The New York Banks. We have received intelligence, by the easter papers, of the failure of the Atlas Bank, at Clynser, N. Y.; the Delaware Bridge Company, at New hope, N. J.; and the Susquehanna Bank, at Mont rose, in this State. These are the only concerns reported as having certainly failed; but on Saturday last, as we learn from the New York Journal of Commerce, a great degree of excitement prevailed, in relation to several of the western banks you refer. of that State; and indeed the country banks generally. The opinion given by that paper is, that ent servant, notes in that city. We know not the true condition of any of these banks; but would caution our readers to beware, at all times, of those concerns

subject—in my own as well as others; and that the principle of the constitution. Because—

1. I do not see in the constitution, any grant of the requisite power to Congress; and I am not disposed to extend a doubtful precedent beyond its necessity—the establishment of territorial governments when needed—leaving to the inhabitants all the rights convertible with the relations they proceedings in time for publication in our paper of yesterday. They have not yet been furnished by the Secretaries, and we therefore merely would remark, now, that the meeting was a very large one; the members of the Order appeared to be in good humor with themselves, with the world, and espetial many secretaries.

The whole subject is a comprehensive one, and fruitful of important consequences. It would be ill-timed to discuss it here. I shall not assume that responsible task, but shall confine myself to such general views as are necessary to the fair exhibition of my opinions.

The whole subject is a comprehensive one, and ill the rights compatible with the relations they bear to the confederation.

2. Because I believe this measure, if adopted, would weaken, if not impair, the union of the States; and would sow the seeds of future discord, which would grow up and ripen into an abundant barvest of calamity.
