THE MORNING POST.

J. HARPER, EDITOR AND PROPRIETOR.

PITTSBURGH:
FRIDAY MORNING, JANUARY 14, 1848.

VOICE OF ALLEGHENY COUNTY.

FOR PRESIDENT,
JAMES BUCHANAN,
Subject to the decision of the National Convention.

☞ Our report of the proceedings of the Democratic County Convention, should have stated that the vote was taken upon all the resolutions offered by the Committte, together, and that they were unanimously adopted.

Hon. Reverdy Johnson.

Although differing with the Democratic party on every leading doctrine, which has agitated the country for many years past, we find this distinguished son of Maryland cannot be either persuaded or driven into a violation of those patriotic feelings which have ever animated the state of his nativity. At the late dinner in Washington, in honor of Gens. Quitman and Shields, he said, among other things:—

"Mr. President, differences of opinion have existed, and still exist, among some of the best men in the land, as to the necessity and justifiable origin of the present war. I entertain no doubt about either; and I thank my God that I live among people who, if I desired to entertain it, would not suffer me to be here as their representative."

This expression of the honorable Senator was hailed with the most tremendous rounds of applause by the company—many of whom had cause to *feel* the effect of the encouragement which has been given to the bandits of Mexico, by those who call themselves Whigs, in this country. Mr. Johnson concluded by offering, as a toast—

"*Our Army and Volunteers.*—If they have not yet conquered a peace with Mexico, their deeds have conquered for us a permanent peace with the other nations of the world."

We most cordially respond to the sentiment of the editor of the Baltimore Republican—"All honor to the gallant and patriotic Whig, who sees that he can do justice to his country and government, without compromising his political principles."

Mr. Johnson was one of those who sustained the assertion of the President, that "*War existed by the acts of Mexico,*" and for doing which he has been declared, by Henry Clay, Daniel Webster, Thomas Corwin, and nine-tenths of the federal editors, to have VOTED A LIE!

Another Patriotic Whig.

Our readers no doubt recollect the name of Mr. McGIFFIN, of Washington county, mentioned in terms of the most noble commendation, by WM. C. WINKEBIDDLE, one of his fellow soldiers, in a letter stating the occurrences, connected with the engagement at Puebla, where so many valued members of company K. of the First Regiment of the Pennsylvania Volunteers, were wounded and slain. Mr. McGiffin, was a young lawyer, of most respectable character; and an intelligent member of the Whig party, when he came to this city and attached himself to the Duquesne Greys. Since he has been in Mexico, he has had an opportunity of seeing the practical operation of the most fashionable Whig principles—*opposition to the cause of their own country*, and *encouragement to the guerillas of Mexico;* and, seeing this, he has written his honest conviction respecting them. We take an extract from a letter of his to a friend in Crawford county, which was not written for publication, but has found its way to the public. In it he shows the condition in which both he and his brave and noble companion (WINKEBIDDLE) were placed. The letter is dated

"JALAPA, Nov. 10th, 1847.

"Winebiddle and myself were detached from the rest of the company, and had a hard time of it. We had twenty of them upon us at one time—killed six of them, and the rest left us. Winebiddle was wounded slightly in the side. I was knocked over but not hurt badly. Our escape was miraculous. The bodies of the slain, or rather butchered, were found that night and brought in. They were most horribly mutilated (agreeably to the instructions of TOM GORWIN) by the *humane* Mexicans; so much so that it was difficult to recognize in their mutilated forms, our former comrades, who so lately bloomed in the full vigor of health. Poor Crutzleman was most horribly disfigured, and in fact, they all bore the most shameful marks of violence from the merciless enemy. We followed them with measured tread to their last resting place; and while we listened to the solemn dirge of the muffled drum and shrill fife, were led to reflect how untimely was their death in a far distant land from those they loved most. They are now gone, and we yet live to avenge the cruel end to which they were brought by a foe who never exercised humanity—who are strangers to magnanimity, and consequently incapable of appreciating it from another. They have died in a GOOD CAUSE, fighting for their COUNTRY'S RIGHTS; yet fell not so much a sacrifice for their country, as to *pamper that cruel, may I not say, fatal opposition at home*, which it persisted in, must weaken, nay destroy, every effort of the Administration to prosecute the war to a speedy termination—will cripple every energy of the government, and compel us to wage the war *ad infinitum*, or conclude a dishonorable peace. But for this TREASONABLE *spirit of opposition*, we had been home ere this, and our stay here can only be determined by the duration of *that opposition*."

