SICK MAN'S NEVER FAILING FRIEND.

107 Agencies have been established in all the principal Cities in the Union, and applications are constantly reaching us from almost numberless villages in every section of the Country. Testimonials of their marvellous effects are pouring in from all quarters—and in such numbers that we have not time to read one half of them. What stronger or more conclusive evidence than those important thete can the most sceptical desire? Is it possible, that the many thousands who have tried CLICKENER'S PILLS, can be deceived in their results? If any imposture or quackery existed, would it not long ago have been held up, as it should be, to the scorn and derision of a justly offended community?

107 The Remember, Dr. C. V. Clickener is the original inventor of Sugar Coated Pills; and that nothing of the sort was ever heard of, until he introduced the sort was ever heard of, until he introduced the other, or they will be made the victims of a fraud.
