

PENNSYLVANIA RAILROAD—ON AND AFTER SUNDAY, NOV. 12, 1911, PASSENGER TRAINS WILL LEAVE MILLIN STATION AS FOLLOWS:

Table with columns for destination (Philadelphia, East, etc.) and departure times.

TOWN AND COUNTRY.

Whimsies are going out of fashion in Paris.

The fine imposed on profane swearers is called by an exchange "sin tax."

A caravan of Gypsies passed through town yesterday, westward-bound.

An exchange says that the man who colors his mustache is dying for love.

Persons intending to buy Cook Stove this Spring, will do well by calling on N. E. Linkfield soon.

The Hollidayburg Standard of last week describes the following court scene: On Monday afternoon a witness was called. He was in a delightful state of ebullience. He bolted for the witness stand without stopping to go through the little formality of taking the requisite oath. The clerk called him back and asked him how he would swear. Before answering could be made the Judge mildly remarked: "You are fined \$25 for being intoxicated when you are wanted as a witness—no stand committed till the fine be paid." The walls of the jail encircled this unfortunate individual for a period of forty-eight hours.

SEVERE ACCIDENT.—On last Sunday evening a son of Mr. Ferry, of New Buffalo, this county, met with a painful and serious accident. He had been throwing hay into the feeding room below, and also threw the fork down, which lodged in the hay with the prongs upward, and in jumping down one of the prongs entered his body about three inches just below the breast bone. The prong was bent when drawn from the boy's body. The other children soon gave the alarm, and when first lifted up it was supposed the lad was dead. He soon after became conscious, and there is hope of his recovery. —Perry County Advertiser.

BALLOON'S MAGAZINE FOR APRIL.—There is no magazine in this or any other country that will compare with BALLOON'S for the variety and interest of its contents. It caters for all classes; and old and young (and even your dog) will find something in its issue of contents to please and cheer them. Boys and girls find in BALLOON'S a department that is expressly appropriated for their interest, amusement and instruction; and all who read the magazine are unanimous in its favor, and call it the most popular of all the serials in the country. It contains historical tales, sea yarns, wonderful adventures, the best poetry, thrilling romances, and some superb illustrations, and yet is sold for the low price of 15 cents per copy, or \$1.50 per year; cheap, but good. Try a number and see. Address THOMAS & TALBOT, 63 Congress Street, Boston. If the Magazine cannot be obtained at the near est periodical depot.

ATTEMPTED FORGERY.—Last Wednesday afternoon, about the close of banking hours, a man representing himself as Henry Renshaw, a farmer near Oakland Mills, entered the Juniata Valley Bank and inquired of the Cashier whether he could obtain five hundred dollars. Mr. Irwin informed him that by furnishing an acceptable endorser, that he could have the amount desired. Renshaw suggested Mr. Elias Horning, of Fernsborough township. The cashier was satisfied with the name, and drew up a note, payable in thirty days and handed it to his customer, when, lo, he could not write, he must make his mark, which he did. Mr. Irwin then told him that Mr. Horning was then most likely at his home, and that he could not obtain his signature before the time to close the bank, and suggested that he should return the note on Thursday morning; and also instructed him to get some one to sign the note as a witness, all of which the fellow promised to do. On Thursday Renshaw again appeared at the bank. He had followed the instructions of the cashier, as far as the paper showed to the letter—for it bore the name of Elias Horning, as endorser, and the name of John Wagner, as witness. To the trained eye of the cashier the signature of Elias Horning did not correspond with the one he usually makes. The fellow said that when he went out to Mr. Horning's house he was not in, but was in the woods, whither he and Wagner went, and that there the signing and witnessing took place. This story was evidently said to create the impression that the want of proper facilities for writing in the woods, was the cause of the singularity of the signature. However instead of removing the doubt, in the mind of Mr. Irwin, as to genuineness and honesty on the part of Renshaw, it only strengthened his belief that the names of Horning and Wagner were forgeries; and he told the fellow that unless he produced Mr. Horning personally, to prove that the signatures were genuine, that he could not have the money. Renshaw thought that Horning was in town. He would go out and bring him in. He left and has not been seen since. The names of Horning and Wagner were forgeries.

