The Daily Morning Post.

L. HARPER, EDITOR AND PROPRIETOR.

PITTSBURGH:
MONDAY MORNING, AUGUST 13, 1847.

DEMOCRATIC NOMINATIONS.

FOR GOVERNOR,
FRANCIS R. SHUNK,
OF ALLEGHENY COUNTY.
FOR CANAL COMMISSIONER,
MORRIS LONGSTRETH,
OF MONTGOMERY COUNTY.

SENATE—ALEX. BLACK.
ASSEMBLY—JAMES B.SAWYER,
J. H. M'ELHENNY,
JOSEPH COOPER,
JAMES S. LONG.
TREASURER—JOHN C. DAVITT.
COMMISSIONER—R. DONALDSON.
AUDITOR—EDWARD M'CORKLE.

The Federalists and the Tariff.

The visit of the Vice President to this city, has stirred up the bile of the federal editors no little. Every thing that their evil imaginations can think of, is resorted to, for the purpose of creating a prejudice in the minds of our citizens against that distinguished gentleman. His speech at the St. Charles Hotel, upon arriving in this city, in reply to Col. M'Candless, has afforded them a text for many a long rigmarole. and they labor hard to convey the idea that the Vice President has overrated the amount of revenue that will be collected under the Tariff of 1846. It is not necessary for us to enter into a defence of the estimate of Mr. Dallas. It is enough to expose the reckless and unprincipled course of the federalists, respecting the present Tariff. When that act was passed the champions of the restrictive system, in and out of Congress, predicted and asserted that the country would be ruined under its operations; and further, they asserted that not over sixteen millions of dollars would be realized from customs—an amount insufficient to defray the actual expenses of Government. These statements were made in order to frighten the people's representatives from an honest discharge of their duty, and force them, if possible, to continue the old system of special protection, for the exclusive benefit of the manufacturing interests of the country. The complete success of the Tariff of 1846 is now candidly admitted by every honest man, whether democrat or whig. Demagogical federal editors, who suppose that it is their duty to oppose every democratic measure, and at all times misrepresent facts, hold out in their blind opposition to the best Revenue Law which the country has ever had. To think of the amount collected this year under the Tariff of 1846 being estimated at *thirty-six millions of dollars*, is sufficient to drive federalism crazy with disappointment! It perfectly destroys their thunder—completely disarms them of all their most formidable weapons.

If the country at present was convulsed with panics and distress—if our manufacturing establishments were forced to wind up for want of employment—if the merchants were compelled to retreat behind bankrupt laws, to protect themselves from their creditors—if the farmers and wool growers received inadequate prices for the products of their labor—if transporters and shippers beheld their boats rotting for want of employment—we say, if all this sad state of affairs came to pass, in consequence of the Tariff of 1846, *then* the Federalists would be in the height of their glory—*then* that party would have a fair prospect of succeeding to power; for it is a well known truth that "Federalism rises as the country sinks!"—But, fortunately, our beloved country is now enjoying unprecedented prosperity—every branch of industry is flourishing beyond all precedent—and every man who has the disposition to be industrious, can have no fears of going to bed with an empty stomach. The People's Tariff is working admirably, and no man, unless he is behind the spirit of the age, a bigoted, uncompromising federalist, will seek to disturb that wholesome and equitable measure.

There is no interest in the country that requires more protection than is afforded by the Tariff of 1846. A manufacturer who asks more than 20 or 30 per cent., has not the energy and capacity to conduct his own business. He must be a poor drone, who wishes the Government to make him a rich man by a system of special favoritism. A whig friend of ours, who is extensively engaged in the wool business, informed us the other day, that he was lately in Boston, and while there he had a long conversation with ABBOTT LAWRENCE, in relation to the effect of the present Tariff on his business That celebrated manufacturer informed him that he asked no protection from Congress—that he was able to compete with the world! An extensive iron manufacturer of this city, also a whig, told us recently that he had no fears of foreign competition in his business, and if no worse Tariff than the present one is passed the iron business must flourish in Pennsylvania. Candid admissions like these completely destroy all the extravagant statements of excited federal politicians.

