J. S. MORRIS & CO'S BLACK WRITING INK, Por is the result of the Coy ing Press—This Ink is the result of the experiments of several years, devoted to the manufacture, on an extensive scale, of an article suited to all the purposes of the consumer. The perfec-tion of this Writing Ink consists in the following proper-ties: FLUDITY—in which property it will be found to surpass all previous preparations. It will flow with per-fect freedom, either from quill or sizel pens, and is entire-by free from any corrosive qualities. Coron—The color of this article is a tich, beautiful blue black. IF-All good black Ink, from its necessary chemical constitution, requires exposure to the air to impart a deep color. It must not, therefore, be expected, that the mo-ment the bottle is oped, the Ink will be found to be a jet black. The first appearance will be pale; but after ex-posure to the chemical action of the samosphere, either hue. Commercial and Financial. The Fatal Consequence.- The bills of mortality The Futul Consequence.—The bills of mortality which we daily see recorded, and the vast number that die of Cordination, and the very many of our friends and acquaintances who are seriously and dangerously afflicted, and must ere long pay the debt of Nature, is alone sufficient evidence that no time should be lost in getting clear of the very first evil seed of disease as soon as possible, before it takes root and destroys life. Occular demonstrations are daily visible to the public, that "DR.
