TOWN AND COUNTRY.

ONE of Tyson's bears choked to death on a corn cake, that was thrown into the cage, on last Friday.

A PROSPEROUS merchant has for his motto: "Early to bed, and early to rise, never get tight, and advertise." And here is a St. Joseph new advertisement: "If you want a hoopstick, go to the aut, thou slogger, and B. Weiz."

THE Pennsylvania Railroad Company now runs trains by Philadelphia time in stead of Altoona time, as heretofore. The new schedule was put into operation on the 27th inst. See change of time of passenger trains in revised table, at the head of this column.

ALL kinds of Lamps and Lampware Chimneys, Burners, &c., we will sell to country merchants at city jobbers' prices. FRANCIS H. HARDWARE CO.

COW KILLED.—A cow the property of E. S. Parker, was killed on the rail road below Patterson, on last Saturday. This was the second cow that Mr. Parker lost within the past month. The former one walked into a bed of hot cinders thrown from locomotives, and died from the effects of the burns.

"FITS," generally speaking, are things that people abhor, but when one is brought to a specification the feeling may be changed. For example, if you go and get the "fits" that London puts on the coats, vests, and pants, that he makes out of the fine goods that he constantly keeps on hand, all unpleasant feelings are driven away, and the fits are admired.

CORN SHELLERS and Fodder Cutters for sale at Paiste's Hardware Store.

\$18,000 worth of Goods for sale at the lowest prices, at Tiltens & Espenschaede's two large store rooms on Bridge street. Anything and everything in the Dry Goods and Grocery line, also Boots and Shoes of every description. Boys, on Saturday, when there is no school, amuse themselves on the commons by driving a stake into the ground, then going a hundred feet, more or less from the stake, and there blindfold one of their number, after which he is turned around several times and placed between the handles of a wheelbarrow and told to "wheel" for the stake. In nine cases out of ten the stake is not reached, the wheeler generally going in a different direction.

On the morning of the 23rd inst., a stranger of medium size, fair complexion and sandy hair, aged about 38 years, dressed in a suit of light clothes, got off one of the fast freights at Black Log Station. He told some of the men at station that he had a boat, but had missed it below, and had taken the train to overtake it and would walk up the river to the lock and there be ferried over.—He had gone about a quarter of a mile from the station when he was run over by engine 27 of second Pacific. An inquest was held over the body, Esquire Middlesumner the jury. They returned a verdict of accidental death.

THE FRANCISCUS HARDWARE COMPANY NEAR BUSINESS.—They have just completed the vast extensions to their mammoth Store. They invite you all to call and see their immense stock of Hardware, Saddleryware, Coach ware, Paints, Oil, &c. The Journal of Commerce, for the information of Everybody sending a package by express, repeats that limitations of liability which form the chief part of the printed matter in bills of lading do not necessarily govern the responsibility of common carriers. An express company may cover its receipt with notices that name the value of the package is not named the company will not be liable for more than \$50, but if it accepts the carriage of a package of ordinary merchandise with no stipulated value named in the contract, it will be liable for its full value in case of miscarriage. A carrier is not liable for delay unless neglect can be shown, and the owner cannot recover damages for detention unless she can show that the carrier did not show ordinary diligence.

LAMPS and Lampware for sale at Paiste's Hardware Store.

The Lewistown Gazette, of last week, contained the following bear item: Some boys were out on Shade Mountain one day last week for chestnuts, when they saw a bear lying under a tree, but not liking his looks, they left, and returning some time after found him up, when they put out. Probably the same animal was seen a day or two after by another boy, who also made tracks for home. Two bears were recently caught on the Juniata side, making four seen on that mountain within a month, so that it affords a fine hunting ground for those who have the nerve to shoot such game.

CEDAR TUBS and Buckets for sale at Paiste's Hardware Store.

The Huntingdon Monitor, of the 24th says:

On the 11th inst., Argot Williams, aged about ten years, took his father's dinner into the Slope coal mine at Johnstown. It is supposed that he lost his way, and groping through the passage entered an abandoned room filled with the poisonous gas so fatal to so many miners, and immediately upon his entrance the gas took fire from the lamp in the boy's cap. He was found the next evening burned to a crisp, totally beyond recognition.

Lieut. Westbrook was the victim of a sneak-thief last week. The rascal purloined a pair of boots, put them on and was sauntering around town when the lieutenant ratched him, took the boots and lodged the thief in jail.

HORRIBLE ACCIDENT.—In Liberty Valley, Perry county, there is a steam tannery, owned by Thomas Cook. On last Wednesday a young man, aged about 16 years, a son of Mr. Cook, the proprietor of the establishment, in passing through the building, noticed the end of a strap or band that had been cast from a certain wheel that was not in motion lying over or across a shaft that was then revolving at the rate of 120 times a minute. The young man knowing that to be an improper place for the strap reached with his left hand to throw it off. At short intervals a jerking motion was imparted to the strap. When the hand was extended a jerk was given, and the hand was caught, and in an instant fastened by the strap to the shaft, and the arm wound around it up to the shoulder.—The muscles and ligaments at the shoulder joint were strong enough to carry the weight of the body, and he was whirled at the rate above indicated, forty to sixty times, and at each revolution was drawn through a space of about 15 inches between the shaft and a brace above it.—His thighs were both broken, also his right knee, and his head and body bruised. The accident was witnessed by an employee in the tannery. The alarm was given and the machinery stopped as soon as possible. The unfortunate young man was taken from the shaft in an almost lifeless condition, in which he remained for a considerable length of time. After waiting 72 hours for the reaction of his system, amputation of his left arm was performed at the shoulder, and recovery, though doubtful, is possible.—Later accounts report him in an improved condition. The physicians in the case were Dr. Morrison, of Waterloo, Dr. Samuel Crawford, of McCoysville, and Dr. D. M. Crawford and Dr. Banks, of Millintown.

