FARM AND HOUSEHOLD.

Household Recipes.

DESSERT.—The following is a nice dish for dessert and very easily prepared: Boil two quarts of rich milk. Beat eight eggs and a teacupful of sugar together, and after the milk has boiled, put it over the eggs and sugar, stirring all the while. Pour the whole mixture into your kettle, and let it come to a boil, stirring it constantly. Then take it off the fire and let it become cold. Flavor it with whatever essence you prefer. Then freeze it.

BOILED CHICKEN.—Plain, artless boiling is apt to produce a yellowish, slimy-looking chicken. Before cooking the bird it should always be well washed in tepid water and lemon juice, and to insure whiteness, delicacy and succulence should be boiled in a pai-te made of flour and water, and, after being put in the boili g water, should be allowed to simmer slowly. This method is very effectual in preserving all the juices of the fowl and the result is far more toothsome and nourishing morsel than the luckless bird which has been "galloped to death" in plain boiling water. Mutton is also much better for being boiled in paste.—*Lancet*

BAKED BEANS.—Take small white beans, put to soak at 6 P. M., in a deep vessel; change the water late in the evening, and again next morning, and parboil for two hours, changing the water at the end of the second hour. Then scour off nearly all the water, take raw pork scored on the top; put the beans in a deep dish, the pork in the middle, sinking so as to have it just level with the surface. Add a very little molasses, and bake at least six hours, raising the pork toward the last, so that it may crisp on top.

ECONOMICAL DISH.—Take the remnant of a cold boiled leg of mutton, or of a roast of beef; shave it into thin slices; season and add, if you like it, an onion chopped fine, or a pinch of sweet herbs. Put this on a baking dish, and pour over the gravy, if you have any; if not, a little water, butter and flour.—Then take hot boiled potatoes; mash fine; add a little milk and salt or butter, to soften them into a smooth paste, which lay over the meat. Then put the dish into the oven, and bake a nice brown.

PICKLING BEEF.—The following receipt is given by a correspondent of the *Western Rural:* I send one which has been used twenty-five years, for hams and beef: Take six gallons of water, three pounds of sugar, one ounce saleratus, nine pounds salt, three ounces saltpeter. Put the whole in a kettle. Bring to a boil and skim. Some put it on milk warm. This will answer for 100 pounds, or what it will cover.

TO SET THE COLOR OF COTTON DRESSES.—Take a large double handful of bran, put it in a saucepan and set it over the fire, allowing it to boil thoroughly in a quart of water. When thoroughly boiled strain the bran, and throw the water into that in which you are about washing your lawn or chintz dress. Let the dress soak for an hour or so in it before washing. Instead of starch use a weak solution of glue water and iron on the wrong side.—*Christian Monitor.*

Corn as Fuel.

The cost of marketing the produce of the western corn-fields enables the Council Bluffs (Iowa) *Nonpareil* to make the following statement: We are glad to see that many of our citizens are taking advantage of the low price of corn to lay in heavy supplies of it for fuel. We have experimented with it the last week, and find that it is an admirable substitute for both wood and coal, and that at present prices there is both economy and comfort in its use. A ton of corn—33 bushels—at 17 cents per bushel, is $5 60.—We consider this equal to a cord of hard wood, as supplied and measured in our market at $7; the cutting of this, $2 50 total, $8 50. Thus making a saving of nearly $3 a cord. For kitchen fuel it is superios to woods, except hickery, and cheaper than that. It makes a very hot fire with a great deal of blaze. We judge that three tons of corn are equal to the heat of one ton of hard coal, while in economy of its use it is equal to one and a half tons of coal. In small families and small houses there is always great waste of hard coal, while there is none in the use of corn.

Loss of a Continent.

Plato sent down to posterity a tradition of his day that a great continent which occupied the place now covered by the Atlantic Ocean suddenly sunk down out of sight. He further says it was an island called Atlantis. On it were kingdoms, and organized governments, wealth, arts and civilization, instantly lost to human sight.

It is now the opinion of the leading geologists—those most advanced in science—that the American continent appeared when the Atlantic waters rushed into the cavity or depression on the earth's surface now filled by salt water. The rocky mountains were then the rough bottom of an ocean which rose with marine plants, shells and other products of an aquatic origin, that are found abundantly strewn there, and, in fact, all over North and South America.

Remnants of Atlantis, the submerged continent, are believed by some scientists to be recognized in the Adirondacks, the White Mountains of Maine, and a few other outcroppings belonging to the outer boundaries of that deluged and forever lost country. There is no knowing what astounding discoveries may yet be made in coming ages corroborative or Plato's narration.

This Cut Illustrates the manner of Using

DR. PIERCE'S Fountain Nasal Injector, OR DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight (no snuffing, forcing or pumping being required,) up one nostril in a full gently flowing stream to the highest portion of the nasal passages, passes into and thoroughly cleanses all the tubes and chambers connected therewith, and flows out of the opposite nostril. Its use is pleasant and so simple that a child can understand it. Full and explicit directions accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

Symptoms of Catarrh. Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, &c. In others a dryness, dry, watery, weak or inflamed eyes, stopping up or obstruction of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, &c. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Douche, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease, and the proprietor offers, in good faith, $500 reward for a case he can not cure. The Remedy is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents. Douche at 60 cents. By all Druggists, or either will be mailed by proprietor on receipt of 60 cents.

FOUTZ'S

CELEBRATED

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, which are often so, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.