Whig Liberality.

The Philadelphia Times says, that a Whig paper in Rochester, mis-called the *American*, while commenting upon the recent New England dinner in New York city, to which Bishop Hughes was invited, describes that gentleman as:

"A contemner of the Protestant Bibles, an emissary of Rome, a wordshipper of images, an awarder of absolution, a mass-singing Papist."

This would be advocate of liberal principles then asks:

"How long is this farce to be played? How long are we to display our sympathy with Roman Catholicism."

The fellow only speaks the true sentiments of a large portion of his party. The only difference between him and many others, among those who call themselves Whigs, is, that he speaks his sentiments outright, while they only do so in private.

☞ In Allegheny city, the regularly nominated whig ticket succeeded in some of the wards; but all the successful candidates are of that party, except Gen. J. K. Moorhead, who is a select councilman from the Fourth ward.

☞ Mayor Adams will be re-inaugurated to-day and the Councils will be organized, officers elected, &c. The ceremonies will take place in the common council chamber, old Court House.

Ten Hour Law.—Mr. Fernon, of this county, has introduced into the State Assembly "An Act to regulate the hours of labor." It makes "ten hours of actual labor" constitute a day's work. This is right. It is just what the law should be. The poor man should be protected in his natural rights, by the law and the law's ministers, from the grasp of the monopolist—the fattener upon human toil human existence. The passage of such laws would ennoble the legislature of Pennsylvania.—*Phil. Times.*

AFFAIRS OF THE STATES.

KENTUCKY.—The Legislature of Kentucky assembled on the 31st of December. J. F. Buckner, of Christian county was elected Speaker of the House.

Governor Owsley's Message is a brief, but clear and comprehensive document, exhibiting the affairs of the State in a satisfactory light. The interest on the public debt has been promptly paid, the annual expenses of government disbursed, the public debt reduced, and still a handsome little surplus lies in the Treasury.

The funded public debt of the State is set down at $1,606,185 86, most of it at 6, and the residue at 5 per cent. The resources for meeting the interest on this debt will yield for the next year more than $100,000 more than necessary; and the surplus will be applied either to reducing the debt or extending public improvements.

INDIANA.—The following extract from the report of the Auditor of the State of Ind iana, shows the condition of that State with reference to the public debt:—

DOMESTIC STATE DEBT.

Six per cent. Treasury Notes outstanding October 31st, 1847.	$243,790 00	
Amount now on hand to be cancelled, being receipts for Revenue of 1846,	71,080 00	
		$271,720 00
Interest estimated on all outstanding 6 per cent. Treasury notes,	108,000 00	
One-fourth per cent. Treasury Notes outstanding,	60,100 00	
		$439 810 00
Total,		
Five per cent Bank Scrip outstanding October 31st, 1847,	$334,985 00	
Amount on hand not cancelled,	65,030 00	
Interest (estimated) on all outstanding 5 per cent scrip,	74,200 00	
		474,215 00
Total of Domestic Debt on 31st of October, 1847,		$914,025 00
For the redemption of the 5 per cent. Treasury Notes the Common School Fund, derived from Bank profits, through the Sinking Fund Commissioners, has been set apart, which is ample to redeem the whole debt by 1851, and therefore this sum should be deducted from the foregoing,		$474.215 00
Leaving to be paid by taxation alone,		$439,810 00

The balance of trust funds known to be on hand at the close of the financial year, is not noticed as a *Debt*, as the amounts are daily varying, and the sums being small can at all times be met at the Treasury as needed. It has been already shown, in a statement submitted relative to our Public or Foreign debt, that it will require about four years to redeem the remainder of the Treasury Notes, which now constitute the only Domestic Debt burthensome to the Treasury.

