TOWN AND COUNTRY. HUNTINGDON talks of establishing a laundry. OATS is ripening, and promises an abundant yield. The appearance of corn at this time indicates a large crop. The town cows find a pleasant rest in the river bridge on warm days. LAFAYETTE COLLEGE has conferred the degree of L. L. D. on Prof. Wickersham State Superintendent of Common Schools. TWENTY-SEVEN dollars were stolen from the money drawer of Waream's hardware store on last Friday, during the absence of the clerk. A L. Guss, a native of this county, and at one time Editor of the Sentinel, is a candidate for Congress in the Huntingdon district.

A THIEF stole sixty odd dollars from the vest pocket of Solomon Sieber while it hung in his residence in Fernmeach township, on a certain day last week. If the Republican party were to run Jefferson Davis for the Presidency would it appear stranger than does the sight of the Democracy running Horace Greeley for the Presidency. The wheat harvest is about over Juniata will have little to send out of the county. The crop is scarcely more than enough to seed and bread the county the coming year.

On the 4th of July, two men in a bar-room at Tyrone, quarreled, which resulted in the one drawing a pistol and shooting his antagonist, from the effect of which he died the following day. The solitude of Macedonia will be relieved by the Methodist Sabbath School of this place holding their annual celebration there to-morrow. A delightful boat ride to the ground is anticipated. TUSCARORA FEMALE SEMINARY.—The success of this institution under its present Principal is very encouraging. We understand that the prospects for next term are very good. See advertisement.

REPS of all thicknesses, from a twice to an inch rope, can be had at Graybill's Hardware Store. We copy the following from an exchange, which is important, if true:—Chronic diarrhea of long standing, also dysentery, and all similar complaints common at this season of the year, can be cured by the use (internally) of Johnson's Anodyne Linniment. GEORGE BERGER, of the Harrisburg Telegraph has issued the long looked for campaign paper called "We'll fight it out on this line." It is an earnest paper for the whole ticket, and parties wishing a steady campaign paper can do no better than to address the Telegraph and get "We'll fight it out on this line."

BLACKSMITHS will find it to their advantage to buy their Horse Shoes, Horse Shoe Nails, Bolts, Iron and Steel at Graybill's Hardware Store. PATENT MILK BUCKET—A milk bucket, combined with milk strainer, is a desirable and useful article that has lately been patented, and most probably will find its way into general use. For County, Town or Shop Rights address D. HERRZLER & BRO., Huntingdon, Pa. MONEY LOST—A reward of Ten Dollars will be paid for the recovery of W. H. Kinzer's pocket book containing Fifty-four Dollars, lost in Millintown on Saturday July 13, 1872. A liberal reward will be paid for any information leading to the recovery of the same. The money can be left at this office or returned to the owner residing near Van Wert, in Walker township.

TICKET TRANSACTIONS.—The business of selling railroad tickets by any other persons than authorized agents is at times extremely dangerous. There is an act which provides that if any person has purchased a ticket from the railroad company and not used it to its full extent he may apply to the company for redemption and then enact that if any person, not an authorized agent of the company shall sell any ticket for travel on that road he shall be deemed guilty of a misdemeanor and punished. The purpose of the act is to prevent frauds being committed on travelers. A few days ago a man named Whitesides bought and sold excursion tickets that the delegates to the Grant convention did not wish to use, for which he was convicted by a Philadelphia court.—Ez.

THE Jurors summoned for the adjourned court in August will not be required to put in an appearance at the specified time, as the court has been dispensed with. THE Catholics used and approved by the physicians comprising the various medical associations of this State are now compounded and sold under the name of *Porson's Purgative Pills*. TEACHERS WANTED.—Four teachers are wanted in the borough of Millintown to teach the public schools for the ensuing term, to commence on the 14th day of October, and continue 5 months. Application should be made on or before Saturday, August 3rd, 1872. By order of the Board, C. McCLELLAN, Sec'y.

BEAUTIFUL Fine Wire Covers for butter plates, &c. for sale at Graybill's.—Just the article that every family should have at this season of the year when flies are abundant. THE commissioners of Millin county have been fined \$500 each by the Supreme Court, for refusing to obey its former mandate of building a bridge across the Juniata at Newton Hamilton. The county court has issued an injunction restraining the county commissioners from building said bridge. A very pleasant position for "county fathers" to be in.—Ez.

THE Musical Entertainment under the management of Prof. Kurzenknebe, in Graybill's Hall, last evening, surpassed the highest anticipations in regard to it. The Professor knows how to get up a class and manage an entertainment. Everything was nice and pleasant except the temperature of the Hall, which some thought perhaps was influenced by Graybill's heaters or the coming comet. SPECIFIC FOR DIPHTHERIA.—The Italian journals published a letter from Dr. Giovanni Calligaris, describing the remarkable success which has attended his treatment of diphtheria with phenic acid. He relates the losses he formerly experienced among his patients when treating them with emollients, adjuvants, and catarrhization with hydrochloric acid, and observes that this catarrhization can no more eradicate the morbid principle than tearing the leaves off a plant will destroy the root. He now simply uses a gargle of phenic acid and distilled water, with external applications of new flannel; the food and drink to be taken cold. After the adoption of this treatment Dr. Calligaris lost but one patient out of fifty-eight. He requested the Italian journals to publish this discovery. Phenic acid is the agent which is now being used in this country as a remedy for cancer.—Ez.

GRAVILL'S HARDWARE STORE is the place for Carpenters, Cabinet makers, Shoemakers and Saddlers to go for tools made of the best material and sold at the lowest prices. "Lights and Shadows of New York Life; or, the Sights and Sceneries of the Great City." By James D. McCabe Jr.—The National Publishing Co., of Philadelphia, have just issued one of the most remarkable and attractive books of the day, bearing the above title. It is compiled in one large octavo volume of 850 pages, and illustrated with nearly 200 fine engravings of noted places, life and scenes in New York. To Mr. McCabe is due the credit of having produced the most complete and graphic account of the great city, and its busy and varied life that it has been our fortune to meet with. His book is brim full of solid and useful information, and abounds in descriptions of the various public buildings of New York, its palaces, prisons, hotels, churches, stores, hospitals, &c. The work sets forth in glowing colors the noble work for suffering humanity, which is going on every day in the great city, and reveals with a bold hand the terrible crimes; the dark mysteries, and the hidden sins of metropolitan life. We are introduced into the home of the Fifth Avenue millionaire, and carried with equal interest to the equid cellar of the Five Points beggar. We are brought face to face with the good and the bad, the high and the low, with leading merchants, bankers, editors, and actors, with bummers, thieves, detectives, and murderers, with working women, ballet girls, adventuresses and a host of others, and we seem to be listening to their stories from their own lips, so thoroughly does the author enchain our interest. Our warmest enthusiasm and our deepest contempt are alternately aroused by the thrilling recitals of their deeds of virtue and vice. The history and frauds of the famous Tammany Ring are related with great force and candor, and this portion alone is worth the price of the book. In short the book is New York in miniature. The author has penetrated, under the protection of the police, into the darkest and most dangerous haunts of crime in the city, and has thus been enabled to obtain accurate information on the topics whereof he treats. Visitors to New York, cannot hope to see or know as much of the city as they may learn by a perusal of this book. To all who contemplate visiting the great Metropolis, we cordially recommend it, both for its information and for its powerful warnings against the dangers of the city. Those who cannot see New York for themselves will be in a great measure repaid for that privation by reading this work. It is published in both English and German; sold by subscription only, and the publishers want agents in every county.
