SOME MODE AWAUL CRIMES FIXED UPOR of Dress Trimmings. HIM

The 61 year old wretch, Evans in New Hampshire whose latest crime was too Such as Sugars, Syrups, Coffees, Teas and Prussian Blue, Lamp Black, to be fixed upon as the author of other these is the murder of his own mother, the times and the probable murder of his own wife and child. A chain of circumstances fas tens upon him the awful murder of the Joyce children, in Bussy's woods, adjoining Boston, where they had gone, brother and sister, to gather spring flowers, one April morning, five years ago An outrage something like this of which has now been made the victim, was committed upon the young Joyce girl,-her screams and those of her brother being stopped, one by sudden murder, and the other by stuffing her mouth with grass. The wretch seems to be the most inhuman and monstrous criminal of modern times,-or, indeed, of any time. It now appears that sometime since Evans gave his mother a dose of medicine (pretending to doctor her) on the Stafford poor farm, from which she immediately died. Several years ago a girl was missing in Derry, and has never been found. As he lived there then he no doubt murdered her, and it is suspected now that he murdered his own wife and child. It is stated that not long since he insulted this same Georgianna Lovering, and, after apologizing, gave her a dress pattern .-He has admitted that after outraging the girl he choked her to death. The author of all these unameable and incrediible crimes was once a minister of the gospel in good standing, affords a terrible illustration of the total depravety to which a long indulgence of base passions and practices can reduce a human being. He will be swuhg, like a dog, from the gal- of all kinds, for men, women and children. lows. But what punishment is that for such an inconceivable career of crime as his ? To show the utter devilishness of the creature, he not only did all this, but he went into it all deliberately-calculatingly. He plotted for months how he could induce his little niece to go out into the woods where he was hidden, watching for her.

The idolators of beauty-the Chinese are forever at the feet of beings whom they adore. When any of their wives are indisposed they fasten a silken thread round her wrist, the cord of which is given to a physician, and it is only by the motion which the pulsation communi cates to it that he is allowed to judge of the state of his patient. This precaution tion of jealousy is almost unique in its

We have thousands upon thousands of certilientes of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Minute directions are given in the wrapper on the box, for the following complaints, which these Pitts rapidly cure:

For Byspepsia or Indigrestion, Listlessness, Languar and Loss of Appetix, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Billions Elecators, Sick Headache, Jaundice or Gircen Sickness, Billions
