RIOT AT HOLLIDAYSBURG.—Some colored and white men of Hollidaysburg raised a street riot on the evening of the 15th inst. The story goes that a colored man under the influence of liquor entered a store and bought seventy-five cents worth of goods and handed the clerk a one dollar bill as pay. The clerk returned twenty-five cents, when the customer said that he had given him a five dollar bill instead of a one, and demanded four dollars and a quarter change. It was not given. The fellow left and gathered a parcel of his race and they returned. In the meantime a crowd of mixed colors had collected about the store. One blow from the fist of a white man started a riot, in which weapons and missiles of almost every kind were used. No serious injury was sustained by any of the rioters. A little girl, in passing on the opposite side of the street, was struck with a stone and considerably hurt.

THERE are several kinds of worms which trouble horses; the pin-worms (pointed at both ends) are the most common and most dangerous. Sheridan's Cavalry Condition Powders will in a few days eject the worms, and the horse will begin to thrive.

THE Carbine Head of last week states as follows, how James Bentz, a youth of 17 years, had an eye knocked out on the 17th inst. It seems that in company with several other boys they had been playing a game of base ball at the Barracks, and during that they went to the "swimming hole" to bathe, and while there they began to throw mud balls and sticks at each other, when young Bentz was accidentally struck with a stick, and his eye knocked out.

On Saturday last, as Isaac Heddings, wife and child were passing Col Kerr's farm above Red-ville in a buggy, a prairie snake on a fence uttered its shrill note and frightened the horse they were driving. The horse started to run, but in clearing him he got on to a bank three Mr. Heddings out over the dasher, upset the buggy and threw Mrs. H and the child out. Mr. Heddings was severely stunned and Mrs. H scratched, but the child escaped injury. Neither of them, happily, are seriously injured.—Lewistown Sea Inst.

TWO MEN KILLED.—Tuesday last, two of our townsmen, Christian Harry and Christian H. Hone, met with tragic deaths. While working at an embankment along the railroad about a mile and a half this side of Petersburg the embankment suddenly fell in upon them, injuring the former so severely that he died before reaching home, and the latter that he expired the evening after the accident. Hone was a single man, but Harry leaves a widow and a large family of children who were dependent on his labor for support.—Huntingdon Monitor.

On Wednesday evening, of last week, during the heavy thunder storm, a young man named William Carroll, residing near Cresson, took refuge under a tree in sight of his residence. The tree was struck by lightning and the young man instantly killed. His mother was standing at the window during the storm and saw him leave the road and take shelter under the tree. The deceased was a very estimable young man and was the support of his aged mother whose husband was killed on the same day of the month twenty years ago.—Allentown Radical.

RAILROAD ACCIDENT.—TWO MEN KILLED.—Another fearful casualty must be added to the list of railroad accidents Thursday evening, last while upon its regular trip to Bedford the Huntingdon and Broad Top passenger train met with an accident which cost the conductor, James Davis and the fireman Jesse B. Decker their lives; demolished engine No. 17 and a freight car. The particulars as we are able to glean them are as follows: The engine stopped at a water station above Hopewell, and consequently had not got under much speed when the driving wheel of the engine struck the end of a rail which had worked a little out of place, the rail spread, and engine, tender and a box car filled with corn were precipitated down a twenty-foot embankment into the river. The coupling connecting the box car with the baggage car fortunately broke and the end of the latter lodged against a telegraph pole thus saving the passenger car from being wrecked, also. At the time of the accident the conductor, fireman and engineer were all on the engine; the latter by some means escaped injury but the conductor and fireman were caught in the wreck, carried with it, the latter instantly killed and the former so terribly injured that he died a few hours thereafter.

NOTICE TO TAX-PAYERS.—Notice is hereby given that all persons who will pay to the Collectors of State, County and Militia Tax the amount of their tax in full for the year 1872, on or before the Second day of September, 1872, will be allowed an abatement of Ten Per Cent. All delinquents after that date will be required to pay the full amount of their tax as charged in duplicate.

CAMP MEETING.—The Juniata Valley Camp Meeting Association have purchased a beautiful Grove in the vicinity of Newton Hamilton, directly on the line of the Central Pennsylvania R. R., and intend to establish a permanent Camp meeting, designed especially for the benefit of the Methodism of the Juniata Valley.

It is the purpose of the Association to erect suitable buildings for the accommodation of all who may desire to spend a few days devoted exclusively to religious services. These houses will be shingle-roofed, and in addition to good floors will be furnished with bunks. Two hundred of these houses, each having a front and rear apartment, (one-half of them on the first and the others on the second floor), will be ready for occupancy the present year. The size of the front rooms will be 7 1/2 by 9 feet, that of the back rooms 8 by 9 feet. The price on the first floor will be \$7, on the second \$6.

The time appointed for the commencement of the meeting this year is Tuesday, August 6th, to close on Friday morning, August 16th, 1872.

It has been determined to permit those who rent rooms to select locations, giving those the preference who first pay the stipulated price. The Association, however, will rent only to those who intend to occupy the rooms, but will permit any who are prevented from coming to dispose of their rooms.

Each family will be allowed as much space as may be desired, and the charges will be the same no matter how many rooms are taken, or in what part of the grounds they are located. As the fronts are all open, sheeting or muslin will be needed for curtains.

There will be a limited amount of sleeping accommodations for transient guests, at 50 cents for each person per night, but those who can do so, are earnestly desired to rent rooms and remain through the meeting.

FELL INTO A WELL.—The Altoona Tribune says: On Monday afternoon last a boy named William Sackling, who was assisting to build a wall in East Altoona, was procuring water, for the purpose of making mortar from a well near by, and on the property of a woman named Mrs. Parsons. While endeavoring to draw a bucket of water the boy let the bucket slip out of his hands and it fell down into the well. When the well was sunk some time since, the water came into it so rapidly that it was found impossible to wall it up, consequently a number of pieces of timber were utilized to prevent the well from caving in.

These pieces of timber render a descent into the well a very easy matter, and when the boy let the bucket fall he began to make preparations to go down after it, but being discovered by Mrs. Parsons she inquired what was wrong. Being informed that the bucket dropped down into the well and that he was going down after it, Mrs. Parsons replied that she would go down and get it, saying that she had often been down in the well and that it would be no trouble to her. She began her descent down the ominous looking hole, but had made very little progress when a piece of timber on which she was standing gave way and she was precipitated down into the water, a distance of twenty-three feet.

There is also about eight feet of water in the well, but Mrs. Parsons had sunk twice and upon coming to the surface of the water the second time the rope was let down and she was called to take hold of it. She succeeded in getting hold of the rope, and by this time another boy had arrived at the well when the two boys endeavored to draw her up out of the well by turning the windlass while she was holding by the end of the rope. The boys were making good time with their part of the arrangement. Mrs. Parsons was unable to hold on to the rope and again fell into the water. Again the rope was let down, and again Mrs. P. took hold of it.

Mr. Wm. Leader, who was working in close proximity, was made aware of the fearful situation of Mrs. P. and at once made haste to procure a ladder which he put down into the well, and by the aid of which he succeeded in landing the unfortunate woman safe on terra firma. It was a miraculous escape from drowning, as Mrs. P. was compelled to hold by the rope for at least a half hour while efforts were being made to get her out of the well. Immediately after she was rescued the woman fainted but was speedily restored to consciousness.
