

MIFFLINTOWN, Pa., Wednesday Morning, September 6, 1871.

B. F. SCHWEIER, EDITOR & PROPRIETOR.

REPUBLICAN STATE TICKET.

AUDITOR GENERAL: DAVID STANTON, OF SEAVEN COUNTY.

SURVEYOR GENERAL: ROBERT B. BEATH, OF SEVENTH COUNTY.

JUDICIAL TICKET. PRESIDENT JUDGE, HON. BENJ. F. JUNKIN, OF FERRY COUNTY.

ASSOCIATE JUDGES, DAVID M. JAMISON, OF FAYETTE TOWNSHIP, J. W. BEALE, OF FERRYVILLE.

COUNTY TICKET. ASSEMBLY, NOAH HERTZLER, OF SEVENTH TOWNSHIP, (Subject to District Conference).

TREASURER, W. C. LAIRD, OF PATTERSON.

COMMISSIONER, MICHAEL SIEBER, OF WALKER TOWNSHIP.

SURVEYOR, WILLIAM DUNN, OF FAYETTE TOWNSHIP.

AUDITOR, GEORGE B. SMELKER, OF SEVENTH TOWNSHIP.

GEO. P. ROWELL & CO., 40 Park Row, New York.

S. M. PETTENCILL & CO., 37 Park Row, N. Y.

READING MATTER ON EVERY PAGE.

What Shall be the Remedy. The late dreadful steamboat and railroad disasters—murders, as some journals style them—have made a profound impression upon the public mind.

Some journals have allowed suggestions to appear in their columns of hanging the conductors, engineers and depot masters implicated, and the superintendent, president, and directors, for employing careless men.

The present slow process of obtaining redress through the courts against corporations that have thus by their carelessness murdered people is being earnestly talked over, and legislative remedy is already being advocated.

Some journals advocate a law requiring the payment of twenty or thirty thousand dollars or more, for every individual killed through carelessness by the employees of corporations, and proportionate sums for those crippled for life.

What shall be the remedy? The Washington Chronicle thinks such a penalty would secure greater safety, and says:

"It is said there is a custom in China of employing physicians at a salary, which goes on regularly while the employee is well; but whenever he is sick stops until his complete recovery. The interest of the doctor is thus enlisted on the side of the good health of his patron.

In view of such terrible accidents by rail as those which we had occasion to chronicle yesterday, the question suggests itself whether a similar principle cannot be invoked here in favor of the lives and limbs of the traveling public.

If by State or national law each railroad company was compelled to pay a sum of money—say twenty thousand dollars—to the nearest relative of every person killed in an accident on its road, and to every person wounded a sum proportioned to the gravity of the injuries received, we should quickly see a marked falling off in the number of such casualties.

It is not enough that the companies should be required to pay damages where negligence or other fault is proved. There should be no necessity for a law suit.

The mere fact of death or injury under the given circumstances should of itself be sufficient to establish the claim of the injured person, or of the relatives of a person killed, upon the company.

As railroad companies are indebted to the State for the privileges of their charters, the authority granting the latter has a right to annex to the grant such conditions as those above suggested, and in the interest of the public safety, this right should be exercised in a decided manner.

Under such stimulus the roads would soon find means of providing themselves with careful and efficient employees. To be identified with an accident would of itself be sufficient to pre-

vent a man from getting further employment from any railroad company in the land, unless the circumstances were such as most clearly to exonerate him from all blame. Such an incentive to care and attention on the part of railroad employees would not fail to bear good fruit very speedily. Careless people may get along comfortably enough in some avocations, but the bare suspicion of carelessness should be sufficient to exclude a person from a post in which he would be entrusted with the safe keeping of the lives of his fellow-creatures. If the railroads were held to the rigid and inevitable responsibility above suggested, we might safely trust them to look to the character of their employees. The same suggestion will, of course, apply equally well to the proprietors of ferry boats and common carriers generally.

Republican County Convention.

The Convention of Return Judges met at the Court House, in this borough, on Monday, at 1 o'clock, P. M., and proceeded to business by the election of J. S. Lukens, of Thompsonstown, Chairman, and James Irwin, of Tuscarora, and S. M. Shelley, of Fayette, Secretaries.