John M. Botts.

The New Orleans Delta, in referring to this celebrated leader of Whiggery, makes the following classically severe comments upon his political course:—

"Mr. Botts belongs to that class of politicians whose opposition to any measure ensures its success as his support of any measure brings certain death. He is a sort of political upas tree, that distils and drops poison and ruin on all who cluster under his shade. Like the renowned Hun, no grass ever grows where his foot is planted. The Trojan Prophetess was not more certain to be mistrusted and discredited than the famous 'Head-him-or-die' Botts, though unlike the unhappy Copy Cassandra, the Virginia Congressman was never so lucky or so sagacious as to hit upon the truth in any of his ratiocinations. Botts sprung suddenly into a great man, not from the head of Jupiter, but from the back of a famous race-horse, whose successful performances on the track seem to have exhausted the good fortune of his owner. For when, in imitation of another accomplished jockey, who seized the reins of the chariot of the Sun, and essayed the task of old Phœbus, the Virginia Phaeton finally attempted to guide and manage the car of State, he involved the world in as great confusion as that which resulted from the ambitious Jehush of his mythological original"

BURGLARIES.—No less than a dozen burglaries have been committed during the past three weeks, and not a burglar has been arrested; nor are the rascals suspected. There is no doubt a band of these gentry in our city; who find it very convenient to live by picking locks, and pulling open doors with crow bars. It is somewhat strange, that no burglaries are committed (we hear of none, at least,) in Allegheny city, or the neighboring boroughs, where there are no guardians of the night. It is certain, that there are as many inducements to plunder, out of our city, as within its boundaries—our neighbors are as rich. And yet, they sleep unmolested.

Now, we do not pretend to say that the watchmen are to blame. Let us not be so understood; but we do say, that it is strange that no arrests are made, when so many acts are perpetrated.

If there are not watchmen enough, (and we know that some of the beats are too extensive,) let the number be increased, by all means. If, on the other hand, the Councils decide that the present ought to be as efficient as a larger number, why, then, give up the system of Night Police; for the experience of the past goes to show, that under present circumstances, the watch is a useless part of the city government.

GEOLOGICAL LECTURE.—We are requested to inform the public that a FREE LECTURE will be delivered this evening, at 7 o'clock, in the Hall of the University, by Dr. JACKSON, assistant State Geologist. The lecture will be of great interest to all our citizens; and we hope that as many as can avail themselves of the opportunity will be present.

☞ The Judges of the Court of Common Pleas of Allegheny county, have appointed JAMES S. CRAFT, Esq., Revenue Commissioner, to meet the triennial board at Harrisburg, for the revision of the county assessments—a most important duty, confided to honest and able hands. Mr. Craft is a gentleman of talents and experience, especially in regard to all matters connected with the resources of the State and the taxing of the people. He was several years ago a member of the House of Representatives of this State, and assisted in preparing the tax bills, which were infinitely to the injury of the credit of the commonwealth repealed by RITNER'S administration. We are glad to see such men appointed to the Board of Revenue Commissioners.—*Pennsylvanian.*

☞ From a tabular statement in the Ohio Statesman, we learn that the amount of farm stock in the State of Ohio, in the year 1847, was as follows.—horses, 472,392; mules, 1,209; cattle, 900,162; sheep, 3,365,025; hogs, 1,757,318. In this statement, hogs and sheep above six months old, mules over eighteen months, and horses and cattle over two years of age, alone are included.

THE ERIE BANK.—We would call the attention of our readers, to an advertisement in this day's paper, in relation to the notes of this institution. Some of the papers have made statements, in relation to its affairs, which are thus contradicted.

The Governor's Message.

