No 175 Bertram st., Philadelphia.
Having been afflicted for some years with that distressing disease, the asthma, and for the last year more of the time confined to my room, at several different times my life was spared, and I concluded to obtain some of your Sillian Syrup, which was recommended to me by a friend from New York, who stated that it had cured some of the most inveterate cases known to the medical profession. Sufficient to say, that after using the above medicine, I have been cured, and I believe I will never be troubled with it again.
