FARM AND HOUSEHOLD.

ECONOMY OF LONG FURROWS.

A German agricultural journal observes that farmers usually pay little attention to the length of the furrows to be plowed in a field, and yet great waste of time and labor is the necessary consequence of unsuitable arrangements in this respect. The turning of the plow and the commencing of a new furrow requires more exertion in the plowman and the team than continued work on a straight line, and how great may really be the loss of time from frequent interruptions in short turns, may be shown by the following calculations: In a field 225 feet long, 5½ hours out of 10 are spent in redirecting the plow, with a length of 575 feet, 4 hours are sufficient for the purpose, and when the plow can proceed without interruption for 800 feet, only 1½ hours of the daily working time are consumed. Hence the rule to make the furrows as long as circumstances will admit.

Harvesting Corn.

Colonel Harris says, in the last number of the Agriculturist: "I believe corn will yet be harvested as we harvest wheat—cut with a reaper, bound into bundles of a convenient size for pitching, and then thrashed or husked by a big machine driven by ten horses or a steam engine. It must be powerful enough to take in a bundle at a time, strip off the ears and husk them, and the stalks as they pass through can be cut up and elevated by a straw carrier. I believe in less than ten years we shall see hundreds of such machines traveling from farm to farm, as threshing machines now do, and we shall wonder how we ever got along without them."

RYE AND INDIAN BREAD.—Was there ever any bread so good as rye and Indian bread? Pity there are so few who know how to make it. Once in a while we find some old lady who can do it to a charm. We knew several a few years ago, and one told us just how to make it. She said: "For a good thick loaf I take one pint rye flour to three pints corn meal, one-half teacup of molasses or brown sugar, scald with boiling water—be sure to stir in water enough to thoroughly scald it—cover it up and let it stand till cool, then reduce with cold sweet milk until thin enough to pour into your pan, bake all day, let it stand in the oven all night and in the morning you will have the best loaf of bread you ever tasted. If your crust is too hard to eat remove it, soak it in water and add to your next loaf. It will be richer than the first.

HOW TO BRIGHTEN STRAW MATTING AND OIL-CLOTHS.—Tell your readers, writes Mrs. G. E. that if they wish their straw matting to keep looking bright, they must wash it twice during the summer with salt and water, say about a pint of salt, dissolved in a pailful of warm soft water, drying the matter quickly with a soft cloth. The salt, she says, will prevent it from turning yellow. Far away, and from quite an opposite quarter, we hear another friendly voice, begging us to say to our readers that after oil-cloths are scrubbed and dried, they should be rubbed all over with a cloth dipped in milk. "You have no idea," says our friend, "how brightly the colors come out. Husband says it is the albumen in the milk, but I think its the very thin film of grease deposited. Meantime, our oil cloth shines the whole year round."

IT is generally considered that the principle of rotation in crops is a modern discovery, and yet nature has worked in this way from the commencement. Proofs of this are seen in the vegetable remains of rocks and coal beds, and even now we see the same principle at work whenever we cut down a pine woods, which if allowed to grow in timber again is replaced with deciduous trees, as oaks, beeches, maples, etc., while a beech or maple or oak wood cut off will be replaced with pines. Here is undoubtedly rotation of crops, and we merely follow nature when we adopt the principle in our agricultural operations

A GENTLEMAN in Vermont has raised a new potato which he represents as much earlier than any other variety. The potatoes being of fine quality, Messrs. Bliss & Son bought his stock, allowing him to retain half a peck; he entered into an agreement not to sell this half-peck of potatoes nor their produce until 1874. The raiser now writes that a neighbor has offered him $500 for that half-peck of potatoes, and he wishes permission to sell them. The potato has not received a name, but it will be tried during the coming summer before putting it upon the market.

A RURAL CAROLINIAN correspondent gives the following as the best method of putting up hams, to prevent skippers: "Kill the hogs in time to have the meat cured and smoked by the 1st of march, at that time take the hams and rub the flesh part well in oak ashes, leached and pack away in barrels or troughs, and the skippers will not disturb them. Since I have adopted the above plan, I have never had a skipper in my meat.