Gov. Shunk's Democracy.

The message from Gov. Shunk vetoing a bill passed through the Legislature last winter by the Whigs, will be found in another column. In it we have the principal point at issue between the two parties clearly laid down.

The Whig members of the Legislature got a bill passed which proposed to grant to a certain Railroad company the privilege of purchasing and farming FIVE THOUSAND ACRES OF LAND; and also granting said company power to transport upon the public works, to mine and sell coal "with a requirement of the stockholders to pay the amount of stock they may subscribe, *but with an absolute exemption to pay the debts of the company out of the individual estates.*"

The Whigs proposed to charter an immense company, with a capital of *five hundred thousand dollars*, with great privileges, that would enter into competition with private individuals—with farmers, miners, transporters, and hundreds and thousands who are now engaged, honestly and industriously, in making fair livelihoods, and who are responsible for all debts they may contract.—Gov. Shunk, upon the other hand, who represented the views of the Democratic party of the Union, *vetoed* this monstrous attempt to build up a monied aristocracy in our good old State.

The Whigs need not squirm at these facts, for they are in black and white upon the Journals of the Senate and Assembly.

Here is matter for the consideration of all true Pennsylvanians. We commend the Message of Gov. Shunk to the attention of men of all classes; and we ask, who can not detect in it the honesty of the pretensions made by the Democratic party to the entertainment of correct views upon all questions of national and state legislation. The getting up of this "Railroad and coal company" charter, and the prompt and *philanthropic* veto by Gov. Shunk, should be enough, without any other argument or historical fact, to satisfy any liberal minded voter, that it is to the Democracy of the State that the people must look for protection against the wiles of capitalists, aristocrats, and ffee government hating politicians. Notwithstanding the tricks resorted to by our opponents to conceal their purposes from public scrutiny, they generally fail in accomplishing so much; the truth will leak out, as we have abundant evidence in the result attending the introduction of the bill we have referred to.

Great Failure.

The failure of the great banking house of Prime Ward & King, of New York will be seriously felt by the mercantile community of New York, and indeed all over the country. Their operations between this country and Europe have been enormous, and their protested bills will be returned to all parts of the United States, and create considerable disappointment to those who have transmitted them to pay European debts. Undoubtedly the cause of this failure is owing to the produce speculations which have been lately going on in England, and which have prostrated some of the oldest mercantile houses in London and Liverpool.

DRY GOODS BUSINESS.—The following information in regard to the Dry Goods trade we take from the *Dry Goods Register*, published in New York:

We remarked in our report of the Foreign Markets that the assortments are broken; the same observation will apply to the Domestic, but the facilities of production are so great the deficit can be easily supplied of the styles of goods mostly in demand. The current has been a very buoyant week with our commission men generally; very many goods have been sold, and prices have been fully maintained. Some styles of Brown Sheetings are out of the market, and sold in advance of production, while others of equal value, but not of brands as well known, are neglected.

The stock of Drills is small and taken for consumption about as fast as produced; prices remain firm with a steady demand. In bleached goods the demand has rather improved, and we are fully sustained in the remark previously made, that the consumer would give a decided preference to our own over foreign products, and so far as we can judge, our market is firm and prices well sustained. The foreign on the other hand are neglected, and a disposition to shade in price to effect sales. We allude more particularly to the medium and lower qualities. Of these styles the importation has been greater; but the finer qualities which are made of better material, are, we think, superior to American Goods of the same price.

The stock of brown sheetings and shirtings is small; prices very firm

Ticks in fair demand; prices firm.

Some good styles drills out of the market—good demand and prices steady.

Fine and low priced prints in good demand, medium styles neglected—sales very large.

Stock of Osnaburghs small, prices firm.

