EDUCATION, founded on the nature of man: by J. G. Spurzheim, M. D.; with an Appendix: by S. R. Wells. To say that this is the best work of that Master Mind, is but to reiterate the unanimous testimony of all who have read it. It discusses the laws of Hereditary Descent, Education of the Sexes, the Condition of Women, the difference of Natural Endowment, &c. To parents, in conducting the education of their children, it will be found most valuable; also to young people of both Sexes: as it treats of self culture, both mentally, and physically.—*American Phrenological Journal.*

Almost valuable treatises from the pen of one who was more intimately acquainted with human nature than any other individual.—*New York Mirror.*

**McAlister's All-Healing Ointment.**

INSENSIBLE PERSPIRATION.

THE preceding figure is given to represent the Insensible Perspirations. It is the great *evacuator* for the impurities of the body. It will be noticed that a thick cloudy mistiness from all points of the surface, which indicates that this perspiration flows uninterrupted by when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The language of Scripture is "in the *Blood* is the *Life*." If it ever becomes impure, it may be traced directly to the stoppage of the *insensible perspiration*. Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves itself from all impurity *instantly*. Its own heat and vitality are sufficient, without one particle of medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practioners, however, direct their efforts to restore the Insensible Perspiration. The Thompsonian, for instance, *steams*, the Hydropathist shrouds us in wet blankets, the Homœpathist deals out infinitissimals, the Allopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills, pills, pills.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock; ascertained that five-eights of all we receive into the stomach, passed off by this means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particles of the blood, and their juices giving place to the new and fresh ones. To check this, therefore, is to retain in the system five-eights of all the virulent matter that nature demands should leave the body.

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to developpe itself. Hence, a stoppage of this flow of the juices, originates so many complaints.

It is by stopping the pores, that worry begins man kind with coughs, colds, and consumption. Nine tenths of the world die from diseases induced by a stoppage of the Insensible Perspiration.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed. Would you give physic to *unclog* the pores? Or would you apply something that would do this upon the surface, where the clog is actually is? And yet I know of no physician who makes any external applications to effect it. Under these circumstances, I present to physicians and to all others, McAlister's *All-Healing Ointment*, or the *World's Salve*. It has *power* to restore perspiration on the feet, on the head old sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely.

It has *power* to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter, and then heals them.

It is a *remedy* that sweeps off the whole catalogue of cutaneous disorders, and restore the entire cuticle to its healthy functions.

It is a *remedy* that forbids the necessity of so many and deleterious drugs taken into the stomach.

It is a *remedy* that neither sickens, gives inconvenience, or is dangerous to the intestines.

It preserves and defends the surface from all derangement of its functions. The surface is the outlet of five-eighths of the bile and used up matter will. It is covered with millions of openings to relieve the intestines. Stop up these pores, and *death* knocks at your door. It is rightly termed All-Healing, for there is not a disease, external or internal, that it will not benefit. I have used it for the last fourteen years for all diseases of the chest, consumption, by preventing the utmost danger and responsibility, and I declare before Heaven and man, that not in one single case has it failed to benefit, when the patient was within the reach of mortal means.

I have had physicians, learned in the profession; I have had ministers of the Gospel, Judges on the bench, Aldermen and Lawyers, gentlemen of the highest erudition and *multitudes* of the people, all in every variety of way, and there has been but one voice—one united and universal voice—saying "McAlister, you have a good thing."

CONSUMPTION.—It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But if placed upon the chest, it penetrates directly to the lungs, operates the poisonous particles that are consuming them, and expels them from the system.

I need not say that it is curing persons of consumption continually, although we are told it is foolish to say so. I must say what is said, so long as I can cure several thousand persons yearly.

HEADACHE.—The Salve has cured persons of the most inveterate of ten years standing, and who had it regularly every week, so that returning often took place.

Deafness and Ear Ache are helped with like success.

OLD FEET.—Congestion, Liver complaint, pains in the chest or side, Rising off the hair, one or the other always accompanies cold feet.

The Salve will cure every case.

In Scrofula, Erysipelas, salt Rheum, Liver complaint Sore Eyes, Glands, Sore Throat, Bronchitis, Broken or Sore Breast, Piles, all Chronic diseases, such as Asthma, Dyspepsia, Rheumatism, also Sore Legs, Chapped Hands, Tumors, Cutaneous Eruptions, Nervous Diseases, and all of the Same there is probably no medicine now known so effectual.

BURNS.—It is the best thing in the world for Burns. (Read the Directions around the box.)

PIMPLES ON THE FACE.—Masculine Skin gross surfaces. Its first action is to expel all humour. It will not cease drawing till the face is free from any matter that may be lodged under the skin, and free eruptions breaking out to the surface. It then heals. When there is nothing but grossness, or dull repulsive surface, it begins to soften and soften until the skin becomes as smooth and delicate as a child's.

WORMS.—If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially "worm lozenges" called "medicated lozenges," "vermifuge" pills, &c. The truth is, no one can tell, unless they have worms are present. Now let me say to parents that this Salve will always tell if a child has worms. It will drive every vestige of them away. (Read the directions around the box.)

There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms.

TOILET.—Although I have said little about it as a hair restorative yet I will stake it against the world! They may bring their Oils and Bears' grease, and mine will restore the hair two cases to their one.

OLD SORES.—That some Sores are an outlet to the impurities of the system, is, because they cannot pass off through the natural channels of the Insensible Perspiration. If such sores are healed up the impurities must have some other outlet, or it will endanger life. This salve will always provide for such emergencies.

RHEUMATISM.—It removes almost immediately the inflammation and swelling, when the pain o course ceases.