The cheapest place to buy HARDWARE in all its branches is at Francisus'. They guarantee to sell all goods in their line for less money than they can be bought elsewhere. To satisfy your prices of this fact, call and get their prices and compare them with others, and you will be convinced. Store on Main street, opposite the Court House.

TWINS BY EXPRESS.—How a Young Couple Saw Daylight on the Cars.—The Pittsburg Dispatch says: The Union Hotel Depot of this city has been the resting place of many weary travelers whose history would furnish a thrilling chapter for romance. Only a few days ago a lady put up there whose reason for doing so is well stated by the Ohio Statesman, published in Columbus. It is as follows: The Pacific Express train on the Panhandle railroad left the Columbus depot on Friday evening last, under the charge of conductor Drury.

Nothing transpired to disturb the monotony of the conductor's call on drowsy passengers for "tickets, gentlemen," until the train was between Denison and Steubenville. Then he was notified that a lady passenger desired his presence. He found the lady evidently in some trouble and embarrassment. To his affirmative response to the query to whether he was married, the lady stated that she was on her way from Cincinnati to meet her husband in New York, and that a crisis was impending, involving the appearance of an additional passenger.

This startled the conductor, of course, but with a heart as big as an elephant, he set to work to make the lady comfortable. All the passengers were hastily shuffled into another car, and such female assistance as could be procured on the train was brought into requisition. In a brief time the little stranger—a fine, bouncing girl is the phrase—put in an appearance, and the conductor congratulated himself on his happy escape from a dilemma. With a heart overflowing with sympathy, he arranged an impromptu wardrobe for the very young lady from his own underclothing. It was not exactly in style of those "in-fant outfits" advertised in the papers, yet it served a good purpose.

But this is not all. The train left Steubenville on time, and was soon thundering through and around the hills of West Virginia, when the conductor received another shock. This time it was a "fine, bouncing boy," Twins, by jove! One a Backeye and the other a Pan-Handler. The remainder of Drury's linen went to start the little fellow on his journey through the world. Then for fear of what might happen, the train was hurried up. In due time it reached Pittsburg and the lady and the two unticketed passengers were tenderly conveyed to comfortable quarters at the Union Depot hotel, when a telegram was forwarded to the husband in New York, which probably lifted him out of his boots. At last, advised the mother and children were doing well.

STOVES of all descriptions at the lowest prices at Paiste's Hardware Store, Crystal Palace Building.

The Altoona Tribune, of the 24th, publishes the following: On Monday last, Michael Moore, the wife murderer, who has been sentenced to be hung on the 27th of November, made a desperate effort to escape from the Elizabeth jail. While the Sheriff was conveying him from one cell to another Moore seized a piece of lead pipe and was about to make a deadly assault on the former, when he drew his revolver and fired twice at the convict, both shots taking effect. Had the Sheriff been unarmed he would doubtless have been killed by Moore and the hardened criminal succeeded in making his escape. Moore's wounds are not of a nature sufficiently serious to rob the gallows of its victim.

About six o'clock, on Tuesday evening the 22nd inst., a stranger entered the jewelry establishment of Mr. C. C. Shannon, during his absence, and requested the clerk in attendance to show him some of the best gold watches he had in the store with a view to making a purchase. The clerk took from the show case the two most valuable watches in the establishment and placed them on top of the case for the inspection of the would-be purchaser, and then turned his back for the purpose of getting a piece of chamois skin to polish them. As he turned around the stranger gobbled up both watches and beat a rapid retreat out of the main entrance and up Fourteenth street, and under the cover of darkness and there being no one present to give chase, he soon succeeded in making good his escape. The watches stolen are of Swiss manufacture, heavy gold hunting cases, and are valued at five hundred dollars. Persons in the vicinity who saw the thief running over that he had an accomplice who was standing on the sidewalk waiting the result of the undertaking, and that both men ran up Fourteenth street together. It was certainly a bold piece of villainy, and executed by scoundrels who had been lying in wait for just such an opportunity that they took advantage of. At present writing there is no clue to the robbers.

LEATHS of all kinds constantly kept on hand at Paiste's Hardware Store.

The Hollidaysburg Register, of the 23rd, says:

The body of a white infant girl supposed to have been a seven month's child was found by D. M. Sellers, yesterday afternoon, in the corner of Maj Williams' field, opposite the German Catholic Church. The coroner was summoned. No clue to the heartless mother.

JOHN TYSON trapped two more bears during the past week. Mr. Tyson is the greatest bear trapper in Central Pennsylvania.

NEW COUNTERFEIT.—A new and very well executed of the \$50 bill of the new issue of greenbacks has been discovered lately by the Government officials, and it is supposed a preconcerted movement has been made to scatter them broadcast all over the country. The counterfeit, though quite good, still has a few defects that are fatal to it even in the hands of even a tolerable judge of money. In the first place the specimens shown are not printed on fibre paper, though this may be done in other issues, as the counterfeiters have succeeded in some instances in making a tolerable imitation of the Government fibre paper.—The scroll work around the figure "50" in the upper left hand corner of the genuine are surrounded by a scroll work of fine lines, crossing and recrossing each other, but all made of one line that is continuous throughout, and its course can be plainly traced by the naked eye. In the counterfeit this effect is produced by a series of short scratches, not connected together at all. Between the words "new" and "series" in the genuine a small ornamental dash is inserted, but it is omitted in the counterfeit. In the vignette of Henry Clay in the genuine the hair on the right side of the head is light near the head and grows darker toward the outer end; this is reversed in the counterfeit. The most striking difference, however, is in the coloring of the seal, which is of a brick red tint, instead of the bright crimson of the genuine bills.—Ex.
