Aver's Cathartic Pills,

any before so universally adopted into use, in livery country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effect and the property of the cures their neighbors and friends, and all know that it cured them; those who have not, know that it dures their neighbors and friends, and all know that what it does once it does always—that it never falls through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calonel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes then pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operaty, by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Byspepsia or Ensignation. Listless.

Minute directions are given in the wayper on the box, for the following complaints, which these Pills rapidly cure:—
For Dyspepsia or Indigestion, Listlesaness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For Liver Compilaint and its various symptoms, Billious Headlache, Sick Headlache, Junuffice or Green Sickness, Billeus Colic and Hillous Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
For Bysentery or Diarrhoea, but one mild dose is generally required.
For Rheumatism, Gont, Gravel, Palpitation of the Heart, Pain in the Side, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.
For Dramay and Bromical Swellings they

the system. With such change those complaints disappear.

For Dropsy and Propsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
