Consistency.—The Federalists of the Southern States say that they are opposed to the annexation of Mexico to our territory.

The recent events in Mexico have, as we suppose, fully settled some points, in the judgment of the people of this country.

The second paper, there is a sentiment, and apparently a growing sentiment, among many of our countrymen, that the present Government of Mexico, and the consequent resumption of hostilities, are not in the least necessary.

In the third paper, we suppose it will now be regarded throughout our country, as a settled point, that the annexation of Mexico to our territory, is not in the least necessary.

The Willnot Proviso.

The editors of the Memphis (Tenn.) Appeal, do not beg of the glorious republic in this State, at the late of the Constitution, but beg that our statesmen, from time to time, of the certain victory which awaited our friends, would prove correct.

The Democracy of Pennsylvania are not disposed to adopt the views of Mr. Willnot in relation to the Proviso which he proposed, and which is referred to in our number, as a matter of so much importance as to overcome every consideration.

THE UNITED STATES FINANCES.

By the official report of the Secretary of the Treasury, published in the Washington Union of Saturday, it appears that the receipts of the Treasury during the quarter ending on the 30th of September, from customs, lands, the loans of 1846 and 1847, &c., have been \$17,174,130, and the disbursements for the same period were \$17,000,129.80.

It appears by the statement of the Treasurer which we publish today, that the net balance in the Treasury is \$1,835,000. Upon inquiry, it can be ascertained that the amount of the loan and treasury notes yet to be paid is near \$2,000,000—making in all of cash that could be used before the meeting of Congress, nearly ten millions of dollars.

But to this should be added, probably, \$4,000,000 of accruing revenue up to that date from customs, lands, Mexican tariff, &c., and we have the sum of \$14,000,000 applicable to the expenditures for the month preceding the approaching session of Congress.

We also call attention to the official statement, published above, of the receipts and expenditures for the last quarter. This is the first quarter of the fiscal year under the tariff of 1846.

The receipts from all sources during this quarter, as far as we are able to ascertain, are \$17,174,130, and the total expenditure is \$17,000,129.80.

It is estimated, however, that the receipts from the Treasury for the quarter ending on the 30th of September, will be \$18,000,000, and the disbursements \$17,500,000.
