FARM AND HOUSEHOLD.

HOW SOIL WAS MADE.

Professor Agassis says that all the material on which agricultural progress depends are decomposed rocks, not so much those that underlie the soil, but those on the surface, and brought from a considerable distance, and ground to powder by the rasping of the glaciers. Ice, all over the continent, is the agent that has ground out more soil than all other agencies put together. The penetration of water into the rock, frost, running water and baking suns, have done something but the glaciers more. In a former age the whole United States was covered with ice several hundred feet thick, and this moving from north to south by the tropical warmth, or pressing weight of the ice and snow behind, ground the rocks over which it passed into the paste we call soil. These masses of ice can be tracked as game is tracked by the hunter. He has made a study of them in this country as far south as Alabama, but has observed the same phenomenon, particularly in Italy, where among the Alp glaciers are now in progress. The stones and rocks ground and polished by the glaciers can easily be distinguished from those that are scratched by running water. The angular boulders found in meadows and terraces of rivers not reached by water can be accounted for only in this way.

A Recipe For Preserving Hams.

A plain, simple way of preserving hams is to let them lie on a table or boards, flesh side up, for at least two days after being cut. Rub them occasionally with fine salt to extract the blood and animal heat; make a pickle that will float an egg, so that a portion of the shell will appear above the surface the size of a ten cent coin. Pack the hams in a cask and pour on the pickle when entirely cold; let them remain six weeks and no longer, unless very large. Four ounces of brown sugar, and half an ounce of saltpetre to every twenty pounds of ham adds to the pickle, improves the looks and flavor. Smoke in the ordinary way, as recommended by Daisy, except using the attic for a smoke house; keep it as a safe place to hang the hams in for summer use, out of the reach of flies. Flies deposit their eggs in animal matter, not only to be hatched out, but for the purpose of affording them food for that stage of their existence. The parent fly does not seek out a place in the third or fourth story of a building to propagate her species, knowing full well by natual instinct that her prospective family would die prematurely by heat and drouth before the laws of their being could be fulfilled. Make a dark place in the attic or garret to hang up the hams, and it will save the trouble of bagging and lining, or packing in casks and boxes, which frequently gives them a musty and unpleasant flavor.

THE STRIPED BUG.—The Germantown *Telegraph* has the following:

"Every gardener knows that this is a most destructive insect among melon, cucumber and other young vines, sometimes damaging the crop seriously. Many remedies have been suggested, some of them no doubt, good in their way, but troublesome. Now we have tried for several years a remedy which has proved, with us, a complete success. In stead of aiming to drive away the insect by soot, ashes, etc, we pet it, or rather furnish it with food better than the young melon and cucumber plants. We sow around each hill, at the time of each planting, a few radish seed, and, coming up about the same time, the tops supply pasture for the bug which it much prefers to the vines. Lettuce will also answer, but the radish is rather liked the best. While our vines are untouched by making this little provision for it, the young radish tops are completely perforated.

Should this fail—which is seldom the case, and has never been with us—sprinkle the vines with a solution of whale oil and water. No insect but the curculio can stand this. Where this preparation is not attainable a weak solution of carbolic disinfectant soap will answer as well."

OATS FOR LAMBS.—The importance of having lambs ready for market at as early period of the season as possible, is a matter which every farmer who lives in the vicinity of large markets understands, or at least ought to. It may perhaps not be known to all farmers, that lambs are able to eat oats when from three to four weeks old and my experience has been that there is no provender with the use of which I am familiar, that appears to have such immediate and salutary effect upon them. All that is necessary to be done is to moisten the oats and place them in a trough raised about six or eight inches from the floor, and where the old sheep cannot get at them. Those who are sceptical in regard to this matter, can very readily test the value of this suggestion on a single lamb or a pair.

SALT AND ASHES FOR HORSES.—Those keeping horses should, twice a week, throw in a handful of salt and ashes. Mix them by putting in three parts of salt to one of ashes. Horses relish this, and it will keep their hair soft aed fine. It will prevent bots, colic, &c. A little ground sulphur mixed with salt and ashes, and given once in two or three weeks, is also beneficial. All domestic animals will be thus benefitted.

A western editor speaks of a cotemporary who is "so dirty that every time he goes up stairs there is a rise in real estate."

Manhood: How Lost, How Restored

Just published a new edition of **Dr. Culverwell's Celebrated Essay** on the *radical cure* (without medicine) of SPERMATORRHŒA, or Seminal Weakness, Involuntary Seminal Losses, IMPOTENCY, Mental and Physical Incapacity, Impediments to Marriage, etc.; CONSUMPTION EPILEPSY, and FITS, induced by self-indulgence or sexual extravagance.

☞ Price, in a sealed envelope, only 6 cts.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically*.

☞ This Lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, *postpaid*, on receipt of six cents, or two post stamps.

VINEGAR BITTERS

VEGETABLE — FREE FROM — PURELY — CALIFORNIA — ALCOHOL
Dr WALKER'S — EUREKA
VINEGAR BITTERS

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs, and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose health is perfect in the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of Medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases. Persons engaged in Paints and Minerals, such as Plumbers, Type setters, Gold-beaters, and Miners, as they advance in life, will be subject to paralysis of the Bowels. To guard against this take a dose of WALKER'S VINEGAR BITTERS once or twice a week, as a Preventive.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James and many others, and their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. There are always more or less obstructions of the liver, a weakness and irritable state of the stomach, and torpor of the bowels, being clogged up with vitiated accumulations. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored vitiated matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or Kings Evil, White Swellings, Tumors, Ulcers, Swelled Neck, Goiter, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by removing away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic and Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Aperient and mild Laxative properties of DR. WALKER'S VINEGAR BITTERS are the best safeguard in all cases of emptions and malignant fevers, their balsamic, healing, and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, either from inflammation, wind, or cramps, etc. Their Counter-Irritant influence extends throughout the system. Their Diuretic properties act on the Kidneys, correcting and regulating the flow of urine. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are especial agents for the cure of Bilious Fever, Fever and Ague, etc.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good nourishing food, such as beef steak, mutton chop, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be readily cured or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.
