To Make Great Laying Hens.

It is claimed that there is as much advantage gained in paying strict attention in achering hous with prolific tendencies from any breed, us in selecting good milkers to improve the dairy stock, and the hypothesis—perhaps established fact

THE largest and best assortment to be found in Patterson. Thankful for the liberal patronage heretofore received from the hypothesis—perhaps established fact

I will sell only yard or pattern. who keeps lowls is well aware certain consists of a full assortment of fine and staple and Vests. ones are greater egg producers than others of the flock, and the egg of only such as these should be saved for the

One writer on this subject says that he is perfectly certain that the number Cloths, Mattings, &c. of two bundred eggs per annum may be attained in a few years' time with perfect case should the subject be systematically sought. It is a matter within the lins, Alpacas, De Laines, plain and figured reach of all who feel interested in it, and Shawls, &c. and also a large stock of Notions, one that can be easily tested, without Collars and Cuffs, and a general assortment any knowledge whatever as to fancy of Dress Trimmings. points. If the poultry flock of a farmer can be made to produce double the eggs

Boiled Chicken.

Plain, artless boiling is apt to produce a yellowish, slimy-looking chicken. Before cooking the bird it should always be well washed in topid water and lemon juice, and to insure whiteness, delicacy and succulence, should be boiled in a paste made of flour and water, and, after being put in the boiling water, should be allowed to simmer slowly. This method is very effectual in preserving all the juices of the fowl, and the result is a far more toothsome and nourishing morsel than the luckless bird which has been "galloped to death" in plain boiling water. Mutton is also much better for being boiled in paste - Lancet.

IT is a popular and wide-spread idea that timothy hay is poor feed for cows, and that for this purpose clover bay is worth more. Our experience does not confirm this idea, for we find our cows do as well on early cut timothy as en equally good clover hay. There can be no doubt that good clover hay is a better milk and butter producer, than timothy cut until it is too ripe, as is mostly the case. Where clover is well mixed with timothy, as usually the case, the second year after seeding, we hear no complaint of the non milk producing quantity of the timothy, for to save the good qualities it is while young, and of course the | terial, all kinds of timothy is not as ripe, and hence in good BOOTS, SHOES AND GAITERS, order for prime hay. Dou't let timothy etand too long.

TROUBLE IN CHURNING .- In answer to a farmer's daughter, who is puzzled to know why cream will not always bring butter at this season of the year, I would say in the first place, don't let the cream remain on the milk too long I skim third or fourth meal; what rises after that time will not make butter; scald the charn, heating the cream about eixty degrees. I have followed the above plan more than forty years. I have given directions to many, all of who:n have adopted it with success.

To set the color of cotton dresses; take a large double handful of bran, put it in a saucepan and set it over the fire. allowing it to boil thoroughly in a quart of water. When thoroughly boiled strain the bian, and throw the water into that in which you are about washing your lawn or chintz dress. Let the dress in the most substantial manner, and at the soak for an hour or so in it before washing. Instead of starch use a weak solution of glue water and iron on the wrong side. - Christian Monitor.

"HERE, you young rascal, walk up and give an account of yourself. Where have you been?" "After the girls, fa-"Did you ever know me to do so when I was a boy?" "No sir, but mother did."

Medical.

cress which it has been found to conquer. In the care of Bronchitis, Severe Coughs, and the early stages of Cours mptton, it has astonished the memeal faralty, and eminent physicians pronounce it the greatest medical discovery of thouse. While it cares the severest Coughs, it strengthers the reviews astonished the memora facility, and emineta paysicians promounce it the greatest medical discovery of the age. While it cares the severest Coughs, it strengthms the system and puriffles the blood. By its great and thorough blood parifying peoperities, it cares all Humnors, from the wost Secofula to a common Blotch, Pimplo, or Euruption. Medical disease, Mineral Poisons, and their effects, are endicated, and vigorous health and a sound constitution established. Erystpelas, Sait Rheum, Fever Sores, Scaly or Hough Skin, in short, all the naturous diseases caused by had blood, are compared by this powerful purifying and invisorating medicine.

If you feel dail, drowsy, debilitated, have sallow color of skin, or yellowfish brown spots on face or holy, frequent healthche or dixthess, but taste in mouth, informal heaf or chills alternated with het disches, low spirits, and gloomy forebodings, irregular apoetite, and tokune counted, you are suffering from Torpid Liver or "Billious-mess." In many cases of "Liver Complaint" only part of these symptoms are experienced. As a remely for all such cases Dr. Plence's Golden Medical Discovery has no equal, as it effects perfect cares, leaving the liver strength ened and healthy. For the care of Habitural Constitution of the howels it is a never failing remedy, and those who have used in far this purpose are boul in its praise.

The propeletor offers \$1,999 reward for a medicine that will equal it for the cure of all the diseases for which it is recommended.

Sold by druggists at \$1 per bottle. Prepared by R. V. Pierce, M. D. Sole Proprietor, at his Chemical Laboratory, 133 Seneca street, Bafalo, N. Y. Send your address for a pamphlet.

FOUTZ'S

To keepers of Cows this pregna-tion is invaluable. It is a sure pre-ventive against Einderpest, Hollow Horn, etc. It has been jouven by actual experiment to increase the quantity of milk and event twenty per cent, and make the butter firm and sweet. In fattening cattle, it petite, loosens their hide, and makes faster.

To keepers of Cows this prepara-

eated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholora. DAVID E. FOUTZ, Proprietor, BALTIMORE, Md. For sale by Draggists and Storchespers throughout the United States, Canadas and Sorth America

Ayer's Cathartic Pills,

not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never this through any fault or neglect of its composition. We have thousands upon thousands of certificates of their romarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither caloned or any deleterious drag, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes then pleasant to take, while being purely vegetable no harm can nrise from their use in any quantity. They operate by their powerful influence on the internal viscern to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these PHB rapidly cure:—

For Physpepsia or Indigestion, Listlessness, Languor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Edver Complaint and its various symptoms, Hillous Healthy hone and action.

For Edver Complaint and its various symptoms, Hillous Healthy hone and settore its healthy tone and settore.

Janualice or Green Sickness, Bilious Colic and Hillious Pevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

the system. With such change those complaints disappear.

For Dropsy and Bropsical Swellings they should be taken in large and frequent doses to produce the effect of a fursite purse.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner PHI, take one or two PHIs to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and howels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PHIs makes him feel decadedly better, from their cleansing and renovating effect on the digestive apparatus.