That able Democratic paper, the Boston Post, says of the late message of our excellent and worthy Governor:

"The message of the sound and able statesman who presides over the noble commonwealth of Pennsylvania, is of convenient length and encouraging tone. It is a merit in a Governor, always to be able to make themselves understood. The whole document relates purely to the affairs of the State, except that a few remarks on the war have a national bearing."

DEMOCRACY ON BANKING.—The following resolutions were passed at a Democratic public meeting in Ohio. The first in Preble county, and the two next in Crawford county:

Resolved, That we are opposed to all legislative enactments which empower men or corporations to create banks of circulation, or coin a paper currency for money, because they raise up monopolies and aristocracies, which are dangerous to our welfare and to our liberties.

Resolved, That the Democracy of Crawford county are where they ALWAYS have been, in regard to the currency, and look forward with unabiding faith in the triumph of the constitutional currency of gold and silver, and the abolition of all laws which foster exclusive privileges.

Resolved, That our delegates to the State Convention are ESPECIALLY instructed to support no man for our standard bearer in 1848, unless such individual be emphatically in favor of an exclusive constitutional currency of gold and silver.

FROM MALTA.—*The U. S. Ship Princeton.*—The Philadelphia North American has a letter from on board the U. S. ship Princeton, dated at Malta Nov. 21, from which we extract the following:

"I think the people of Sicily will break out shortly, and will probably compel the King to give them a more liberal government. They certainly cannot go on long as at present—a trifle will start them. The appearance of the English Squadron at Naples may do it. Sir William Parker sailed from here a few days ago—destination said to be for Naples. We have had heavy weather here for the last month.

"The barque Frances Burr, from Baltimore, arrived here yesterday—passage 79 days, with coal for U. S. squadron. We have been showing the ship off in order to prevent the arming of privateers. Our being here has been transmitted all through the Mediterranean. There are no privateers, and few if any pirates—there may be a few among the Greek Islands, where this ship will probably touch. We will keep moving until called home.

From the Camden (N. J.) Phœnix.

HON. JAMES BUCHANAN.

We are pleased to see that a large majority of the Pennsylvania Democratic papers, are in favor of this distinguished statesman for the Presidency. He stands higher in the estimation of the Democratic party throughout the country, than any other individual. His popularity has been of no hasty growth. He was repeatedly elected by the Democratic party of Pennsylvania to Congress, a number of years ago. He was twice elected to the United States Senate by the Democratic legislators of Pennsylvania. He was appointed Minister to Russia by Gen. Jackson. He was appointed Secretary of State by President Polk; and the "notorious 'Oregon controversy," wherein he so effectually used up all the points of Mr Pakenham, will long be remembered by the Democratic party. During the last Presidential camoaign he received the unanimous vote of the Democratic Convention of Pennsylvania, for the Presidency; but, for the purpose of promoting harmony, he declined. We find him in the late war, marching out in defence of his country; and we find him filling important posts in political life, and shedding a lustre over the Democratic cause.

☞ The Washington correspondent of the Baltimore Sun writes as follows:—

In order that you may be in advance of every body, we state as a fact, upon which you may implicitly rely—

1st. That all the differences between Generals Scott and Worth, will be submitted to a Court of Enquiry, to be held in Mexico. Both officers will be relieved from command and duty for this purpose.

2d. Gen. Pillow and Col. Duncan will be brought before a Court Martial. These are facts.

It may be said that Gen. Taylor will be put over Mexico, as commander in chief of the army, and having civil powers confided to his judgment.

A NOBLE FOREIGNER.—Baron Von Grone, of the Prussian army, who distinguished himself at the National Bridge, in August last, by his courage and skill, and also in the engagements which afterwards took place, before the command under Major Lally reached Jalapa, has arrived in New Orleans from Vera Cruz. The Delta, speaking of him, says:

The Baron was wounded in the hip, at the head of the two companies took a fort of the National Bridge, and was of great use to Major Lally throughout. He came to this country by permission of the King of Prussia, to serve with our army in the Mexican campaign. Gen. Scott, to whom he brought letters, treated him with marked attention in the city of Mexico, and invited him to join his staff. The fighting being over for the present, and the Baron's absence from Prussia being necessarily limited, he will occupy the remainder of his time in visiting Cuba, and afterwards, the United States, on his return home.