Some unknown brands of Denims at a less price than any we quote; moderate demand. Assortment very good.

Good assortment of Stripes; moderate demand.

All styles woolen move off freely—prices are firm, with a little advance on some styles.

SINGULAR PHENOMENON.—*Ramsgate, Aug. 31th.*—Between four and six o'clock on Thursday evening, a long cloud, reaching some few miles across the sea, was observed by many hundred spectators from the heights of Ramsgate and Margate, bending its course to our southern coast, from the direction of Calais and Ostend, but which had more the appearance of a long column of smoke from the flue of a steam ship on a calm day; but about 10 o'clock in the evening the excitement was intensely increased by the remaining promenders on the several promenades and cliffs of the above places; being literally covered with lady-bugs. Thus many of those persons who had been most exposed, on their return to their homes, found themselves not only enveloped with this compact little shell insect, but so regularly dotted on the clothes, that it had the appearance of a scale armour. At an early hour in the morning, the whole of the line of coast was found to be covered with them to the great annoyance of all parties; and in order to give the reader a correct idea of the extent and quantity of these unwelcome settlers, five bushels were swept from the Margate pier, and nearly the same from that of Ramsgate Harbor. To walk on them might readily compared to walking on snow on a frosty day. The locality whence they first took flight remains at at present unknown.

Important Whig Movement.—At a meeting of the New York "Democratic Whig" Young Men's General Committee, held at Broadway House, Sept. 3, 1847, the following resolutions were adopted, among others:—

"Resolved, That to commit the guidance of a vessel to the hands of a pilot who had never been at sea or studied its charts, would, by common consent, be deemed an act of rashness—that it would be equally unwise to place at the head of this government, holding under its care the lives and fortunes of twenty millions of people, any individual whose opinions upon the leading points of our political economy are yet undefined.

Resolved, That in the designation of the person for the whig candidate for the approaching canvass we have encountered no embarrassments, have met with no discordant opinions, and for that high and solemn trust we do not hesitate again to inscribe and blazon on our shield the much loved and long-honored name of Henry Clay."

This is followed by a long eulogium upon Mr Clay.

☞ The Lehigh Register of the 31st ult., says Lieut. T. D. Shaw, of the United States Navy, the gallant commander of the U. S. schooner Petrel, at the bombardment of Vera Cruz, and of Tuspan, arrived in our borough on Wednesday, the 25th instant, and was warmly received by a large circle of friends, who are numerous throughout the State. On the evening of his arrival, a large body of our citizens, attended by music, assembled at his lodgings, to greet him with a welcome. Three hearty cheers were given, and a call for Lieut. Shaw, when he appeared on the porch of the hotel, and in a very handsome style, probably a little peculiar to himself, or to his profession, addressed our citizens. Touching upon the Mexican war, our navy, the gallant band of officers and seamen, with whom he had served in the Mexican gulf, the glorious character of his native State, &c., &c. The address was short, but rich with sentiments, that were received with long and loud applause.

CHARGE D'AFFAIRS TO NAPLES.—The correspondent of the Ohio *Statesman* has the following in relation to the Naples mission, vacated by the resignation of W. H. Polk, Esq.:

It appears to be understood in political circles, here, that the mission has been tendered to the Hon. Wm. Medill, now Commissioner of Indian Affairs. I presume he will hardly accept it, as the Secretary of War will probably put a veto on his resignation of his present important trust.

Remarkable Phenomenon.—The Courier des Etats Unis says that Mr Glatz, of this city, has a child which affords an example of the freaks of nature, as follows. The child is hardly twenty two months old, and is thirty-nine inches in height. Recently it grew five inches in three days, and then, after twelve days' intermission, it grew four inches in a week. As the Courier is informed by M. Legrand, the French physician who attended it, it is the most enrious phenomenon ever observed: the most rapid growth known being three inches in eight days. We add with regret that this abnormal development has exhausted the strength of the child, which is reduced to such a state that the circulation of the blood can be seen in its veins It lives only by the nursing it receives, and they despair of raising it

NATIONAL CONVENTION.—The following resolution was passed by the Democracy of Holmes county, Ohio, at their recent convention:

Resolved, That we are in favor of holding a national convention, to nominate a candidate for the presidency; and suggest that such convention be held in Cincinnati or Pittsburg; and that the delegates from Ohio should be instructed to oppose the two thirds rule."