The following named gentlemen represented the different townships and boroughs, and presented to the Convention the votes of their respective districts:

- Mifflintown—H. D. Weller, Fernanagh—Isaac Seiber, Fayette—S. M. Shelly, Monroe—John G. Halteman, Greenwood—Miller Woodward, Susquehanna—John Light, Walker—J. W. Seiber, Thompsonstown—J. S. Lukens, Patterson—H. H. Wilson, Milford—John Balbach, Perryville—Samuel Buck, Turbett—Ephraim Hertzler, Spruce Hill—Theo. Meminger, Beale—W. B. Young, Tuscarora—James Irwin, Lack—J. M. Morrison, Black Log—J. E. McIntyre.

The following is the vote of the county as returned to the Convention:

Table with columns: Pr. Judge, Associate Judges, and names of candidates like Junkin, Graver, Be, Jamison.

Assembly, Pr. Judge, Associate Judges.

Table with columns: Name, Pomeroy, Hertzler, Laird, and counts for various townships.

Comrs., Sur., Aud.

Sieber, Jones, Dunn, Morrow

Table with columns: Name, Count, and names of candidates like Mifflintown, Fernanagh, Fayette, etc.

B. F. Junkin was declared the nominee of the party for President Judge.

D. M. Jamison and J. W. Beale were declared the nominees of the party for Associate Judges.

Noah Hertzler was declared the nominee of the party for Assembly—subject to the District Conference.

W. C. Laird was declared the nominee of the party for Treasurer.

Michael Seiber was declared the nominee of the party for County Commissioner.

William Dunn was declared the nominee of the party for County Surveyor.

Thomas Morrow was declared the nominee of the party for County Auditor.

A letter from Mr. Morrow was read to the Convention, stating that his name had been announced without his consent, and he, therefore, respectfully declined being a candidate; whereupon the Convention unanimously nominated George B. Smelker, of Tuscarora township, for County Auditor.

A resolution was passed, recognizing the right of the District nominees to select their own conferees.

Mr. Hertzler selected as conferees Dr. G. M. Graham, Jacob Bergy and John McLaughlin.

A letter from Hon. B. F. Junkin, respecting Michael Hoffman, Joseph Pomeroy and B. C. Gallager as conferees, was read.

By resolution the following named gentlemen were appointed Representatives to the State Convention in 1872: Col. J. K. Robinson, J. W. Wharton, John Muthersbaugh.

By resolution the following named gentlemen were appointed Senators to the State Convention in 1872: Col. J. K. Robinson, J. W. Wharton, John Muthersbaugh.

TERRIFIC HURRICANE.

Earthquake Shocks Accompany the Wind. MANY HOUSES SWEEP AWAY. THE WHOLE OF ST. THOMAS DAMAGED. GREAT DESTRUCTION OF LIFE.

St. Thomas, August 29, via Halifax. August 31—Another hurricane has swept over this unfortunate island, overturning ever house and laying the place in ruins. Yesterday, about eleven o'clock A. M., the gale broke from the east, shortly afterward shifting to northeast, from which point it blew more fiercely until noon, when the wind veered round slowly to north and fell upon the island in a terrific hurricane.

It then shifted to northeast and blew with great violence until five P. M., when there came a lull, which lasted until six P. M. At this hour a hurricane again swept over the island from the south, but its duration was not so long as on the previous visit, nor was its violence so great.

Its term of greatest fury lasted only two hours. Closely following the wake of the hurricane came an awful gale from the south and southwest, which raged for several hours. During the hurricane in the afternoon several shocks of earthquake rendered more dreadful the situation of the people, who were hearing over head the crash of roofs torn by the hurricane, and had to feel at the time under foot the foundations of their houses shaken by the earthquake.

Hundreds of dwellings have been swept away, and not a house is left standing undamaged on the island. Some six thousand people have been left homeless and destitute, and nearly one hundred and fifty persons were killed and mangled or disabled by houses blown down, or bricks or tiles flying thickly all around. Already some thirty corpses have been dragged from under the ruins. No casualties to shipping are yet reported, with the exception of the British bark loaded with sugar, and riding at anchor at the mouth of the harbor, which broke loose and went adrift towards Rockwell channel, and is said to have become a total wreck.