Commercial Embarrassment in the West Indies.—The Editor of the Balt. Patriot has been favored with the following extract of a letter to a gentleman in Baltimore from Barbadoes, just received via Philadelphia.

"It is W. I. Bank has stopped without the slightest loss of its resuming payment—its notes here are perfectly irredeemable; added to this, the Colonial Bank at Trinidad has stopped specie payment—the British Guiana Bank of Demarart has also discontinued specie payments. Several vessels have arrived from London which cannot be unloaded of money or paydnties. The few American vessels in port are having their cargoes retained by their respective captains."

The Irish and Scotch Relief Committee of New England received and forwarded, cash, $121 982 05, and provisions valued at $26,025. Total, $161,007 05. Of this amount, Massachusetts gave $115,011 06.

Mrs Mowatt in England.—The friends of Mrs. Mowatt, the celebrated actress, cannot but be gratified with the success which she is meeting with in England. Her first engagement was in Manchester, which is noted for its critical audiences, and the result has been, that she passed the ordeal gloriously and triumphantly, and was called before the curtain every night.

The Columbia Insurance Company of Philadelphia have declared a semi-annual dividend of five per cent, payable on and after the 20th January, 1848, at the Office in Philadelphia, No. 5 Exchange Buildings.

The Trenton Bank has declared a semi annual dividend of 4 per cent.

A Contrast.—The crop of tobacco grown in Virginia, (deducting from the quantity inspected the portion made in North Carolina,) is about 33,000 hhds., the value of which may be estimated at $1,650,000. The ascertained value of straw and palm leaf hats and bonnets, made in Massachusetts, by female industry, is $1,640,000—chiefly in three counties—Worcester, Hampshire and Franklin.

Domestics.—The value of the domestics exported from Boston during the month of December, was $235,830. From June 1 to Jan. 1, 21,025 packages were exported to foreign ports.

The exports of domestics from the port of New York in 1847, were 21,917 bales, against 33,905 in 1846, and 22,323 in 1845.

☞ The railroads completed in the United States, and in use, amount to 5,780 miles, at a first cost of $122,525,937. All this has been effected in 17 years. About $15,000,000 per annum is now expended in railroad construction.

DESPATCHES BY ELECTRIC TELEGRAPH.

EXPRESSLY FOR THE MORNING POST.

Thirtieth Congress.—First Session.

WASHINGTON, January 13.

SENATE.—The Vice President laid before the Senate a Report from the Secretary of War, in relation to the resolution of Mr. Benton, calling for printed copies of Doniphan's expedition to California.

The Resolution calling upon the Secretary of War for the correspondence between Mr. Trist and the American government during the armistice, was passed.

On motion, morning business was laid aside, for the purpose of taking up the Ten Regiment Bill.

Mr. Pearce made a speech, in which he controverted Reverdy Johnson's positions, and quoted numerous authorities in support of his assertion that the boundary of Texas did not extend to the Rio Grande.

Mr. Butler obtained the floor when on this bill when the Senate adjourned till Monday.

HOUSE.—After morning business, a Resolution of Inquiry, relative to the rank of Surgeons in the Army was reconsidered and adopted.

A communication was received from the President, in reply to Mr. Goggin's Resolution of Inquiry, relative to Santa Anna's Pass into Mexico, was read. The President refuses to make any remarks to the calumny implied, because, in times of hostility, the public interest requires another law presumes the Executive to be incorruptible, and as authority for this, cites the opinions of President Washington.

Mr. Adams spoke energetically in reference to this communication, and moved its reference to a Select Committee, who would be able to show Mr. Polk that he was bound to furnish the information asked.

Mr Schenck, of Ohio, said it was time that the Representatives of the People should assert their rights.

