Daily Review of the Market.

OFFICE OF THE POST, }
MONDAY MORNING, February 28, 1848. }

Saturday was very disagreeable, and unfavorable to business.

Flour—As merchants say, Flour appears to have touched bottom. There were hardly any receipts on Saturday, and we heard of no sales from first hands. We think we are correct in quoting at $4.12 at the mill. Some holders ask $4 25; but could not get it, and made no sales.

Sugar—Holders are still firm at former quotations. Sales were made at 5½@5¾, in hhds. and bbls.

Molasses—Sales were made at 29@32. Holders are firm.

☞ In Sugar and Molasses, there are various opinions as to future transactions. Some merchants, are confident of a still further advance; while others look for a decline on the opening of the spring trade. We don't know how this may be.

Flaxseed—In demand.

Oats—Sales from store at 32c, we heard of no large lots that arrived.

Dried Fruit—No change in Peaches or Apples. Market well supplied; and quick sales at former quotations

S. Louis, February 10, 1848.

Furs and Peltries.—Business in this line has been confined principally to small lots brought in by wagons, and the range of sales indicate no change in prices. Demand active, as y for

Texas Developing Her Strength.—In the Merchants' and Planters' Price Current of Mobile, of January the 15th, we notice a new customer to that port. Under the head Sugar, it is announced that "a cargo of sugar and molasses arrived, on Thursday from Texas, which is something new in the trade of the city." From the knowledge of a friend in these matters, we doubt not this our elder sister, Louisiana, will find a powerful rival in our younger sister, Texas, in supplying the extensive market of Mobile. From a gentleman who spent seven months of the past year in that very productive country, we learn that the rich soil of Texas, in what is called the sugar lands, produces sugar to the acre under the same amount of cultivation; or from the employment of the same number of hands, and of a drier and better quality, than that of Louisiana. Texas received a larger share of the trade winds; from being farther west and south in the Gulf of Mexico; the trade winds being embosomed within the region of her sugar lands.—*N. Y. DR. WILLARDS *Oriental Cough Mixture.*—LET ITS WORKS PRAISE IT. Those who have not had an opportunity of trying this preparation, for the (unequal) cure of every affection of the lungs, should not fail to give it a trial. Certificates of its efficiency, from our own citizens, which we are constantly receiving, cannot fail to convince the skeptical. Read the following from a lady of high standing in Allegheny:

ALLEGHENY CITY, Feb. 7, 1848.

"Messrs. Hays & Brockway: It affords me great pleasure to be able to add my testimony in favor of Dr. Willard's truly valuable cough medicine. About three months since I was attacked with a violent cold, and was much distressed with the cough, from which I could get no relief, until I was a short time since induced to call at your store and purchase some of the Oriental Cough Mixture, in an hurry to state that I found in the second bottle, *entirely cured me;* and having great confidence in it, I have, and shall continue to recommend it to my friends.