PREVENTING IRON GARDEN-TOOLS FROM RUSTING.—It is said that if iron garden tools are laid for a few minutes into a solution of soda, they will be protected from rusting for a long time, even if exposed continuously to a moist atmosphere.

AN honest death is better than a dishonest life.

FOUTZ'S

CELEBRATED

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

DAVID E. FOUTZ, Proprietor,
BALTIMORE, Md.

HAIR RENEWER

Nine years before the public, and no preparation for the hair has ever been produced equal to Hall's "Vegetable Sicilian Hair Renewer," and every honest dealer will say it gives the *best satisfaction.* It restores GRAY HAIR to its original color, eradicating and preventing dandruff, curing BALDNESS and promoting the growth of the hair. The gray and brashy hair by a few applications is changed to black and silky locks, and wayward hair will assume any shape the wearer desires. It is the cheapest HAIR DRESSING in the world, and its effects last longer, as it excites the glands to furnish the nutritive principle so necessary to the life of the hair. It gives the hair that splendid appearance so much admired by all. By its tonic and stimulating properties it prevents the hair from falling out, and none need be without Nature's ornament, a good head of hair. It is the first real perfected remedy ever discovered for curing diseases of the hair, and it has never been equalled, and we assure the thousands who have used it, it is kept up to its original high standard. Our Treatise on the Hair mailed free; send for it.

LABORATORY, NASHUA, N. H.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

THE undersigned hereby informs the public that he still continues to carry on the Butchering Business in Mifflintown, and will hereafter supply the citizens of Mifflin and Patterson with

CHOICE BEEF

every TUESDAY and SATURDAY mornings, and with

Veal and Mutton

every THURSDAY morning. His wagon will go the rounds of both towns on the mornings mentioned. As he is the only butcher in this vicinity who continued in business during the past winter, for the accommodation of the public, he feels that he is entitled to more than an ordinary share of patronage throughout the summer season.

FRANK MAXWELL.

April 12, 1871

Meat! Meat!

THE undersigned hereby respectfully informs the citizens of Mifflintown and Patterson that his wagon will visit each of these towns on TUESDAY, THURSDAY and SATURDAY mornings of each week, when they can be supplied with

Choice Beef,
Veal, Mutton,
Lard, &c.,

during the summer season, and also PORK and SAUSAGE in season. I purpose furnishing Beef every Tuesday and Saturday morning, and Veal and Mutton every Thursday morning. Give me your patronage, and will guarantee to sell as good meat as the country can produce, and as cheap as any other butcher in the county.

SOLOMON SIEBER.

June 14, 1871

FRESH BEEF, VEAL, &C.

THE undersigned would respectfully announce to the public that he has commenced the Butchering Business, and that his wagon will visit Mifflintown and Mexico on TUESDAY and SATURDAY mornings of each week when they can have an opportunity of purchasing

EXTRA BEEF,
VEAL, MUTTON,
LARD, &C.,

cheaper than from any other wagon. He only asks the citizens to give him a trial to satisfy them that he sells cheaper and better meat than any other butcher in the county.

CYRUS SIEBER.

April 5, 1871-tf

New Tin and Stove Establishment,

Perrysville, Juniata County, Pa

THE undersigned has opened out a new Tin and Stove Establishment in the room on Railroad Street, next door to the Tuscarora Hotel, where he would be pleased to see all who are in want of Tinware, Stoves, &c. He will also give prompt attention to all orders for Roofing, Spouting and Jobbing, all of which he guarantees to put up with the best of material and in a workman-like manner. Having had over ten years experience in the business he flatters himself that he can give entire satisfaction to the public.

He keeps on hand the celebrated Nimrod Cook Stove, which is the best baker, most economical and heaviest plated stove now in use. He will keep on hand the Oriental Heaters, and a general assortment of the best Stoves manufactured. JOHN DUNBAR.
