Their Record Condemns Them.

It required two weeks of time for the editors of the Republican to produce an answer to our article in regard to their false charges. They replied in last week's paper, under the heading of "Heavy Artillery." The article does not meet the questions, namely : did we receive Judge Pomeroy's card from the hands of Col. Robinson? Were we in structed to hand it to the Republican by the gentleman who gave us the card? Did we say in an article in the SENTINEL that Col. Robinson wrote the card ? To all of these points we have answered in the negative, or in other words, said, no. They have plainly charged us with falsehood for thus answering, yet they have not produced a single item of evidence to sustain themselves in the charges They have no case, as a lawyer would say, and the briefless lawyer of the corps of the Republican concern ought to know bet ter than to allow himself to be drifted into such an unenviable position Of course the other creatures that belong to the paper, who have not mental capacity to distinguish a good case from a bad one, and who are blockheads in everything except in conceit, low cunning, political tricks, and unscrupuleus work, are not responsible, only so far as it becomes necessary to hold such vicious characters

Their article no more proves their tended for blockheads and blackguards. than that

We give these unscrupulous fellows another chance to meet and prove their Convention, now being held at l'ittscharges. Let them choose a man : we will choose one; the two men chosen shall choose a third To this committee of three, and as many spectators as may wish to be present, we will state the name of the gentleman who gave us the first place in the gift of Judge Pomeroy's card. But in their last they intimated that we were parsimonious. Certainly there is no stint and closeness about our offer It is all in their favor. If they can prove their charges they get three hundred dollars, and relieve themselves from the odious position of repeatedly telling what credit, use it and never pay for it, and HON, ULYSSES MERCUR, is not a thief, a gambler, a black leg. a guzzler, or saloon and bar room habituee in the country who does raise the cry of husband their means and thereby acquire the source of revenue which upholds the township government, the county government and State government, on up to the national government. The men who thus cry out against the thrift of the country are the worst citizens that a State can have. Their proper level would be in some prison house, chain gang, or penal colony.

The article on ' Heavy Artillery" has a sentence or two relative to the commu nications over the signature of Barton Speak. They insignate that our intercourse with the State Central Committee is not what it should be, and that we are not supporting the ticket as we should do. It is just now two years since these same fellows were, as they are now, manipulated by Dr. Crawford to espouse his cause for the State Senate. They helped to elect him to that place.
