In doubtful districts the Democracy will sacrifice everything to elect their Legislative ticket.

The Legislative ticket is one of the objective points of that party in this Fall's campaign.

The Republican press from every quarter of the State is outspoken against the conduct of State Agent Evans, and how fluently this honorable course contrasts with the shielding course that the Democratic party pursues in regard to the Tammany frauds of New York.

A. T. STEWART, of New York City, is building a hotel at the cost of three millions of dollars, to be used exclusively as a boarding place for the female employees in stores and seamstresses, where they will be charged only so much as will be necessary to pay for the food and help hire in the establishment.

The Mexicans have been committing depredations on American vessels, on the Rio Grande. The Eagle, now since poor Mexico has put herself upon her bad conduct, most likely will shriek and flap its wings. When Canada vessels overhauled our fishermen the bird was quiet, and when Spanish authority seized our vessels it was as tame as a well-filled buzzard.

GENERAL APATHY is said to be about. We trust that the Republicans of Juniata will not allow that formidable enemy of our party to woo them into inactivity this fall. The Democratic party usually when the General inclines them to neglect the polls, dismiss him summarily—The example is worthy of imitation by Republicans. Let us up and to work for the ticket, every one, and rally to our colors, as have the Californians, and victory will be ours.

The plundering operations of the New York Tammany have brought the city authorities into disrepute. The quick Rosenzweig, who figures conspicuously in the case growing out of the finding of the dead body of Alice Bowlby in a trunk, declares that the authorities are after his money, and that the prosecution is a sort of a blackmailing process to induce him to withdraw his money-bag strings and buy off the prosecution—Truly Tammany has brought the authorities into disrepute. It is just probable that the quick is not correct in his conclusions, and that justice will be meted out to him for his crimes.

Such conclusions, however, will be reached and declared when officials plunder as have the New York Tammany.

The Democracy Routed in California!

A VICTORY FOR THE REPUBLICANS!

The State Redeemed from Democratic Rule!

Maine Follows California in the same Line.

OUR STATE AND COUNTY TICKET.

Let the False Leaders in our County, who have been guilty of selling us Out, be Watched.

The news from California during the past week has had a cheering effect upon the Republicans of the whole country, and a corresponding depressing effect upon the Democracy.

And no wonder; for great has been the change. A Democratic Governor has been unseated, and a Republican elected by a majority of 6000.

A Democratic Legislature has been routed, and a Republican Legislature induced in its place, which insures the election of a United States Senator; and the Republican delegation in the Lower House of Congress is reinforced by the addition of two members. Let the Republicans rejoice. It is a great victory, and falls hard on the Democracy, for they expected to carry the State.

Maine, on Monday last, followed the Golden State, and rolled up a glorious victory for the Republican cause. The State having gone Republican by an increased majority over last fall's election, renders the election of a United States Senator certain from Maine.

Let us determine, from this day on to the close of the polls in October, to labor faithfully for the election of Stanton and Beath—our State ticket—that the way to victory in 1872 may be easy.

Let us collect our forces, and rally around our local standard bearers—our county ticket—and struggle manfully for their success. The ticket is a good one throughout, and worthy of the support of every man.

Hon. B. F. Junkin, of Perry county, became the nominee for President Judge in Juniata county without a contest, and yesterday the district conference, at Harrisburg, Dauphin county, conferred the district nomination upon him—He is a faithful Republican, and has served his party in Congress. He is a popular man, an able lawyer, and will make an impartial judge, if elected—Which, from the signs of the times, seems quite probable.

Noah Hertzler, Esq., of Port Royal, is the nominee of the party for the Legislature. He is a representative man of the honorable business circles of Juniata county. He is a man of pure motives in all particulars, and stands firmly in trying times. He is the right kind of a man to hold our banner aloft in the coming campaign.

For Associate Judges we have D. M. Jamison, of Fayette, and Dr. Beale, of Perryville. They are men of integrity and worth, and should have the suffrage of the whole people.

W. C. Laird, Esq., of Patterson, is the unanimous choice of the party for the office of Treasurer. He is a man of fine business qualifications, and is popular, and, if the people elect him, he will serve them well.