FEVERS.—In all cases of fever, the difficulty lies in the pores being locked up, so that the heat and perspiration cannot pass off. If the least moisture could be started the crisis has passed and the danger over. The All-Healing Ointment will in all cases of fevers almost instantly unlock the skin and bring forth the perspiration.

SCALD HEAD.—We have cured cases that actually defied every thing known, as well as the ability of fifteen or twenty doctors. One man told us he had spent $500 on his children without any benefit, when a few boxes of the ointment cured them.

CORNS.—Occasional use of the Ointment will always keep corns from growing. People need never be troubled with them if they will use it.

AS A FAMILY MEDICINE.—No man can mean are its value. So long as the stars roll along over the Heavens—so long as man treads the earth, subject to all infinities of the flesh—so long as disease and sickness is known—just so long will this good Ointment be used and esteemed. When man ceases from off the earth, then the demand will cease, and not till then.—JAMES McALISTER & Co.

Sole proprietors of the above Medicine. Price 25 cents per box.

CAUTION.—As the All-Healing Ointment has been greatly counterfeited, we have given this Caution to the public that no Ointment will be genuine unless the names of *James McAlister*, or *James McAlister & Co.*, are WRITTEN with a PEN upon EVERY label." Now we hereby offer a reward of $50 to be paid on conviction in any of the constituted courts of the United States, for any individual counterfeiting our name and Ointment.

PRICE 25 CENTS PER BOX.

**Why will you be Sick!**

MARION C. HOUSE, S. C., April 10th, 1847.

DR. D. JAYNES—Dear Sir: It was some time before the people here would try your Medicines, but after they found out their real virtues, I sold out your EXPECTORANT and ALTERATIVE directly, and could have sold several dozen more of each since they gave out. Your SANATIVE PILLS are rising very high in the estimation of the people, and I shall be out of them in a few days. Several persons here speak well of the HAIR TONIC.—There is a young man in this neighborhood, who has been reduced to his bed by *Scrofula*; his physician told me that he *must die*; I told him that I thought that JAYNE'S ALTERATIVE would help him. He said, "all the medicines in the world would not save him!" I think, said I, Doctor, if you are done with him, I will try him. His reply was, "if you can cure him the medicine is worth a fortune." I sent the sick man a bottle of your Alterative, which he took, and in one month was able to visit his neighbors. The medicine, however, gave out before he was entirely well. I wish you, therefore, to send me more as soon as possible. I also gave the Alterative in a case of *Cancer*, with great success. In short, although I thought very little of your articles at first, I now think, like I heard an old Methodist Preacher say the other day, publicly, that your's were the "best medicines in the world."

Respectfully, yours,
JOHN M'MILLAN. P. M.

**COPPER AND IRON FOR THE NAVY.**

NAVY DEPARTMENT,
Bureau of Construction, Equipment, and Repair,
7th June, 1847.

SEALED PROPOSALS, endorsed "Proposals for copper," or "Proposals for Iron," as the case may be, will be received at this Bureau until 3 o'clock, P. M., of the 20th inst., for furnishing and delivering at the respective navy-yards near Portsmouth, New Hampshire; Charlestown, Massachusetts; Brooklyn, New York; Philadelphia, Pennsylvania; Washington, District of Columbia; and Gosport, Virginia, such quantities of cold rolled bolt and sheet copper, not exceeding one hundred thousand pounds of each at any one navy-yard; and of round, flat, and square iron as may be offered by the respective commandants or navy agents, or by this Bureau, during the fiscal year ending 30th June, 1848.

The round iron not less than three-sixteenths of an inch, nor more than four inches in diameter. The flat iron to be not less than three-sixteenths of an inch, nor more than three inches square.

Both the copper and iron must be of the best quality, free from flaws, rugged ends or edges, cracks, or other defects, and must be true to the sizes which may be ordered; and to be subject to such test and inspection as may be directed, and in all respects to the satisfaction of the commandants of the respective navy-yards, or it will not be received.

Any quantity not exceeding five thousand pounds of copper, or ten tons of iron, to be delivered within ten days after the order shall be received; and one day will be allowed for every additional thousand pounds of copper or additional tons of iron that may be ordered. It is to be distinctly understood, however, that persons who may contract are not to have any claim of privilege to furnish any greater quantity of copper or iron than may be expressly ordered.

It is to be understood, also, that when persons reside at other places than those near which they may engage to furnish articles, they will be required to appoint and duly authorize some agent or agents at or near the place of delivery, to receive and act upon the requestions or orders which may be made; and, in case the person who contracts, or his agent, shall neglect or fail to comply with the requisitions or orders he may receive for articles under his contract in proper time, or of proper quality, the officers or agents of the navy shall be authorized to purchase the same, and the contractor shall be liable for any excess of cost over the contract price.

Separate proposals must be made for each navy yard, and for the copper and for the iron, and the price asked per pound must be the same for the bolt and sheet copper, and for the round, flat, and square iron, that the different offers may be correctly compared.

Bonds, with two approved sureties in one half the estimated amount of the respective contracts, will be required, and ten per cent. in addition will be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance of the respective contracts, which will, on no account, be paid until the contracts are completed with in all respects. After deducting ten per cent. payment will be made by the United States twenty days after bills duly certified and approved, shall be presented to the navy agent.

The department reserves to itself the privilege of rejecting offers made by persons who have heretofore failed to comply in contracts, if it should deem it advisable for the public interests.

Every offer must be accompanied, as directed in the act of Congress making appropriations for the naval service, approved the 10th of August, 1846, by a written guaranty, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the supplies proposed. No proposal will be considered unless accompanied by such guaranty.
