

WEDNESDAY MORNING, MAY 1, 1872.

PENNSYLVANIA RAILROAD—ON AND

after Sunday, Nov. 12, 1871, Passenger Trains will leave Millin Station as follows:

Table with 2 columns: Train Name and Time. Includes Philadelphia Express, Fast Line, and others.

TOWN AND COUNTRY.

Out of season—fresh oysters.

This is covenant day at Cincinnati.

A railroad between Milton and Selinsgrove is talked of.

George Wilson's Guppy Car is never failing in its trips.

It is said that marble has been found in Center county.

Dr. J. F. Sorg has moved to Ansville, Lebanon county.

Mrs. Maria Reese has opened an ice cream saloon at her residence in Patterson.

It is believed by people of Patterson, that a mad dog was shot in that town on last Friday.

A humorous Cincinnati editor styles the convention now in that city the Dolly Varden convention.

The Pennsylvania Reserve Association will hold their sixth annual session at Wilkesbarre this State on the 15th of this month.

David Paul Brown says that the temperance cause is the greatest cause that this world knows excepting that of pure and undefiled religion.

If there were such a thing as Dolly Varden men's goods Strayer in Patterson would keep them; he keeps every other new thing that men wear.

A valuable horse, the property of Jas McEwen of Fayette twp., was strangely effected last week. The common saying is, that he was crazy or mad, he raved so that it became necessary to shoot him.

If you want a good axe, saw, hatchet, hammer, auger, or anything in the hardware line, go to Graybill's new Hardware Store, in the Crystal Palace Building.

The Sacrament of the Lord's Supper will be administered in the Licking Creek Lutheran Church on next Sabbath, at 10 o'clock A. M. Preparatory services on Saturday previous at 2 o'clock P. M.

The name Dolly Varden is derived from one of Charles Dickens' heroines in Barnaby Rudge. Reader if you are desirous of getting Dolly Varden and other fashionable goods, go to Pennell's.

An employee of the Union Telegraph Company was seriously hurt on Thursday last, near McVeytown, by a heavy telegraph pole falling across his abdomen while he was helping to unload a wagon load of poles.

The fellow who attempted a forgery at the Juniata Valley Bank, was tried, found guilty, and sentenced by the Court, to a one year term of imprisonment in the western Penitentiary at Pittsburgh.

Black Friday is the name of a new theatrical play that has been introduced into New York. Theatrical critics severely condemn it but the new harness blacking for sale at Graybill's hardware store is approved by critics on blacking.

The attention of our readers is directed to the double-column advertisement of Messrs. Tiltens & Espenschade Their Spring Dress Goods comprise the latest and most popular styles. Groceries of all kinds can be had at their Grocery Department in the new Odd Fellows' Hall.

The new Odd Fellows Hall at this place was dedicated with appropriate ceremonies last Saturday. The dedicatory services were conducted in the Lutheran Church, where a large assemblage of persons witnessed the ceremony, and listened to the able and eloquent address by the Rev J. C. Kaggy, of Maryland.

Tuscarora Female Seminary has been reopened by Professor J. P. Sherman of Montgomery county, under the most encouraging circumstances. The attendance of thirteen young ladies from Montgomery county where Mr. Sherman taught many years is an evidence of the esteem in which he is held by the people of that community. Several young ladies from this place are also there as pupils.

The court of Bedford county sentenced a mulatto that was convicted of stealing a robe of butter to one year's imprisonment, but the fellow did not reach the penitentiary. The Inquirer of last week tells how he escaped from the county prison: Tuesday night Scott made his escape from jail by burning a hole, with the stove poker, through his cell floor, through which he made his way to the cellar. He then dug an opening through the brick wall and got into the yard, and scaled the wall. Sheriff Keyser offers \$50 reward for his arrest and return.

M. L. Littlefield, ex-editor, was home last week from Washington, after a day's sojourn he returned with a great deal of the paraphernalia of housekeeping if we dare so to speak of a general assortment of household goods. Among the many good things was a big ham. Pennsylvania and Indiana will compliment that ham long after it has graced the family board.

Wm Snyder's furniture wagon was kept running at a trot all last Friday forenoon supplying Graybill's Hall with chairs. Three hundred and sixty were placed in the hall. Mr. Snyder is a good workman, and the public know it. The large number of chairs which are manufactured and sold by him are a proof of his superior workmanship.