Mr. Michael Sieber, of Walker township, is the nominee for Commissioner. He sought not the nomination. He is one of Juniata's intelligent and solid farmers. The honest and faithful discharge of his own business is an evidence of the manner in which he will serve the public, if a public trust be imposed upon him.

Mr. William Dunn, of Fayette township, is the candidate for County Surveyor. He is a practical surveyor, and is one of the old substantial pillars—He should be elected to the office.

Mr. G. M. Smoeler, of Tascarora township, did not ask to be nominated for County Auditor. The nomination was thrust upon him. He is a worthy farmer, and will perform the duties of the office with fidelity to the county, if his duties be imposed upon him.

The ticket, taken throughout, is as good a one as could well have been selected, and it should create enthusiasm in our ranks. It is in truth the people's ticket. It has not the ring odor, which is rapidly becoming odious to the people throughout the length and breadth of the land. It is free from that peculiar ring smell that taints some of the nominees of the Democratic party in this county. Let us all go to work with a will. Let there be no selling out, as has been done in times gone by, by certain parties, whose acts have well nigh brought us into reproach, both at home and abroad—Our principles are sound. Our men are sound. Do not false leaders—the hybrids—approach you. Watch them—We can redeem ourselves, as did California.

“That birds of a feather, and men of a kind flock together,” is happily illustrated by the Evans men and the Tammany Ring. Evans, in order to avoid arrest, fled from Philadelphia to New York. Gov. Geary made a requisition on Gov. Hoffman for his arrest, but the Tammany men and the Governor of New York delayed the action in the case that would have resulted in the arrest of Evans for three days. Meanwhile Mr. Evans was safely hidden from the officers of the law. Such a course is only manufacturing more fuel for the Legislative investigation that will be instituted during the coming winter. The Evans men and the Tammany men are much alike.

At the Cold Spring races, Wisconsin, on last Wednesday, the 6th, “Dexter” time was beaten by “Goldsmith Maid.” Time, 17.

Representative Conference.

According to previous arrangement the Representative Conference of Mifflin and Juniata counties met at Lewistown, September 9th, and organized by electing Wm. C. Vines as President and G. M. Graham, Secretary.

The following gentlemen then presented their credentials:

Mifflin—Gen. John P. Taylor, Wm. C. Vines, E. H. Stackpole.

Juniata—John McLaughlin, J. Berg, G. M. Graham.

Nominations were then made as follows:

Gen Taylor nominated Samuel Haffly, of Mifflin county. J. Berg nominated Noah Hertzler, of Juniata county.

The Conference then proceeded to ballot for a candidate:

First ballot—Haffly 3; Hertzler 3.

Mr. Haffly's name was then withdrawn, and, on motion of Gen. Taylor, Noah Hertzler was unanimously chosen as the Republican candidate for Assembly in this District.

On motion adjourned.

WM. C. VINES, Pres't.

G. M. GRAHAM, Sec'y.

The Universal Peace Society held a series of meetings last week at Poughkeepsie, New York.

A despatch says that the society announced through a series of resolutions, that war is the workingman's enemy; that while religious sects sanction war New York riots are inevitable, and that war, in and for Cuba, is not in any way justified.

The resolutions also condemn the attack of Commodore Rodgers on the Koreans, and maintains that the Treaty at Washington points to a higher civilization; they favor a peaceful policy toward the Indians; protest against military schools and favor the abolition of West Point Academy.

In conclusion the resolutions oppose capital punishment and urge the removal of all war clauses from the Constitution.

A TERRIBLE tragedy was enacted seven miles south of Jackson, Miss., on the 5th inst., by which two officers of the present administration met their deaths at the hands of a desperate negro.

The officials were the brothers Herring, trying to arrest the negro, when both were stabbed in the neck, dying instantly. The negro was arrested.

In a two column editorial article the New York World replies to a five column article of A. H. Stephens in the Atlanta Sox, wherein it is attempted to prove that the said Stephens is a bad political counsellor—citing among other things his celebrated speech, where he claimed “slavery” as “the chief cornerstone of the Southern Confederacy.”

The World thinks this utterance was “a poisoned dagger thrust into the bowels of the Confederacy,” which greatly tended to defeat the Secession agents in Europe.