DEATH OF GEO. H. PROFFITT.—The Louisville Democrat, of Thursday, says that the Hon. G. H. Proffitt, who has filled several important stations in our country, died at the Comstock House about 1 o'clock on the night of the 6th inst.

Tariffville.—A gentleman who recently visited this place,—which is situated near the north bend of Farmington river, about a dozen miles N. W. from Hartford,—informs us that it is thriving beyond all precedence. The foundation has just been laid for an immense building 300 or 400 feet long, designed as a manufactory of some description of woolens. Dwelling houses are going up by the dozen. The present population is about 3,000. Mr. Thompson, of Thompsonville, Connecticut, is largely interested in these works. We are glad that his courage has not failed him with the Tariff of 1842, nor the village which he has done so much to build up. If he will change the name to "Free Trade" we shall like it still better.

Egg Plants.—A "green 'un" coming to New York was struck at the sight of some objects on a huckster's stand. In the following manner he sought an explanation of the "queer things."—"Say, uncle Ben, what sort of animals them 'ere punkins that are all over black a' most blue, and a little reddish?" "Them, Jonathan, are called egg plants—vegetable eggs." "Eggs!" well I swan, I should like to see one of 'em hatched, to see what sort o' critturs vegetable eggs would vegetate into!"

General Taylor's Advance.—A letter from an officer in Gen. Taylor's camp, dated at Buena Vista, August 1, and addressed to a gentleman in this city, states, that in a letter to General CUSHING, General TAYLOR had announced his purpose to advance upon San Luis about the 1st of September, and that extensive preparations were being made with reference to that movement.—*Pennsylvanian.*

☞ The *Lancaster Intelligencer* says that the Cotton Factory is once more in successful operation. There are 191 looms running, which turned off during the past week 39,000 yards of muslin. When the remaining looms are put in motion, the weekly product will be 41,163 yards.

Death of a Sister of Charity.—One of those angels of mercy, who, for the holy cause of religion, banish themselves from the gayeties of the world to wait upon the wants of the suffering and the dying, has at last become the martyr of her own charity. On Saturday morning last, Sister Mary Delphina Zeigler died of the yellow fever in the hospital. She was thirty three years of age, and was a native of Pennsylvania. She had been two years in the hospital, and for eight years a member of the sisterhood. Unceasing in her attention to the sick, she at last herself fell a victim the scourge that is now devastating our city. She who was an angel on earth, is now one of the elect of heaven.—*N. O Delta, Aug.* 31

NO APPROPRIATIONS.—We rejoice to see a large and respectable number of the Whig papers, in this and other States, taking decided ground against further appropriations by Congress of men and Money for the Mexican throat cutting business. This is as it should be."—*Xenia Torch Light, (fed.)*

We ask the people to mark this, and the whether the forces of this country will carry out their designs. Such language in the days of our forefathers, would have been rewarded with a halter. Is it less culpable now?—*Ohio Statesman.*

☞ The editor of a religious journal, in an article on the general ignorance of newspaper expenditures and editorial labor, says that he once received an article for publication, in which was enclosed *one cent*, with a request that he would send the writer as many additional copies of the journal as the cent would pay for. That was rather *too* bad.

