**To Coal Miners and others:**

THE undersigned solicit information of those acquainted with the best mode of working coal mines by shaft. There are several so worked in the this county at a depth of 300 to 1,000 feet, and in England at 1,800 feet below the surface. Of the several strata in this property, the principal one is at about one-tenth of the latter distance (180 feet.)

There is a shaft in successful operation near this city, obtaining a purer article than our pit coal, and at less expense than pits generally, (including hauling,) when in addition our principal strata is two or three times the thickness of that in pits; and with another great advantage, it could be used on the ground where obtained, as the location even without the extraordinary advantages, is well known to be one of the best in the country for every description of manufacturing.

It is also believed that this coal, from its peculiar nature and purity, may be adapted to the manufacture of Iron from the Ore, if so, it will offer great inducements for extensive operations on this side of the river.

We have had applications from persons accustomed to working coal by shafts, who have strongly urged its adoption by us, as being in every point of view advisable and highly advantageous. We are desirous of obtaining further information on the subject, and should it prove satisfactory, we will sell or lease the privilege of sinking a shaft and working the Coal.

GREAT ITALIAN REMEDY.

PHILADELPHIA, April 26, 1846.

Being afflicted for some 8 years with that most distressing disease, the asthma, and for the last 3 years much of the time confined to my room, and at several different times my life was despaired of; I concluded to obtain some of Mazoni's Sicilian Syrup, which was recommended to me by a friend from New York who stated that it had cured some of the most inveterate cases known to the medical profession. Suffice it to say, that, after using the above medicine for about 4 weeks, I was entirely relieved, and I believe radically cured. Yours with respect,

OLIVER W. OWEN,
No 175 Bertram st., Philad'a.

In cases of dyspepsia, which is simply a nervous derangement of the digestive organs—they have been found equally successful.

These applications are in the form of Rings and Magnetic Fluid, Bands, Bracelets, Belts, &c.

☞ See advertisement for further particulars on the outside of this sheet.

For sale at the only agency, 57 Market street. dec9

☞ Important to those who are afflicted with diseased Lungs.

Dr. Rogers Liverwort and Tar. This specific seems to deserve all that the vender claims for its all healing virtues, we have seen a very emphatic certificate from Dr. Cox, late professor in the Cincinnati Eclectic College, who represents it to be a very different article from the prevailing nostrums of the day, and as very valuable in the treatment of that insidious class of diseases which are the bane of this variable climate."

*Cincinnati Morning Signal.*

If physicians of Dr. Cox's character in the profession give their testimony in favor of this celebrated medicine, it must be valuable.

N. B. Notice the certificate of Professor Cox in another column, also, one of a remarkable cure from Mr. Gabriel Whitehead, under the head of Liverwort and Tar.

☞ WHOOPING COUGH.—Messrs Editors—I observed some time ago a communication over the signature of "A Parent," stating that Dr. Jayne's Indian Expectorant had been the means of saving the lives of three of his children, who were suffering severely with whooping cough; and having, but a short time before, lost one of my children by that dreadful complaint, and having another, and my only child, suffering the greatest agony with the same disease, and in hourly expectation of its death, I was induced to purchase a bottle of it, and commenced using it according to the directions—and to the surprise of all it began to mend in fifteen minutes after we commenced using it, and the child has now completely recovered.

I have no acquaintance with Dr. Jayne, but I hereby return him my husband's and a father's grateful acknowledgments. J. L. SIMPKINS.

Philadelphia, April 23d, 1846.

*Jayne's Hair Tonic*—We commend to the attention of those desirous of restoring their hair or improving its beauty, to this elegant preparation. We hear it every where highly spoken of, and especially by all who have made use of it, as greatly efficacious in stimulating the growth of the hair, and preventing and curing many affections of the skin. Its virtues are amply and sufficiently proved.—*N. Y. Sun.*