It now claims that Stephens “is committing the same kind of blunder” as a Democratic editor. No matter how much the World laughs at the efforts of the Southern leader, it will find that he will prepare the National platform for the Democracy in 1872, and until the Northern toads adopt it, he will split the party in twain. We predict his platform will be adopted, and the New Departure will be blown to the four winds.—Pittsburg Gazette.

There is a party in England quite hostile to the government and advocate principles entirely antagonistic to those that are employed in the government of that Kingdom.

On the 6th inst., this new party issued a programme or declaration of principles, which despatches cause to read as follows:—Application of the principle of federation to the Kingdom; abolition of titles and privileges; suppression of monopolies; the abolition of standing armies; compulsory education; the State to provide work for those laborers who are able to work and sustenance for those incapacitated from work; the nationalization of land, popular legislation, and the diffusion of republicanism.

REV. PENNELL COOMBS, of Philadelphia a noted temperance man, is openly against the political movement of certain temperance men, who, he says, are ruining it by forcing it into politics.

He says that the movement is intended by its leaders to defeat the Republicans, who did all they could in the last Legislature to give us a local option, and to aid the Democrats, who, by a strict party vote in the Senate, defeated the measure; “that this new party must of necessity result in great injury to the temperance cause, and that every vote cast for their State ticket, will be virtual a vote for the liquor party of Pennsylvania.”

The late election in Wyoming has changed the complexion of the Legislature. Last winter it was throughout Democratic. Now the Senate is Republican. The Lower House remains Democratic. The women voted, but dispatches do not say who for.

By despatch it is announced that Washburn and Doolittle, Republican and Democratic candidates for Governor of Wisconsin, have agreed to have a joint discussion of the political issues of the day in each Congressional District.

COL. WILLIAM McMICHAEL has been appointed Assistant Attorney General. He is a good lawyer, a gallant soldier, and possesses the esteem of his townsmen of all parties.—From the Age, Sep. 4th.

Outrages of the Mexican Authorities.

SEIZURE OF AMERICAN VESSELS.

A Subject of International Concern.

WASHINGTON, Sept. 6.—Several months ago an American vessel was seized by the Mexican authorities, on the Rio Grande, on the allegation that her master had attempted to violate the Revenue laws. The master was also subject to much personal annoyance, notwithstanding his protest against such proceedings.

With a view to redress he made a full statement to our own government and the difficulty became a subject of international concern and adjustment.

Other cases of outrage have since that time occurred, information having been received in this city by telegraph from Galveston, dated to-day, mentioning that the American barque “Harvest Home” had been attacked by a force of Mexicans on the bar of Santa Anna on the night of the 27th of last month, and her master, Edward C. Dickey, obliged to put to sea without completing her cargo.

Another despatch from Galveston dated to-day, mentions that the American barque “Brothers,” owned by a firm in Norfolk, Va., and of which James B. Thurston was master, was captured from her by an armed force of Mexicans, also on the 27th of August, off Santa Anna, and that her captain was forced to abandon her, and twenty four hours after he was picked up by the “Harvest Home,” and arrived at Galveston yesterday.

It is understood that Captain Thurston will visit Washington to make a full statement of the facts in the case to the government authorities.

The Famine in Persia.

The news from Persia in regard to the famine is still of a distressing character. Despatches says that the deaths at Tabreez, Persia, still average two hundred and forty per day.

The Christians and Mussulmen are camped in the mountains and business is entirely stopped. The Persian army has been disbanded. Storms and inundations have almost entirely destroyed the bazaars and gardens in the vicinity of Tabreez.

TABREEZ.

This city, now rapidly approaching extermination through the great famine, is in North Persia, and is capital of the province of Azerbaizan, in a fine plain, on a river flowing into Lake Ormoosiah. The population has been estimated at 60,000, but from the news received this morning stating that two hundred and forty deaths occur daily, it is likely that it has already been reduced several thousand. Tabreez is beautifully situated among forests, and is about 34 miles in circumference, enclosed by a brick wall, and entered by seven gates, outside of which are large suburbs and fine gardens, said to occupy 30 miles in circuit. The town is miserably built, and except its citadel and the five remains of a mosque, it has no edifice worthy of notice but its bazaars and caravanserais are extensive. It is an important entrepot of the trade between Persia, India, Russia, Constantinople, and the Black Sea.

