The Model Artistes. We give place, below, to another communication

from our correspondent "SENEX," in relation to the disgraceful and libidinous exhibitions of the "Model Artistes;" to which we direct the attention of every reader. It is a matter of astonishment, that in a city so celebrated for the virtue of its citidepraved men, should be permitted to exhibit their way condemnation. saked persons, to gratify the morbid appetites of the lustful and profligate. It appears as if the sinfal days of Sodom were upon us, rather than the Nineteenth Century of the Christian Era! We understand that our Mayor, the Hon. Garsiel Adams, is disposed to put a stop to the shameless exhibitions at the Athenseum; but is of the opinion, that he has no legal authority to interfere. But in this, we think, he is mistaken. It is true, there is nothing in the City Ordinances, which directly authorizes him to abate the nuisance complained of; but we trust he will not consider us officious, when we tell him that any indecent exposure of the person, is a misdemeanor at Common Law. The books are full of cases; but we will cite only a few. In the "Ordinances of the city of Pittsburgh," as collated by the late EPHRAIM PENTLAND, Esq., and published in 1828, by Johnston and Stockton, the following will be found as a note to the Chapter on Bathing :

will be found as a note to the Chapter on Bathing:

It is an indicable offence at common law, for any one publicly to bathe and expose themselves maked, near to the highways and babinations of the citizens; and punishable, by fine and imprisonment at the discretion of the court. See the cases, 2 Cump. 89, 1 Sid. 16s. 1 Keb. 620, 1 Sen. C. 231. 2 Stra. 780. Upon the same principle, it is indicable to publish, or exhibit, obscene and indecembooks, prints, or painings. 2 Stra. 786. 4 Burr. 2527. 2574.

Any offence, which, by its nature and example, tends to the general corruption of unorals, as the exhibition of an obscene picture, is indictable at common law; and such offence may be punished, although it be not committed in public. Commonwealth vs. Sharpless, et. al. 2 Sargt. 4

Rasele, 91.

In general all open lewdiness, grossly scandalous, is punishable by indictment at the common law: and it appears to be on established principle, that whatever ourges decape, and is injurious to public morals, is a mission of the common law: a mission of the conference for a man to undress himself on the beach, and to bathe in the sea, near inhabited houses, from which and to bathe in the sea, near inhabited houses, from which he might be distinctly seen although the houses had been recently erected, and, until their erection, it had been usual for men to bathe in great numbers at the place in question. M. Donald, C. B. ruled, that whatever place becomes the habitation of civilized min, there haves of decency must be enforced. Rex 4. Crunden, 2 Camp, 69. And the court of king's Beuch, when the defendant was brought up for judgment, expressed a clear opinion that the offence impated to him was a misdemeanor, and that he had been properly convicted. a virtue if they have it not."

I perceive, by the Journal of this morning, that its editor tries to produce the impression, that he has not favored these demoralising exhibitions. How far he has succeeded in exculpating himself from censure, is best shown by his own admission, that he would not say any thing to apprize the public of their character; when he must have known that, in the eastern cities, where they had been exhibiting—the pulpit, the Grand Juries. the Lexislatures, the the eastern cities, where they had been exhibiting the pulpit, the Grand Juries, the Legislatures, the Press, and the mass of good citizens, of every party and sect, had denounced them. Education .-- We saw, in the Mayor's Office, yeserday, a boy about sixteen years of age, who stood there to answer a charge of larceny. His parents are poor, and were compelled to send little Fred into the streets to earn his living and get his education. He has been a newsboy for years; and his face is familiar to many of our citizens. There is no bad expression in his countenance; Nature has done her work for him as well as for any one. It aggravates, and produces more and more sores, until all around are injected and made to feel the pains. If there is one truth in the world more prominent than another, it is, that society owes this boy, and all boys, at least a chance for some kind of education. "Lead up a child in the way he should go." He aceds food for the body, with all the appliances that will tend to its healthful devolopment.