Mr. C. J. Ingersoll of Pa., next took the floor and justified the President in the course he had pursued in relation to the Resolution.

Several other members spoke on the subject, and much excitement was manifested.

Mr. Tompkins obtained the floor, when the House adjourned.

California.—A letter published in the Hartford Courant, from San Francisco, N. California, under date of Sept. 50, contains some items of interest. The Writer represents every thing as in a quiet state—the flag of the United Sates floating in the breeze in all parts of the country. Building was increasing rapidly—two hundred small houses having been erected within six months. Several new commercial houses, from Boston, N. Y, &c., had been recently established. Whale ships, in considerable numbers, visited the bay to recruit, and others were deterred from visiting on account of the high rates of laborers wages, which tempted men to desert the ships. The crops of the past year are said to have been exceedingly good. Flour was sal-able at $12 a barrel, and every thing else was 100 per cent. in advance of home prices.

The friends of the family are invited to attend her funeral, at 3 o'clock, this afternoon, from the residence of her parents, Wylie street.

The time has come when coughs and colds are rife, when consumption insinuates its changeful form—nips many a lovely bud, and lurks within the present blooming flower, the beautious cheek now deadly pale, now flushed with crimson hue, bespeaks the presence of a foe, a direful foe, who flatters to destroy. To drop the metaphor, such is Consumption, often brought on by neglected coughs and colds, wet feet, &c. BEWARE, and use the sovereign remedy, Doctor Sherman's All Healing Balsam, a certain and never failing remedy for coughs, colds, consumption, asthma, pain in the side and breast, whooping cough, palpitation of the heart, liver complaint, bronchitis, &c. ☞ Consumption is a disease which is carrying its victims to the tomb by thousands, without being arrested in its progress by the medicines in common use at the present time. But a brighter day is coming, and has come—as to successful arrest of this disease. DR. ROGERS' LIVERWORT AND TAR, not only gives immediate relief in COUGHS and COLDS, but from the testimony of men of the highest standing here and elsewhere, it is making some very remarkable cures of CONSUMPTION. Improvements in the treatment of diseases is onward, and nothing can arrest its spirit in the present age. Those who are afflicted with diseased Lungs, would do well to call on D. C. Kneeland, also Messrs. Kidd & Co., the agents, and see the certificates of Dr. W. M. Richards, Judge Wm. Burke, the wife of the Rev. Geo. W. Important Warning to those who neglect a Cold.—It is evident, and decided by the most experienced physicians, that Consumption is mostly encouraged by a neglect of a Cold at the first attack. How many persons are there that put off from time to time procuring a suitable medicine, until the disease begins to assume a serious character, when in all probability they are past the power of medical aid. May these lines prove a warning to those afflicted with the first symptoms of Consumption, that they may immediately use "DR. DUNCAN'S EXPECTORANT REMEDY," which is expressly for the disease of the respiratory system. It is certain to remove a Cough in a few days, at the same time relieving the pain in the side and breast, and arresting the progress of this fatal disease—Consumption! The "Expectorant Remedy" has a decided advantage over all other preparations. It is entirely free from Opium, and all other violent Narcotics. It regulates the system, and gives strength to the weak and nervous.

Important Warning to those who neglect a Cold.—It is evident, and decided by the most experienced physicians, that Consumption is mostly encouraged by a neglect of a Cold at the first attack. How many persons are there that put off from time to time procuring a suitable medicine, until the disease begins to assume a serious character, when in all probability they are past the power of medical aid. May these lines prove a warning to those afflicted with the first symptoms of Consumption, that they may immediately use "DR. DUNCAN'S EXPECTORANT REMEDY," which is expressly for the disease of the respiratory system. It is certain to remove a Cough in a few days, at the same time relieving the pain in the side and breast, and arresting the progress of this fatal disease—Consumption! The "Expectorant Remedy" has a decided advantage over all other preparations. It is entirely free from Opium, and all other violent Narcotics. It regulates the system, and gives strength to the weak and nervous.
