New Lisbon, July 23, 1846.

To Dr. Green, Western Agent for Mazoni's Syrup:

Dear Sir—From a sense of duty I owe to the public, as well as to yourself, I make the following statement of my case, hoping it may be the means of doing some good to others who may be similarly afflicted by inducing them to try this same invaluable remedy without delay. I have had a pain in my breast and side attended with a harrassing cough for more than three years, during which time I expectorated large quantities of matter; and last spring my cough became so bad that one blood vessel after another gave way in my lungs, which, together with the general wasting away of my general system, reduced me to that condition, that I was unable to attend to any business whatever, and gave up all hopes of ever being better. My case was pronounced hopeless and incurable by physicians and despaired of by every one that knew my condition. I was at this time coughing almost constantly, and losing an alarming quantity of blood from my lungs daily; and such was my debilitated condition that I could not walk but a few steps without becoming exhausted; and no one who has taken the trouble of acquainting themselves of my real condition would for a moment consider that it was more hopeful than the worst cases of consumption generally. I have now taken nearly 3 bottles of the truly wonderful Sicilian Syrup. The bleeding of the lungs was stopped before I had taken half of the first bottle. My cough has abated, the pain has left my breast and side, and my former health and strength have so far returned that I am at work every day, and I feel that I am a new man. And I am satisfied that consumption may be and has been cured by the use of Dr. Mazoni's Sicilian Syrup, and I earnestly recommend all that suffer as I have done to try this justly celebrated Syrup without delay, for I do think it the greatest discovery that ever graced the medical profession. With the highest consideration of respect I subscribe myself your very much obliged friend.

JOHN ROSS.

This is to certify that we, the undersigned, have been acquainted with John Ross for a number of years and cheerfully testify to the correctness of the statement above made of his case, and we do consider him a new man compared with what he was three months ago, and confidently accord the credit of his cure to the use of the truly celebrated Sicilian Syrup. Witness our hands and seals this 22d day of July, 1846.

Important to Consumptives.—Strange! that so many who are afflicted with a Cough that is gradually wearing them down, and slowly but surely, stealing them into that *dreadful disease Consumption*—that disease which carries off thousands daily—are doing nothing, or, what is worse than nothing, are gorging themselves with nostrums that are puffed to the skies for cures they are said to have effected on some foreign or unknown persons, when they can be positively cured by using Dr. Rogers' compound Syrup of Liverwort and Tar, which continues to make the most remarkable cures ever recorded in the annals of Medicine; which is proved by reference to the vast number of certificates from the first and most respectable citizens—such as the Hon. Judge William Burke, the wife of the Rev. Geo. Maley, Doctor Wm. Richards, Mrs Hiram Plummer, Dewitney Ludlow, Esq. of Cincinnati; and a great number of others in this city. Certificates of not only of remarkable cures of distressing Cough, but cases of Consumption positively cured, after physicians of the highest standing have given them up to die!

For sale by D. C. Kneeland, principal agent, Grant street, one door below 2d.

See advertisement of Dr. Rogers' Liverwort and Tar, in another column.

A PHYSICIAN'S OPINION OF DR. JAYNE'S EXPECTORANT.

LOWELL, Mass. Jan. 27th, 1846.

Dr. David Jayne—Dear Sir: I have used your medicine, too universally known by the name of JAYNE'S *EXPECTORANT* in my practice for a number of years, and can most truly say, that I have been more successful in the use of that as a mild, safe, and thorough EXPECTORANT, than of any which I have ever used. It is recommended to the following obvious reasons. It does not (if given in proper doses) occasion a disagreeable nausea. It does not weaken the lungs and prostrate the system, like most other Expectorants in common use, nor does it abate the appetite of the patient like other nauseating medicines, which have been used by the faculty. In a word it is nearly or quite the thing which has been sought for by many of the faculty for ages gone by. I remain, yours, &c.