SUDDEN DEATH.—On Tuesday morning a man named William Boyle, died very suddenly while sitting at table, in the "Right of Way House," kept by Mr. Dougherty, on Liberty street, in the Fifth Ward. The Coroner held an inquest upon the body.—*Telegraph.*

☞ A pamphlet of 12 pages has recently been published, giving an account of Dr. John Wilson, who lately died at Brattleboro', and who is generally supposed to have been the celebrated robber, Captain Thunderbolt. It contains the confession of Michael Martin, or Captain Lightfoot, the companion of Thunderbolt. The opinion strengthens even at Brattleboro', that Mr. Wilson was really the noted Thunderbolt; indeed, there are circumstances existing proving this, which cannot, it would seem, be gainsayed in any manner.—*Springfield Repub*

Eagle carrying off a Child.—A little boy, ten years of age, in the canton of Geneva, was lately seized by an eagle at the moment at which he had taken some eggs from a nest. The bird carried him to a height of upwards of 500 metres, the summit of a rock, where luckily some shepherds were engaged, who immediately rescued the poor boy. He had sustained no other injury than a violent fright, and the profound impression of the eagle's claws.

Railway across the Isthmus of Panama.—M Klein, who was sent to Bogota to treat with the government of New Grenada for the establishment of a railway across the Isthmus of Panama, has returned to France. He has completely succeeded in his mission, having obtained most advantageous conditions for the company he represented. The works will shortly be commenced.

Capture of Beder Khan Bey.—Letters from Constantinople state that Beder Khan Bey, the butcher of the Nestorian Christians of Mesopotamia, has surrendered to Osman Bey, the Turkish commander, and has been sent to Constantinople as a prisoner.

The Bridge.—Contracts were entered into yesterday with Messrs Miller & Kelly of Columbiana county, Ohio for the erection of the abutments of our bridge the work to be commenced and completed with the utmost despatch. The prices are for the Eastern abutment, $3½ per perch, and the Western abutment $4 per perch.—*Wheeling Argus.*

Bad Off.—The ladies of Pottsville lately sent an advertisement to the printer there, headed "Beaux wanted," and he, like a very ungallant gentlemen, refused to publish it.

☞ Mr. Knowles, the Dramatist, we see it stated, is likely to gain, rather than lose, by his rejection of the paltry sum offered him by Royalty, as a pension. A proposal has been made in Glasgow for the institution of a fund for the purchase of an annuity to the author of "The Hunchback."

"Local."—On the morning of Commencement day, cries of "murder," "help," &c., were heard issuing from a house in Chapel street greatly to the alarm of the neighbors, several of whom immediately rushed in to ascertain the cause; when lo, and behold! the lady of the house was discovered with her husband across her lap, on whom she was inflicting a regular *spankado*, for some breach of family discipline, and who was making the welkin ring at the top of his voice for assistance.—*New Haven Reg. of Tuesday.*

Only a Commencement.—The New York correspondent of the Boston Chronotype, speaking of Stewart's fine establishment in New York, says:

"A single lady from Tennessee has during this week spent *thirteen thousand dollars* at the counter, by way of commencing house-keeping."

We do not wonder at such an extravagant lady remaining single.

☞ The doctrine of proscription as introduced by JACKSON, has *ever* been repudiated by Whigs.—*Buffalo Commercial Advertiser.*

Proof.—During the few weeks Francis Granger was Postmaster General, he boasted that he had removed seventeen hundred "Loco-Foco" Postmasters to make room for Whigs.—*Rochester Advertiser.*

☞ A young princess has been born to Brazil. There was great disappointment; a *prince* was expected.

What a Number!—There are now over *six thousand* inmates in the New York Alms House.

LOCAL MATTERS.

FIREMEN'S PARADE.—We have witnessed all the annual parades of the Pittsburgh Firemen, that have taken place for some years past, and have always admired those grand exhibitions of taste and enthusiasm. But the affair of Saturday last surpassed all their former efforts. The companies turned out in their whole strength; the engines and reels were beautifully decorated with ribbons streamers, flowers &c. The members, who are as fine a looking set of men as ever lived, appeared in appropriate costumes. They marched through the principal streets of the two cities, to the music of a number of brass bands. The streets, the windows and doors, were crowded with people of all ages and sexes, who had gathered from far and near to witness the pageant. According to an arrangement previously made, Vice President DALLAS appeared upon the balcony of the St. Charles Hotel, while the Firemen passed, and was greeted by hearty cheers from the members of the different companies. The one in the rear, the Vigilant, halted in front of the St. Charles, and with the immense concourse of citizens who were assembled there, gave nine cheers for the Vice President.

