

FARM AND HOUSEHOLD.

Charcoal a Good Farm Medicine. Nearly all sick horses and cows are made up in the first place by eating improper food, or too much of it.

Our rule has always been to give nothing unless we knew exactly what to do; and in the meantime attend to every exterior comfort practicable. If the weather is cold, place it in warm quarters.

Another instance of equal success occurred with a young heifer which became badly bloated by eating green apples.

We disapprove of quackery, where without a precise knowledge of the disease powerful remedies are given at random, indiscriminately.

IRISH POTATOES.—The Irish people are the greatest potato eaters in the world, and know all about cooking that fine esculent. We copy their mode of boiling potatoes from an Irish paper: "Put the potatoes in a pot or kettle without lid or cover, and with water just sufficient to cover them. After the water comes nearly to a boil pour it off, and replace it with cold water, into which throw a good portion of salt. The cold water sends the water from the surface to the heart, and makes the potato mealy. After they are boiled and the water poured off, let them stand on the fire fifteen minutes to dry."
