Capital and Labor-How to Reconcile

BY PROF. J. D. BUTLER. When Falstaff sent his page to Master Dumbleton for a satin closk, and of a child by using small pox virus for offered his bond and Bardolph's for payment, the answer was that the "tailor liked not the security." The Knight as lief they would put ratebane in my named Lynch, O'Neal, Frank, Schoene mouth as stop it with security." He who only Shylocks, but most capitalists are deat to borrowers, because they, as well as Falstaff's tailor 'like not the security.' Capitalists will not lend a poor man money. They demand security. As he cannot endorse, others will not endorse for him. He has no lands, no chattels, on which he can give a mortgage. Where he is sanguine that he can double the money he wishes to borrow, they say to him, "you may be robbed or cheated, or your investment may be burned up and your insurance worthless, or you may becond, or your death may blight the father, and almost immediately shooting brightest prospects'-"we like not your security." It is a "castle in the air."

Again, capitalists shun putting their investments into the hands of any poor hearts can perceive from your conduct stranger. They are distrustful of his of his competence, where skill is demanded ; of his zeal, where he has no interest at stake; and of his vigilance, where will trust him with the tools.

But must capital and labor needs b hostile? Is there no way in which capihe lays out on it will increase that value. He cannot strip it of lumber, more than zeal or vigilance distrusted. He is stim ulated to the exercise of them all by his ed and indignant at the long course of fear of loosing the sum he paid in advance outrages toward her and his family; but together with whatever he lays out to improve his farm, and by his hope of making it pay for itself, and support him and his. Other borrowing dulls the edge

How the Hair Should be Cared For.

The hair should be thoroughly washed with warm water and castile soap at least once a month. The color of the water, after the first rinsing, will expose the necessity of this hair-bath. To the necessity of this hair-bath. To wash and dry the head in a thorough manner without pulling out the hair or causing discomfort to its possessor, is an art. Soda or borax, which is so generally used in washing the hair, is highly injurious. To preserve the hair in good condition, it should be brushed every night until it is soft and glossy. Rubbing the scalp with a little bay water or weak spirits of any kind will keep it white and free from dandruff.

"False" or ornamental hair should be carefully kept to be endurable. The habit of some persons of laying their coils upon the bureau, or hanging them on the gas-fixture at the side of the on the gas-fixture at the side of the glass, on removing them from their head at night, is extremely untidy, as they become dusty and uncleanly from this exposure. Switches can be kept in good order for a long time, if well brushed, and placed in boxes when not

A writer in the Gardener's Magazine recently saw a very rare bird. It was in bad company and was in mischief, simply helping some blackbirds to eat the buds of some fruit trees. It turned out to be a common blackbird with white feathers in its tail, and with both wings white. Its appearance was both striking and interesting. Occasionally a perfectly white blackbird is seen, just as sometimes we see a white Black Spanish fowl; but such birds are rare.

Artificial fruits are much used for hat trimmings this season.