The *Hope* Engine and Hose company, of Birmingham, led off. The apparatus was drawn by the members, who were very neatly dressed, and the engine was glaring with ornaments.

The *Washington* Engine and Hose company, from Allegheny, followed. This is one of our best companies; and on this occasion the members were successful in their efforts to make a fine show.

The *President* Engine and Hose company, also from Allegheny, looked exceedingly well; and was creditable to our sister city.

The *Allegheny*, the company that is always about when the bell rings, presented a very brilliant appearance, which was heightened by the music of White's great Pittsburgh Brass Band.

The *Eagle*—we think the oldest company in the city—turned out with the Reel, which was in fine trim, and bore a streamer on which was this inscription, "Judge us by our actions."

The *Duquesne* Engine and Hose company, composed of never tiring spirits, appeared equal in all respects to any other in the procession. An excellent band of music accompanied them.

The *Neptune* Engine and Hose company—a company notorious in the city for skillful and daring members—looked exceedingly well. The apparatus was drawn by splendid horses; and an appropriate banner was displayed. The Circus Band came next, in their magnificent carriage drawn by fourteen horses.

The *Niagara* Engine and Hose company, from the Fifth Ward—a glorious set of fellows—appeared next; elegantly attired. The apparatus was drawn by beautiful horses. A Band accompanied the whole.

The *Vigilant Independent* Hose company, with their superb Reel, followed; and were the admiration of the spectators. They had with them the German Band.

The *Uncle Sam*—a small engine, but during a fire a large souled company—from our sister city, followed. The apparatus was drawn by the company, the members being very tastefully dressed.

The *Vigilant* came on last, but not least in any respect. The apparatus was drawn by beautiful horses, and all were well decorated. A Band accompanied, which, during the halt before the St. Charles Hotel, played Hail Columbia and Yankee Doodle in a spirit that made the crowd shout.

We have here noticed each company in the order in which it passed; but we know that we have not done justice to any one of them. Such an exhibition cannot well be described on paper; to be appreciated it should have been seen. It gives ample testimony that our young men are increasing in public spirit and usefulness; and that the affairs of the country will be in no danger when entrusted to such hands. May they all live to see another such Parade.

NEW WORK ON ASSOCIATION.—We are indebted to Mr. Wm. S. Caldwell for a copy of a new work that has just been published in this country, bearing the following significant title: "*The Organisation of Labor and Association.* By MATH. BRAINCOURT. Translated from the French by Francis George Shaw." We shall notice it again in a few days; in the mean time those who acknowledge themselves converts to the theories of Society promulgated in the book in question, should obtain a copy. Price 25 cents.

SWINDLING.—On Saturday, a man named Cameron, was arrested on a warrant from Alderman Scully, for obtaining eleven head of cattle from a drover, under false pretences. Cameron stated that his brother was a contractor on the rail road, and had a farm in the neighborhood of this city, and that he wished to purchase the cattle for him and take them to his farm. The drover sold them to him. Cameron brought them to this side and sold some of them at a less price than he agreed to pay. The money was seen with him on Friday afternoon; but on Saturday morning he had none in his possession. He raised sixty dollars in some way, which he gave to the drover for a horse, but did not get possession of him. Cameron is now in jail.

PRISONER ESCAPED FROM THE PENITENTIARY.—About 3 o'clock on Sunday morning, a prisoner in the Penitentiary named Bill M'Cartney, who was arrested in this city, and convicted in Fayette county, about two years since, for stealing, made his escape, and had not been re-taken late last evening, though search was made for him. A reward of $50 has been offered by the Warden.