In 1840 the European goods sold in its bazaars were estimated at \$7,000,000 in value, and Turkish goods at \$200,000.

Tabreez was also the seat of some manufactures of silk stuffs, which by this great calamity have become of no use, all business being stopped, and the bazaars destroyed by inundations and storms.

A correspondent of the Easton (Pa.) Argus, who has just visited Monticello, the home of Thomas Jefferson, says:—“The mansion is nothing but a heap of ruins. It is a disgrace to the nation that the home of the author of the Declaration of Independence should be permitted thus to rot and tumble into decay.”

The Monticello estate comprises about three hundred and fifty acres, and is now in litigation, having been confiscated by the Confederate Government and bought in by a citizen of Charlottesville. The stone over Mr. Jefferson's grave is a ruin like the house, relic hunters having chipped into it until the very shape of the original obelisk is destroyed.

Fashion writers say that an early new style of arranging the hair is to be adopted soon. The old French twist in the back is to be revived, but rendered more graceful by a plait or cable of hair surrounding it, drooping low on the nape of the neck. A coronet of hair is to take the place of the Pompadour roll, and from beneath that coronet light curls are to fall on the forehead. Four long curls, two on each side, are to fall on the neck and shoulders from beneath the braid or cable. The temple hair is to be braided high and smooth.

Two men and a woman in Easton, Adams county, Wis., are accused of whipping a little boy eight years old with a heavy iron wire, of branding him on the neck with a hot iron, and of compelling him to hold live coals in his hands until the flesh and muscles were scorched and shriveled. They are in jail. The poor boy is a son of the woman by a husband now dead, and it is alleged she has been the most active in inflicting upon her child the horrid cruelties he has endured.

As a party of ladies were eating an out-door lunch in the vicinity of the White Mountains they were joined by a small but sociable and lively bear. The ladies showed their delicate politeness by surrendering the whole of the lunch to the newcomer.

A learned Hindoo who is lecturing in England says the vice of intemperance was unknown in India till the English introduced it there, but the young men became apt pupils, and now it is causing widespread disaster.

Among the lamp-lighters in Milwaukee, Wis., is a little girl, ten years old, who makes her rounds in all kinds of weather, and runs up the ladder like a squirrel, while her elderly mother watches for her safety below.

A Hartford man keeps a box in which he regularly deposits his car fare when he walks to and from his place of business, as he now almost always does—The other day, at the close of a year, he opened it, and found he had \$109.20—This he put in a savings bank, and keeps right on paying car-fare as before.

A singular incident happened at Grace Church, New Haven, last Sunday evening. Soon after the service began the gas nearly went out. The rector asked the congregation to keep quiet, and having procured a light, he proceeded with the service. Suddenly, as he was reading the words, “The Lord shall light my candle, He shall cast my darkness away,” the gas resumed its usual flow, again lighting up the church.

A gentleman in Richmond recently received a love letter from a young lady who had been an inmate of his home, in visiting him to meet her in a neighboring city. He was so ungallant as to hand the document to his wife, who accepted the invitation in his stead, and finding the young lady at the house of some friends whom she was visiting, gave her a terrific scolding in the presence of her hostess, and abandoned her to her mortification.

On Monday a young daughter of the watchman of the Lehigh Valley Railroad at Fairview station went to a water tank or reservoir to chase out some geese, and while so doing fell in. The mother seeing the danger her daughter was in, rushed to the tank and also fell into it, whereupon an older daughter hastened to the scene, and in endeavoring to save her mother and sister she also fell in, and all three were drowned before they could be rescued.

A young man in New Hampshire agreed with an acquaintance that if he would eat six quarts of boiled custards he would swim two miles in a pond—The challenged man disposed of the custard, and the next morning the other swam to the prescribed point, and then turned around and swam back into the lake some twenty rods, giving as a reason that his friend, on finishing the pudding licked the spoon, and he wanted to do the square thing.
