

THE PITTSBURGH DAILY MORNING POST.

Below we give the total of the vote on Tuesday. The official table will appear in our paper of Monday.

Our last Baltimore paper contains a synopsis of the twentieth annual report of the President and Directors to the stockholders of the Baltimore and Ohio Railroad Company.

The Hon. Louis McLane has resumed his duties as President of the Company, but the general operations of the Company are given by SALES.

The report shows a steady increase in the consumption of passengers and baggage, as will be seen by the following extract:

The net revenue, including the receipts from the coal trade, after deducting the expenses of working and keeping the road in repair, amount to the sum of \$3,841,874.70, making together \$3,841,874.70.

The situation of stockholders is then directed to the actual and probable state of the Company's affairs, during and at the termination of the year.

The Board, therefore, proceeded to state that on account of the contracts for the reconstruction of the thirty miles of road already explained, there will remain to be paid before the end of the year, not less than \$2,250,000.

It will be perceived, therefore, that independent of contingent expenses, such as rarely fail to occur, the net revenue of the Company's operations, after the current year, will be absorbed by debts already incurred, and consequently will not be available for the benefit of the stockholders.