The cholera has already made its appearance in India.

To temper lamp chimneys, put them in a pot of cold water, and gradually heat it until it boils; then let it as gradually cool, and the chimneys will not be broken by the ordinary fluctuation of the flame of the lamp.—E.

Johnson's Anodyne Liniment is, without doubt, the safest, surest, and best remedy that has ever been invented for internal and external use. It is applicable to a great variety of complaints, and is equally beneficial for man or beast.

The first game of base ball of the season in Perryville was played last Saturday, between the "Mosquitos" of Perryville and the "Shoo-Flies" of Airy View, with the following result: Mosquitos, 6; Shoo-Flies, 7.

The young misses of this place made a beautiful thirteen diamond quilt, at the residence of Mrs. Cornelia McClellan, and on Tuesday evening Miss Eva McClellan presented it to Mrs. Anna Troup, for whom it was intended, and who suffered by the late fire at this place. Mrs. T. returns her thanks to her young friends.

PHILADELPHIA CATTLE MARKET.

Monday, Mar. 18—4 P. M. The arrivals and sales of Beef Cattle at the Avenue Drove-yard were large this week reaching about 2800 head. The market in consequence was dull, extra Penn and western steers selling at 72 1/2c, fair to good do. at 67c, and common at 64 1/2c to 65c, as to condition.

Cows and Calves were not much sought after. Sales of such were offered at \$3.50 to \$4.50, and fresh cows at \$45.00. Receipts 260 head.

Sheep were in demand and full figures were realized. Sales of choice at 9 1/2c; fair to good at 8 1/2c; Penn yellow at 6 1/2c to 6 3/4c; Receipts, 12,000 head.

Hogs were also in demand, and corn-fed changed hands at 87 1/2c to 100 lb net. Receipts, 3200 head.

Office for all kinds of Plain and Fancy Printing.

JUST as we go to press we are informed that a great fire is raging at Altoona. The "Logan House" and other buildings belonging to the Pennsylvania Railroad Company have been destroyed.

It is said that the agents for the sale of Sheridan's Cavalry Condition Powders are authorized to refund the money to any person who should use them and not be satisfied with the result.

RES OFF.—This morning two horses hitched to a wagon owned by Samuel Myers, of Fayette township, frightened at the cars about the Patterson warehouse, and ran away. They sped to ward the river bridge, which they reached unmolested. Here, however, each horse broke a side, and sprang to the right and left of the partition post, which brought the team to a halt suddenly, without very serious damages to either horse or wagon.

The Fish Commissioner of this State, Col. Morrill, in his late report, delivers himself as follows on fish baskets: "I find that a plant of black-bass taken from the Potomac at Cumberland, and placed in the Raystown branch of the Juniata, some years ago has turned out to be a complete success. These bass many of them have reached to several pounds in weight, and can be caught in abundance in the sequestered loops and bends of that beautiful stream below Bedford. On the main Juniata, some were placed within a year or two. I am afraid that the war against fish baskets has not been prosecuted there with quite the vigor which has been exhibited by our Susquehanna shorliff. Let me assure the people of that section that if they want black-bass or any other fish in their stream they must be down with the baskets; there can be no success where those vile contrivances are allowed. Now what we want on the Susquehanna is pretty much what we want on the Delaware. We must have a close time on the low waters. We must open more of our dams. We must thoroughly repress all unfair fishing and let us propagate. We know that we can make fish ladders, for we have made one that has met with fair success all the rest is easy. We have had Maryland to deal with on the Susquehanna, as we have New Jersey on the Delaware. I am given to understand that the best feeling exists in Maryland, and I am already in correspondence with a prominent fisherman on the lower Susquehanna, who says he doubts not that all reasonable concurrent legislation can be obtained."