Bill succeeded in sawing the bars of his cell window, and, being rather slim, succeeded in crawling out. He went into the dye-house, and got a pole, upon which he climbed to the top of the outer wall; and from thence he descended upon a rope which he made out of his bed clothes.—This is the report we have heard.

M'Cartney was sentenced to seven years' imprisonment, and has not yet served two. There is but little doubt that he will be caught.

THEATRE.—The house was crowded on Saturday evening, so that we could not get a comfortable sight; to get a seat was out of the question with those who happened to drop in a little late. From the enthusiasm manifested by the audience, we concluded that the company and the pieces gave great satisfaction.

A long bill is offered for this evening, upon which may be seen the names of Marble, Dunn, Miss Petrie, and other favorites.

WELCH'S NATIONAL CIRCUS.—The Pavilion of this celebrated Circus was crammed to suffocation on Saturday night. We protest against admitting such tremendous crowds; there is but little enjoyment where people are so *crushed* together. However, all agree that the performances were truly astonishing, and that the amusements of Dan Rice were rich.

☞ There was a difficulty on the old Allegheny Bridge yesterday, between the Allegheny and Vigilant Engine companies, but fortunately it did not result severely.

☞ Notwithstanding the excitements of Saturday afternoon and evening, there were but three cases before the Mayor yesterday morning. This is creditable to the city.

INDIANS ABOUT.—A band of Ioways are now in our city; and it is expected that they will exhibit some of the ceremonies of their tribe before leaving.

☞ The Sable Harmonists will open in the Athenæum on Friday next. The new company will raise an excitement in this city, surely.

ANOTHER ANOTHER.—Andrews gives one more Concert previous to the departure of the Troupe for the south This evening they appear in their favorite pieces. See advertisement.

THE DUNN CASE will be argued in the Supreme Court to day. Great interest is felt in the decision.

☞ Cargoes will have to be weighed at Johns town until the weigh-house is rebuilt in Allegheny.

☞ The alarm yesterday was false.

COMMERCIAL RECORD.

Prepared and corrected every Afternoon.

PITTSBURGH BOARD OF TRADE.
COMMITTEE FOR SEPTEMBER.
Jas. Dalzell, W. W. Wallace. W. J. Totten.

PORT OF PITTSBURGH.

Total produce of Missouri in 4 years.... 198,000

Which reduced to tons and divided by 4, will give 8,000 tons at the average annual crop of Missouri for the four last years.

CHRISTIE'S Galvanic Remedies for all kinds of nervous affections they have been used with entire success in all cases of Rheumatism, acute or chronic, applying to the head, face or limbs; gout, tic doloreux, bronchitis, vertigo, nervous or sick headache, indigestion, paralysis, palsy, epilepsy, fits, convulsions, cramp, palpitation of the heart, neuralgia, general debility, &c. In cases of dyspepsia, which is simply a nervous derangement of the digestive organs—they have been found equally successful.

These applications are in the form of Rings and Magnetic Fluid, Bands, Bracelets, Belts, &c.

☞ See advertisement for further particulars on the outside of this sheet.

For sale at the only agency, 57 Market street.

GREAT ITALIAN REMEDY.
PHILADELPHIA, April 26, 1846.

Being afflicted for some 8 years with that most listressing disease, the asthma, and for the last 3 years much of the time confined to my room, and at several different times my life was despaired of; I concluded to obtain some of Maconi's Sicilian Syrup, which was recommended to me by a friend from New York, who stated that it had cured some of the most inveterate cases known to the medical profession. Suffice it to say, that, after using the above medicine for about 4 weeks, I was entirely relieved, and I believe radically cured. Yours with respect,

OLIVER W. OWEN,
No 175 Bertram st., Philad'a.

Hays & Brockway, Wholesale and Retail Agents; see advertisement. feb22

Sargeant's Drug Store, Allegheny City, and at the door of the Church. se13-3t

Fashionable Boot Maker.

