THE Bedford Inquirer urges the citizens of Bedford to burn out their chimneys on the first rainy day. A great many chimneys in Mifflin need cleaning, and this work ought to be attended to before the stormy season sets in. Every family should also see that their stove-pipes are in a safe condition.

THE taxpayers of this borough who have not yet paid their school tax for 1871, and wish to save 5 per cent, should pay up at once, as to-morrow (Thursday) is the last day on which a reduction will be allowed. After that date the full amount will be required, and after the 2nd day of December next, 5 per cent. more will be added.

THE editor of the Bell-forte Republican had a fine streak of luck last week. One man sent him a bushel of potatoes; a second, a pair of pigs; a third, a lot of grapes; a fourth, a lot of apples; a fifth, a bushel and a half of tomatoes; a sixth, a fine lot of tomato cat-snip and horseradish. Bellefonte must be a royal place to edit a paper.

THE season for coughs and colics is rapidly approaching, and every one should be prepared to check the first symptoms, as a cough contracted between now and Christmas frequently lasts all winter. There is no better remedy than Johnson's Anodyne Linctum. For all diseases of the throat and lungs it should be used internally and externally.

LUNG FEVER, common cold, catarrh, fever, and nasal discharge of a brownish color in horses, may be checked at once by liberal use of Steida's Cavalry Condition Powders.

"THE UNIVERSAL AYER."—On my journeys over the continent—through Turkey, India, China, Japan, Peru, Chili, Paraguay, Brazil, and Mexico, and the United States—in them all to some extent and in some to a great extent, I have found the universal Ayer represented by his family medicines, which are often held at fabulous esteem—Whether they win their marvelous reputations by their cures, I know not, but I know they have it to such a degree that it frequently gave me a distinguished importance to have come from the same country.—F. D. A. from abroad.

A CORRESPONDENT furnishes us the following in regard to the killing of a bear in Delaware township: "On Sabbath day, the 22nd ult., two bears came marching towards the house of Esquire Creighton, of Delaware township. Mrs. Creighton was out and saw them, and being frightened, ran in and told her husband, who picked up his rifle, went out and shot one of the two. It ran a few yards and fell dead. The other was followed on Monday and wounded. The one killed dressed over one hundred pounds of meat. Who is the man that wouldn't kill a bear on Sunday, especially when he came about his habitation?"

LAST evening just before the show opened, a young woman aged about 17 years, who has all her days lived in the country—east of Mifflin—excepting the few past months, was walking about the side shows that accompany Forepaugh's Menagerie and Circus, when she was accosted by a stranger and told if she would walk away with him that he would show her all about the show. The girl unwisely did as requested. She alleges that after they had walked a distance away from the crowd into the darkness they were met by two other men. The three then feebly violated her person. If it be possible for the girl to identify any of the party, they should be followed, and brought to justice. It is believed they belong to the show.

MUTILATED BANK NOTES.—Mutilated \$5 bills are in circulation—so ingeniously manipulated as to pass without detection, unless attention is specially directed to them. The following description of the process of mutilation, given by Person's Detector, makes detection easy: "The 'dodge' consists in making ten bills out of nine, and is so managed that there is but one passing to each of the manufactured notes. The nine whole bills are taken, and from the right of the first one-tenth is sliced off from the right of the second two-tenths; from the right of the third three-tenths, and so on to the number nine, from which nine-tenths are taken from the right, or what amounts to the same thing, one tenth from the left—Number one is passed as it is, with a tenth gone from the right; the one tenth taken from the number one is pasted to the residue of number two, from which two-tenths had been taken; these two tenths are made to answer the place of the three-tenths taken from the number three, and so on through Thus nine \$5 notes are completed, leaving the original number nine, with a tenth gone from the left, as a tenth note. It will be seen that but a tenth is gone from each bill, and is in a different place on every one, and a little ingenious pasting makes the loss imperceptible to ordinary observers. It is certain that large numbers of these mutilated bills have been put in circulation.

LAST evening, between the hours of 6 and 9 o'clock, Mr. S. West's house on Water street, was entered by some unknown thief or thieves, while the family were absent. The entrance was effected through the cellar. On the first floor, the drawers of a bureau were forced open and two dollars in money, that belonged to the children, two watches, a quantity of jewelry, a gold pen and holder, and a pen knife was taken therefrom. On the second floor a bureau belonging to Mr. Noble, who is boarding at Mr. West's, was forced open and thoroughly rummaged, but nothing taken from it. A bundle of Mr. West's clothes was found at the head of the stairway to the second floor. Why the thief or thieves left it, after preparing it to take away, can only be conjectured.

WHEN a discoverer of any scientific subject asks the co-operation of the learned, he is, in fact, to test the merit and truth of his discovery by severe tests and practical results, and then to endorse and recommend it, it is fair to presume it is valuable for the purpose intended. Such has been the course pursued by Messrs Hall & Co., proprietors of Hall's Vegetable Sialian Hair Renewer. And all those who have tested it (among whom we may mention Dr. A. A. Hays and S. Danna Hays, Chemists, and State Assessors of Massachusetts; Walter Burnham, M. D., Prof. of Surgery in Penn University, Philadelphia; Geo. Gray M. D., Professor of Anatomy and Physiology, Jersey City, N. J.) are the best preparation in use for all cutaneous diseases of the scalp. Restores gray hair to its original color, prevents the hair from falling out, creates a new growth. It is certainly worthy of a trial.—Newburyport Herald of Gospel Liberty.
