myth. UNBLUSHING IMPUDENCE—From a published card of McAlmont & Bond, of Philadelphia, the public would be led to believe that we have been cleamage a privilege we had no right to That "they have abandoned, some time since, the exclusive agency system of the surface of the exclusive agency system of the surface of the exclusive public "exclusive published by the surface of the exclusive published by the surface of Years, as the public are aware, aim have been to live work for times in that time; and never heard of this new concern until lately but as swood dealers.

The tea business of Al'Callmont & Bond is about eight menths old, and their assumption of the Pekin Tea Company's name is because a name is open for any man or arm to assume; but the fact intended to imply thereby, that they have any connection with the so called, and well known Pekin Tea Company of New York, is entirely false, they having been denied even an agency in Philadelphia, for the New York Company, that Company having refused even thus far to confide in them.

I know not what kind of wool they keep or obtain none of the Pekin Tea Company's of New York.

Any person reading this card will ace the gross deception they wish to practice on the public, and to the injury of my business. M'Callmont & Bond are wool dealers in Philadelphia, and have sent an agent out here to pull wool over the eyes of some of our good citizens. Look out for the black sheep. [novi0] ALEX, JAYNES. These diseases are a morbid condition of the whole system of nutrition—their products being but the effects of an alteration of the blood and secretions—the inflammation, acc, being merely attendant phenomena.
