk may pass through into the pan from which the milk is being taken. MERCHANT TAILOR! Belford's Build. FURS, WOOD AND WILLOW WARE, and in very simple and easily learned; the sewing short every article usually kept in a well from the ordinary spools is a great advan-If any one has a better reason for not has purchased the Tailoring Establishment of skimming deeper I shall be pleased to D. W. A. Beiford, and has opened out a hear it, and herewith give my reason why I think we ought to skim deeper. and churn more milk with the cream.

First, there are but few dairy houses so far remote from the odors of the Than ever was before brought to this town, kitchen, swill pail or barrels, or some de which he is prepared to make to order in the caying vegetable matter, as to keep the LATEST AND MOST IMPROVED STYLE. cream from absorbing odors that injure And in a manner that will defy all competithe flavor of the butter; and the cream sorts of first receive, or have these odors pass through it, before they can reach the On reasonable teres. milk, as it is most exposed. The milk By strict attention to business, he hopes to PENNELL'S CHEAP STORE therefore, must be pure, and, if churned receive a liberal share of public patronwith the cream, will aid in taking up the of cutting and workmanship before going odors from the butter. By churning only the cream, the dash of the churn must, as we think, injure the butter globules, and make the butter salvy, as the friction is more directly applied to them than would be the case if milk was mix-

There are times when the milk sours, before all the cream is up; yet the milk must be nearly, if not quite, as good, from the same cow that is being fed the same feed, in a warm morning. But we often get twice the amount of cream in the cool days that we do in the warm days, and the quality is better. Take for intance, the 24th day of August, a hot softry day, the cream hardly paid for the labor. Now take the 26th of the same month, 1869, a good cool day, that gave a nice yield of cream. Is it to be supposed that there is that difference in the milk produced from the same cow, on those days, when the cows were fed in the same pasture, that there was in the amount of butter made from their milk by skimming the cream only? I have Ayer's Ague Cure, thought that when the milk is brought in in a beated condition, and placed in a warm room, that perhaps many of the butter globules were exploded by the heat, and that they mingled with the milk like alcohol with water, but to churn all the milk would be to get more butter"

Mr. R. A. Hunt, of Euclid. Ohio, gives the following result of an experiment be made in feeding carrots and potatoes to a mile cow. While thirty six quarts of carrots were fed daily. Thirty-two pounds of milk were received in return, and while the same quantity of all round the world.

Our pride is gratified by the acknowledgment we receive of the radical curves effected in obstract carry and where other neededs had where the resident m, or travelling through missuic localities, will be urotested by taking the Art Countaints, arising from tornidity of the Liver into healthy activity.

SEWING MACHINE.

The following are selected from thousands of testimonials of similar character. as expressing the reasons for the prefer-& Co., on Main street, in J. M. Belford's ence for the GROVER & BAKER Machines

> "I like the Grover & Baker Machine, in the first place, because, if I had any other, I should still want a Grover & Baker, and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work and it is easier to learn than any other.' -Mrs. J. C Croly (Jenny June)
> "I have had several years' experience with a Grover & Baker Machine, which has given me great satisfaction. I think the Grover &

> Baker Machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."-Mrs. Dr. Watts, "I have had one in my family for some two years, and from what I know of its working. and from the testimony of many of my triends who use the same, I can herdly see how anything could be more complete or give betier satisfaction."-Mrs General Grant. "I believe it to be the best, all things considered, of any that I have known

tage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order."-Mrs. A. M. Spooner, & Bond Street, Benchlen ! Street, Brooklyn. "I am acquainted with the work of the principal machines; and I prefer the Grove-& Baker to them all, because I consider the stitch more elastic. I have work now in the house which was done nine years ago, which is still good."-Mrs. Dr. McCready, No. 42

East Twenty third Street, New York. "More than two-thirds of all the sewing done in my fair ily for the last two years has been done by Grover & Baker's Machine, and I never had a garment rip or need mending except those rents which frolics one boys will aske in whole cloth. It is in my opinion by far the most valuable of any I have tried.

Mrs. Heavy Ward Beecher. The Grover & Baker Sewing Machine Company manufacture both the Elastic Stitch and Lock Stitch Machines, and offer the public a choice of the best machines of both kinds, at their establishments in all the large cities, and through agencies in nearly all towns throughout the country. Price Lists and samples of plication to Grover & Baker S. M. Co., 115 Market street, Harrisburg.
