The Germans of Philadelphia. The Germans of Philadelphia were to assemble on Wednesday evening, at the Commission ers' Hall. VIVE LA FRANCE. The French people hav riously achieved their liberty, and the chains which.
Princes and Nobles had woven, around them, are sundered forever. All

world.
Germany, refined and intelligent Germany, legislation must be frequency of the suggest of the election of the suggest of the established frequency for the exercise of interests. It is not enough that we shall assent interests. It is not enough that we shall assent interests. The unit of the progress of the content of the election of the content of the election of the content of the election of the election of the enough that we shall assent interests. It is not enough that we shall assent of political rights, express to our German kindred abroad, that the great secret of liberties of the content of the election of the electi baubles for children's amusement. The progress of the nge no tonger requires that grave and intelli-gent men should be subject to the control and thraldom of imbecility and folly. Let us assemble

> A candid admission of a Whig Editor. The Cincinnati Atlas although famed for its un-measured hatred to the democratic party, is unable to justify the conduct of the whig leaders at Columbus. In spenking of the despectic effort of Goddard & Co., to enact laws on a plan of their own, the At-

other and express our sentiments with unanimity

"We have already copied the proceedings of the House and Senate, as reported from folumbus, by which the apportionment bill, albeit without a quor-um of the Senate in session, is claimed to have exposition or defence of the legality of those pro-ceedings. As at procent advised, we are not eatis-fied that those proceedings were in accordance with hed that those proceedings were in accordance with citier PARLIAMENTARY or CONSTITUTIONAL LAW. We do not believe, as now advised, that the proceedings of the House in receding from the do not mean to say absolutely, that these irregularities necessarily destroy the validity of the law-The defects, if any there be, may be cured by sup-plementary legislation. These are questions for so-ber and culightened discussion, but necessarily to be decided before judicial tribunals, but of judicial nature. We are in the dark and we ask and ex-pect that light from our friends at Columbus, We never did, and never will approve any act, simply because it is the act of our party. We wish its acts to be always right and defensible in law and reason.

Draw with a pencil on paper any puttern to which you would have the glass conform; place the pattern under the glass, holding both together in the left hand, for the glass must not rest, on any plain surface;) then take a common spike or some similar piece of iron, heat the point of it to redness, and apply it to the edge of the glass; draw the iron slowly forward, and the edge of the glass will immediately crack; continue moving the iron slowly over the glass, tracing the pattern, and the chink in the glass will follow at the distance of about a half n inch, in every direction according to the motion of the iron. It may semetimes be found requirate, however, especially in forming corners, to apply a wet finger to the apposite side of the glass. Tumfuncifully by this means. The iron must be reheat.
