II—Agencies have been established in all the principal Cities in the Union, and applications are constantly reaching us from almost numberless villages in every section of the country. Testimonials of their marvellous effects are pouring in from all quarters—and in such numbers that we have not time to read one half of them. What stronger or more conclusive evidence than these important facts can the most sceptical desire? Is it possible, that the many thousands who have tried CLICKENER'S PILLS, can be deceived in their results? If any imposture or quackery existed, would it not long ago have been held up, as it should be, to the scorn and derision of a justly offended community.

II—Remember, Dr. C. V. Clickener is the original inventor of Sugar Coated Pills; and that nothing of the sort was ever heard of, until he introduced them in June, 1843. Purchasers should, therefore, always ask for Clickener's Sugar Coated Vegetable Pills, and take no other; or thay will be made the victims of a fraud.

THE DYSPEPSIA is without danger; but, if arising from a disease of the stomach, it is dangerous.

Nervous Debility generally accompanies Dyspepsia or Liver Complaint; it will also cure. A few deces will remove all the unpleasant effects, such as futuring at the heart, aching sensation when in a tying position, dots or webs before the sight, fever and dull pain in the head, constant imaginings of evil, and great depression of spirits. Outward signs are, a quick and strong pulse, pale and distressed countenance, &c.

Any case of the above disease can be cured effectually by the use of the Bitters, as directed.