Two French steamers, recently arrived, drifted about and got fast aground by the English steamers "Casie," "Tyne" and "Delta," as well as the American steamer "Florida," at anchor here, weathered the storm handsomely, the latter, however, having to cut away her masts. The island of St. Kitts is said to be in ruins, as it was caught first by the hurricane which has just passed over here.

A night or two ago a mob of unknown men surrounded John Jascher's house in St. Ising Mountain, Dutchess county, New York, and ordered him to come out. He refused, and when they broke into his dwelling, and finding him behind the chimney, dragged him forth, and stripping his clothes off threw a bag over his head. They then beheaded his body with tar, and emptied a bag of feathers over him. Jascher was charged with running away with the wife of another man named Decker, and it is thought that Decker led the attack on him.

The Terrors of Cholera. BERLIN, August 31.—A despatch from Garmbrun, a town of East Prussia, sixty-six miles from Konigsberg, says in the small village of Chimocion, have been 79 cases of cholera and 46 deaths. The strictest precautionary measures against the disease have been taken at Garmbrun.

A young lad of Wilmington, N. C., had a wonderful escape from death on Saturday. In attempting to pass around the chimney of a four-story brick building, he placed his hand on the chimney for support. A brick gave way and he fell a distance of fifty feet. His fall was broken by a stairway on the outside of the building, and the only injuries he sustained were slight.

A local paper states that a woman passed through the streets of New Bedford on her knees the other evening, bearing three lighted candles in each hand, and accompanied by a woman on each side, the operation being a religious penance in fulfillment of a vow for the safe return of her husband from a whaling voyage.

A thief in Forest county lately waited in the bedroom of a clerk until he had gone to sleep, took the "store key" from his pocket, unlocked the house door, the store door, the safe door, took five hundred dollars, relocked everything, and made himself scarce, leaving the keys sticking in all the doors.

A boy five years old fell from a window of a car in the Union Pacific passenger train just after it left Cheyenne on Tuesday last, and while it was running about thirty miles an hour. The train stopped and he was found alive, the only injury sustained being a few bruises and a thorough frightening.

Seventeen emigrants were injured, and a lady whose name has not been ascertained, had her neck broken Saturday morning by the upsetting of the night express train going west on the Detroit and Milwaukee railroad, near Linden station.

On Saturday morning one hundred and forty thousand dollars worth of property was destroyed by fire at Rahway, New Jersey. The body of an unknown man was found in the ruins.

Always in order—so say the printer.