The Pleasant View Saving Fund and Loan Association was fully organized on Friday evening last, and the following persons are the officers: William B. Milkien, President; I. K. Patterson, Vice President; Alfred Snyder, Secretary; I. L. Barton, Treasurer. Directors: Jacob Esh, John Yoder, John Gillford, John P. Kelly, Dr. Smith Gallaher, Wm. The next sale will be on last Friday of May, at Pleasant View.

The Executive Committee of the S. S. Association of Juniata county met in this place on Saturday, 27th ult., and together with other business, adopted a very interesting programme of exercises for its approaching Convention.

CALL FOR A CONVENTION OF S. S. ASSOCIATION.—The Juniata Sabbath School Association will be held in the Presbyterian Church at Perryville (Port Royal) on the 28th and 29th inst., the exercises commencing at 10 o'clock in the forenoon. All the Sunday Schools in the county are hereby cordially invited and earnestly urged to appoint and send delegates to this Convention. The delegates from each school will number from 3 to 6, according to size of school. The assessment laid to meet the necessary expenses of our Association, is \$1. from each country and \$2. from each town school. Printed programmes will be sent to each school, as far as possible, at least one week before the meeting of Convention, so that the subjects may be studied and music practiced by the delegates.—Come one, come all. Let us, by the help of God and of Sunday School workers, have the best Convention ever yet held in Juniata county.

D. M. BLACKWELDER, Chairman Executive Committee.

BEAUFUL WOMEN.—The hair is the crowning glory of a woman. There are few moderate defects which cannot be remedied by the proper disposition of the tresses. But when the hair begins to fall out, or turn gray, in young people, or with those in the prime of life, there is cause for real regret. When this is the case, Hall's Vegetable Sulfur Hair Restorer will be found to be a first class remedy, far superior, as a sound medical medium, to any thing else before the public. It actually restores gray hair to its original color, and in the great majority of cases, causes it to grow again when it is becoming thin. It is not like many popular preparations, a mere wash, but a scientific discovery, indorsed and used by Hall & Co., of New York, N. H.—Forsyth's Weekly Press, Feb. 1, 1868.

FACTS OF INTEREST.—As the question is frequently asked, "Which is the best sewing machine?" The following itemized facts might be of benefit. Sewing machines are like books. Those gotten up hastily are as a general rule mostly copied, and of an inferior grade. The oldest established machine in the world is the "Howe." Elias Howe, Jr., inventor of the sewing machine, after he had been successful in his undertaking, spent more time in perfecting his machine, than all other sewing machine men taken together; and it is acknowledged by all unbiased machines, that the "Howe" contains finer points of perfection than any other machine in existence. The public know it to be durable. A conclusive evidence is that twenty years have not placed secondhand "Howe" machines in the market which can not be said of any other machine. While many machine companies have had their rise and fall—their machines once popular, now scarcely known—the Howe Machine Company built addition after addition to their factory, and to-day can not supply the demand, although turning out over six hundred machines a day—just one machine a minute—more machines than are manufactured of any one kind in the world. It stands ahead of every machine in the world. It takes the lead in this State, and about two hundred and fifty Howe machines are in use in this county—more than all other sewing machines taken together. All give satisfaction. It was awarded the highest premium at the fair in Perryville last fall and has invariably been awarded the highest premiums at the principal fairs throughout the world. In range and variety of work it cannot be equalled. It is light running, simple and reliable.

THE Russell Reaper and Mower should be in the possession of every farmer. It would save their horses, as it runs light and puts no weight on the horses' necks. The gearing of this machine is encased, so that neither dust, dirt nor sand can get into it. The machine is simple in its construction, and is strong and well made. It mows 4 feet 6 inches wide, and reaps 6 feet wide, and has dropper and self-raiser. The cutter-bar is behind.

TOMAS HERTZLER, Spruce Hill P. O., Agent for Juniata and Perry Co's.

AMONG THE INDIANS.—Lieut. Herndon tells us that no tribes of aborigines are found in the deepest forests of South America, from the Andes to the Atlantic coast, that do not have and use Doctor Ayer's medicines and Lowell cottons "TREMONT," "SUFFOLK," "BOOT," are seen stamped in large red and blue letters upon their garments, while Ayer's Pills and Cherry Pectoral are among the treasures of their habitations. Their native soil furnishes them all their food and most of their remedies, but they suffer from some afflictions which must have the interception of higher skill.—Sentinel, Liberty, Va.