THE subscriber would respectfully inform the public that he has purchased the Boot Establishment of B. Perry, No. 55 Wood st., and will carry on the business, in future, in all its branches. The manufacture of gentlemen's boots, will be particularly attended to, and the best mechanics employed to perform all parts of the labor, connected therewith. The very best materials will be used in their manufacture. From a long experience in the business, as well as being a practical workman, the subscriber expects a share of public patronage.
WM. BUTLER,
65 Wood st., Second door from Third st.

Having sold out my entire establishment to Wm. Butler, I take great pleasure in recommending him to my old customers and the public generally.—Knowing him to be a good practical workman, I feel confident that he will give general satisfaction.

Anchor Iron for the Navy.

BUREAU OF CONSTRUCTION, EQUIPMENT, & REPAIRS,
Navy Agent's Office, Washington, D C Sep 8, 1847.

SEALED PROPOSALS will be received at this office until Thursday, the 7th day of October ensuing, at 3 o'clock, for furnishing and delivering at the navy-yard, in this city, free from expense to the government, twenty thousand pounds of bar iron, suitable for shackles for anchors, to be delivered at the navy-yard, Washington, on or before the 1st day of January next, or in as much shorter time as the contractor can accomplish; all of which iron must be hammered from blooms into rough bars, and then wrought under the hammer to sizes and shapes, according to the specifications that will be furnished the contractor, and can be seen previously upon application at this office. The aforesaid iron is required to be of the very best quality, free from all defects; and must be true to the sizes that may be ordered, and to be subject to such tests and inspection as may be directed, and to be in all respects to the entire satisfaction of the Commandant of the said navy-yard, or it will not be received. Bond, with two approved sureties in one-half the estimated amount of the contract will be required, and ten per centum in addition will be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance of the contract; which will on no account be paid until the contract is complied with in all respects. After deducting ten per centum, payment will be made by the United States within thirty days after bills, duly certified and approved, shall be presented to the navy agent.

Contracts and bonds to be executed ten days after they have been received by the person whose offer may be accepted, or the bureau will consider itself at liberty to offer it to the next lowest responsible bidder. Every offer must be accompanied by a written guaranty, signed by one or more responsible persons, to the effect that he or they undertake that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days after receipt of notice, with good and sufficient sureties, to furnish the iron as proposed; and no proposal will be considered, unless accompanied by such guaranty.

To be published twice a week for four weeks, in the following papers, to wit: Intelligencer, Washington; D. C.; Hartford Times, Hartford, Connecticut; Journal of Commerce, Evening Post. and Globe, at New York; Pennsylvanian and Keystone, at Philadelphia, Morning Post, at Pittsburgh, Pennsylvania; Sun, and Republican and Argus, Baltimore; Enquirer, Richmond, Virginia.

HARNDEN & CO's
PASSENGER AND REMITTANCE OFFICE.

PERSONS brought out by this Agency upon the most reasonable terms, from any part of England, Ireland, Scotland, and Wales, and in Packet Ships only. Foreign Correspondents to agents of the British Government have frequently cautioned Emigrants at Home and their friends in America, against the frauds that are continually practised upon them, and have always referred to the well known house of *Harnden & Co.* as the right place for all to apply if they wish to be treated with punctuality and kindness. We refer to the above facts in view of the conduct of the Rev. O'Mealey, Editor of the Pittsburgh Catholic, who has sat in judgment upon us (as he supposes) by ejecting our advertisement from his paper, thus depriving us of a fair chance to come before the Catholic Community, and let them judge of us by our actions.

Sight-Drafts to any amount payable at any of the branches of the Provincial, or National Banks of Ireland, England, Scotland, &c. We draw our own Exchange, we do not take money and send it to the East to get some one else to remit, thereby causing mistakes and delays. Let the Brokers, &c. call upon us, and we will accommodate them at New York rates.
