FARM AND HOUSEHOLD.

Helpful Hints.

Onions stand more cold than is supposed, so a writer in the *Homestead* says, who advises packing them dry in tight barrels, and filling interstices with chaff. They may be kept in a barn, where they will freeze quite hard without injury, providing the barrels are kept closed tight and not opened until the onions are again thawed. It is a bad practice to keep them where they will sprout and then decay, omitting very disagreeable odors.

To cook a fillet of veal, brown a little flour in some butter, add some stock to it a laurel leaf, pepper, salt, a little Cayenne, a glass of Madeira, a little mushcatsup. Lay the fillet, after having been previously half roasted, in this gravy, stew it half an hour, and serve, removing the laurel leaf. Forcemeat balls and stewed sweet breads may be used as a garnish.

To make a nice gingerbread pudding, take two and one half cups of flour, one and one half cups of flour, one and one-half cups molasses, one cup sour milk, butter size of an egg, two teaspoonfuls each of ginger, cinnamon cloves, one nutmeg, a little salt; raisins if you choose.

To dye pink, take three parts of cream of tartar and one of cochineal nicely rubbed together; tie a teaspoonful in a mustard bag. Put this with a quart of boiling water; dip in the articles to be colored, previously cleaned and dipped in alum water; if washed still, put in a little gum arabic

If strong butter is melted and skimmed well, and turned off so that the salt is left, it makes very good fat to fry doughnuts in Lard can be mixed with it in equal parts but it is just as good used alone

Jellies may be kept from molding by pulverizing loaf sugar as finely as possible, and covering the surface of the jelly with it to the depth of a quarter of an inch. Jellies may be kept for years in this way.

Get Leather Bits.

One of the cruelest things done to dumb beasts is putting hard frozen iron bits into a horse's mouth. It is not only a painful but a dangerous act. For every time living flesh touches metal much below the freezing point, the latter extracts the heat from the former and freezes it. Thus a horse's mouth becomes frozen by these bits, for several times a day put into it, each time causing the freezing to grow deeper, to end at last in extensive ulcerations With such a sore mouth the poor horse refuses to eat and pines away, when the horse-doctor has to be called in. They call it bots, glanders, horse ail, etc, and go to cramming down poisonous drugs, in large doses; and the next you know of the poor abused creature, he is to be trotted off to be food for fish & crows. Many a valuable horse has been "mysteriously" lost in just that way. Thinking and humane people avoid this by first warming the bits, but this is too much trouble, and sometimes impossible, as in night work, like staging, and physician's work Now all this trouble is entirely avoided, as we have found on large trial, by getting the harness-makers to get leather bits for winter use, so made that no metal substance can touch the flesh. They are durable and cost only half a dollar. We would not exchange ours for a gold one, if could not be replaced. Don't fail to try it.—*Rural World.*

To Clean Paint.—A correspondent of the *Country Gentleman* says: Use but little water at once; keep it warm and clean by changing it often. A flannel cloth takes off fly specks better than cotton. Soap will remove the paint; so use but little of it. Cold tea is the best liquid for cleaning varnished paint, window panes and mirrors. A sharp piece of soft wood is indispensable for cleaning out corners. A saucer of sifted ashes should always be at hand to clean unvarnished paint that has become badly smoked; it is better than soap. Never put soap upon glass unless it can be thoroughly rinsed off, which can never be done to window glass Wash off the specks with warm tea, and rub the panes dry; then make a paste of whiting and water, and put a little in the centre of each pane. Take a dry cloth and rub it all over the glass, and then wipe it off with a chamois skin or flannel, and your windows will shine like crystal.

Cure for Founder.—A correspondent of the *Western Rural* recommends as a sure cure for foundered horses, that some old woolen blankets or rags be taken—if woolen rags are not handy, take straw—and wrap the legs tight up as high as you can conveniently, then take hot water, hot enough to scald the hair off a well horse, pouring it around the horse's legs until they are well soaked; then in an hour serve the same way, except the water should not be quite so hot, and in two hours he will be as well as ever. There is no danger of injuring the animal, as would be the case with turpentine. The horse is paralyzed; the limbs are cold, and the hot water will make the blood circulate and creates perspiration.

In buying furs blow "against the set of the fur," and if the fibre opens easily and shows the skin, don't buy; but if the down next to the skin is so dense that the current of breath doesn't penetrate it so as to reveal much of the skin, the article is good. So says a professed expert.

Tumor of 12 Years' Growth Cured by Radway's Resolvent.

BOSTON, Mass., July 10, 1871.

DR. RADWAY:—I have had Ovarian Tumor in the ovaries and bowels. All the Doctors said "there was no help for it." I tried every thing that was recommended; but nothing helped me. I saw your Resolvent, and thought I would try it; but had no faith in it, because I had suffered for twelve years. I took the bottles of the Resolvent, and one box of Radway's Pills, and two bottles of your Ready Relief; and there is not a sign of tumor to be seen or felt, and I feel better, smarter, and happier than I have for twelve years. The tumor was so large as to fill one side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical and Pharmacentical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** presents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a **most searching and thorough, yet gentle and kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomel or other form of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about the Stomach, Rush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** As one does not impair them; their sugar-coating and being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or pasteboard boxes. Recollect that for all diseases where a cathartic medicine is required, the **Little Pellets** will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a bottle.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by return mail from

FOUTZ'S

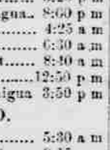
CELEBRATED

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. It will cause him to expand the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and causes them thrive much faster.



In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a pail of slops in which the hogs swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

USE THE BEST.

Nine years before the public, and no preparation for the hair has ever been produced equal to Hall's "Vegetable Sicilian Hair Renewer," and every honest dealer will say it gives the *best satisfaction.* It restores GRAY HAIR to its original color, eradicating and preventing dandruff, curing BALDNESS and promoting the growth of the hair. The gray and brushy hair by a few applications is changed to black and silky locks, and wayward hair will assume any shape the wearer desires. It is the cheapest HAIR DRESSING in the world, and its effects last longer, as it excites the glands to furnish the nutritive principle so necessary to the life of the hair. It gives the hair that splendid appearance so much admired by all. By its tonic and stimulating properties it prevents the hair from falling out, and none need be without Nature's ornament, a good head of hair. It is the first real perfected remedy ever discovered for curing diseases of the hair, and it has never been equalled, and we assure the thousands who have used it, it is kept up to its original high standard. Medical.

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.
