THE Spring and Summer stock that is now ready to be described at the old original THREE BIG DOORS,
35.00

Is one of the largest and choicest in selection that has ever been exhibited by any one concern in this or any other city in the Union. I will not undertake to describe to the reader the different assortments of articles which I now have to offer them; but will simply tell them that it they only, favor me with a call. I will lay before them 175,000 different garments to make a choice out of, consisting in part of Coats, from the richest in quality down to the lowest in price; Pantaloons and Vests, to the astonishment of the beholder, with both mouth and eyes open, wondering in the most extravgant degree of surprise, how such a vast collection of READY MADE CLOTHING could possibly be collected together under the control of one individual. But such things will be, as long as perseverance and industry is the main-spring of trade-without any intention of boasting, on my part. I will say at the same time, it is of such metal I am principally composed, for nothing in the shape or form of difficulties, no natter what their magnitude may be, can deter me from accomplishing my object, in providing for the farmer, the meelhanic, and the day laborer. My whole attention is taken up with the greatest care for their welfare. in getting up inshiouable, and at the same time substantial garments, to meet their demands; and as for others, who fancy themselves moving in a different sphere, and re-WHITE BEANS-10 bbls. for sale by dec29 SMITH & SINCLAIR. JAMES MAY, Water st. English Commercial Affairs.

The trade and commerce of the country have manifested symptoms of improvement during the past fortnight. Money is more abundant, and can be obtained on easier terms; and as the influx of specie from distant ports of the world goes on satisfactorily, there is reason to expect that ere long we shall witness a more prosperous trade, especially if nothing occurs to interrupt the gradual confidence which is now'taking place. The accounts from the manufacturing districts show a great improvement in the employment of operatives. Some few fail-Cayenne Pepper-Sells at 30c. For St. Louis. FULTON, Master, will leave Pinet Castillon & Co dark, Imperial Eagle Gin, Black Horse "Swain Pine Apple Irish Whiskey "Jamaica Spirits, St. Croix Rum, Together with a large stock of the above Wines and Liquors in Bottles; also, Champagne and Claret Wines, for sale as imported, on pleasing terms, at the Wine Collar and Liquor Store of P. C. MARTIN, feb? WANTED—A Boarding House, that can accommondence which is now-taking place. The accounts from the manufacturing districts show a great improvement in the employment of operatives. Some few failures have taken place during the fortnight, but it is pratifying to be able to state that they are of minor importance. The demand for most articles of foreign and colonial produce has been extansive. The prices obtained are more remunerative, and rom all the indications which are observable in the commercial circles, we may predict the return of better and more presperous times.

The Cotton market has been steady, although not active, since the departure of the last steamer. During the week ending January 21, there was a more extensive demand than had prevailed for some time previously, and the sales amounted to 28,710 bales: In the early part of the week there was a trifling advance; but not being maintained, prices closed on the 21st, at rates nearly the same as last quoted. Since the 21st, the sales are limited; but still prices are pretty steady. The total sales of the fortnight are estimated at about 48,000 bales. We may just observe that for Bahigs there is a fair demand; and a moderate business has been done in Brazilian. The imports continue light; and the stocks on hand, as compared with those of last searon, are much smaller; whilst the prospect is that they will continue so for some time.

The letters say, that such is the want of "satisfactory employment" for capital, that good bills are discounted at 3\(\frac{2}{2}\), if not at 3\(\frac{2}{2}\) etc. So, money which was just now two or three times as deargin London as New York—so dear indeed, that \$\vertile{g}\$cod bills "were good for nothing in raising it; has now fallen to half the price there which it bears here, and is quite accessed by a paid up; and the borrowing will set in the opposite current; and this is likely to make quite a change in the immediate money relations of the two countries.

Gold, which was flowing out of England, is now flowing into that country too freely. The same thing is true here. Gold we a getting the price of the Cities of Pinchurch.