Many South Carolina negroes are preparing to go to Liberia. The streams of Montgomery county are being stocked with black bass. Two million crates of peaches have been received at Jersey City the present season. A jury at Lynchburg, Virginia, has condemned a negro to be hanged for incendiarism. Wages have been rising steadily in Portugal for the last thirty years, but only at the rate of one per cent. per annum. "These apples are not fit for a hog to eat," said a kid-gloved dandy to an apple woman. "You just try one, and see," she retorted. The California fig crop is ripe, and some of the growers will dry considerable quantities. Last year one grower sold two thousand pounds of figs from one tree. Two colored men of Statesville, S. C. while chasing a hog, run their heads together with such a force as to almost instantly kill one of them named Wright Moore. Salt sprinkled upon the carpet before sweeping will make it look bright and clean. This is a good preventive against moths. Rev. Pennel Coombes, one of the oldest and ablest advocates of temperance, openly disapproves of logging the cause into politics, and is so preaching in different parts of the State. Two years' experimenting has demonstrated that the poppy culture in California is a success. The opium contains an unusual percentage of morphia, and is considered far superior to the ordinary opium of commerce. An old soldier near Louisville has regularly recurring quarrels with his wife. At such times he takes his tent and frying pan and some provisions, and camps out until his wife hants him up and effects a reconciliation. A number of New Englanders have leased a farm in Powhatan county, Va., with the intention of devoting it exclusively to the raising of goats. They have made a beginning with 2000 goats, and expect to increase the number to 20,000. An awkward young man, while rowing a lady on Ironquoit Bay, a few days ago, fell overboard. She pulled him in to the skiff by the hair, put him ashore, and then rowed away home, leaving him on the beach to dry and to lament the results of his stupidity. An insane Wisconsin woman threw three of her children into a forty foot well, and was about to cast the rest of the family after them when she was discovered and the deed prevented. The three were all taken out alive, and only one was seriously hurt. Louisville will soon rival Constantinople. On Sunday night, in one of the streets, twenty dogs fought a pitched battle, and persons passing had to climb lamp posts, dodge into doorways and skirmish around generally to avoid load-bearing bites. Two young Virginians, desperately in love with the same young lady, had a fierce fight with riding whips and knives as they were riding home with her on horseback from church on Sunday. One of them received an ugly cut the whole length of his face. Fifteen families were burned out on the night of the 23d ult. in Long Island city, and had a narrow escape with their lives from the fire, which was caused by a jealous husband, who attempted to brain his wife with an axe, and broke a kerosene lamp to pieces. Three buildings were burned. In driving a London underground railroad tunnel, we are told that in one part of the cuttings were made through a mass of skulls and bones, sixteen feet underground. In another place a forgotten secret passage, twenty feet wide, was discovered, supposing to date from the fourteenth century. White men and native Fijians sit in the same jury box in the newly established Supreme Court of Fiji, white and Fijian judges on the same bench, and the experiment is, to a certain extent, satisfactory. The court is conducted with the European forms, and perfect order is observed. The sheriff is a white man, but his officers are Fijians.

Just as We Found Them.

Always in order—so say the printer. Many South Carolina negroes are preparing to go to Liberia. The streams of Montgomery county are being stocked with black bass. NEW ADVERTISEMENTS.

For Editors of the Iron City College, the most popular and successful institution in the United States, for the thorough practical education of young and middle aged men, address J. C. SMITH, A. M., Principal, Pittsburgh, Pa. Aug 1, 1871-3m

Birds Combined Clover Thresher and Separator. THIS MACHINE THRESHES, SEPARATES, HULLS and Cleans Clover Seed at one operation; capacity ranging from 20 to 50 bushels per day, according to yield of seed. After the Clover is fed into the Threshing Cylinder, the seed contained therein is deposited into a bag or measure at the side of the Machine. No Rebanding of Chaff or Tailings. An elevator conveys the unthreshed chaff back to the HULLER HOPPER, and an extra Elevator conveys the light seed, &c., back to the Feeding Mill. 5000 now in use throughout the United States and Canada. Awarded First Premium at 75 State Fairs since 1856. Send for "CLOVER LEAF" and Colored Engraving, which give complete description. BARNES & MANUFACTURERS CO., Harrisburg, Pa. Home Factory, South Bend, Ind. * * * An Agent wanted in Juniata county. Aug. 30, 1871-3m

Extra York State Calves! I WILL SELL AT PUBLIC SALE, SATURDAY, SEPTEMBER 16, 1871, At the residence of JOHN A. GALLAGHER in Walker township, Juniata county, on the pile leading from Mexico to Mifflintown, one mile from the former and two from the latter place. 50 HEAD OF SUPERIOR YORK STATE CALVES. Two thirds of them Heifers and the remainder Bulls. The above calves are of Albany, Devon and Durham stock, and out of the best York and these cows in Western New York. Color of calves, red and roan. I will also offer my celebrated road horse "BOB," Ten years old, of Arabian blood, he has no superior. Sale to commence at 10 o'clock A. M.; no postponement on account of weather. Conditions will be made known on day of sale by LEWIS E. BROADBENT.

FOUTZ'S Horse and Cattle Powders. THIS PREPARATION, long and favorably known, will thoroughly restimulate the system, and increase the appetite, by strengthening and cleansing the stomach and intestines. It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GRASS STICK, WATER BEAVERS, COUGHS, DISTRESS OF BREATH, AND ALL AFFECTIONS OF THE ENERGETIC SYSTEM. It is also a powerful purgative, and gives a smooth and glossy skin, and transforms the miserable animal into a sleek and healthy one. To keepers of Cows this preparation is invaluable.
