Thomas Corwin. We learn from the Ohio Eagle, published at Lancaster, that a Secret Circular has been issaed by the Federalists of that State, urging the party to adopt mensures in their county conventions, for the purpose of declaring Thomas Conwin to be the first choice of the Ohio Federalists for President. This circular (remarks the Engle) has been doing its work secretly but efficiently, for some time, as the Clay, McLean and Taylor, whigs of Chie may beerve, who will take the trouble to examtee the Ohio State Journal, weekly edition, of the

In that number are the proceedings of less than eighteen county and district conventions, a large number of which have most highly sulogized the traitorous speech of Corwin, justified his anfi-American votes, and point to him as the very man whom they demand shall be chosen by the Whig national Convention for the candidate of the nation al whig party for the Presidency : Delaware county, for Corwin.

The London Morning Hefald very properly remarks, on this subject, as follows: "Of the fallen ministers we desire to speak with no unnecessary barshness, but we ewe it to truth and to justice to declare our belief that had they, early in the session, brought forward a moders plan of reform, extending the franchise beyond the small fraction of 280,000 electors, who alone exercise it among a population of 31,000,000—had they announced their intention to repeal the obnoxious articles of the Code Penant, which forbid the assemblage of more than twenty persons—had they expressed a resolve to punish corruption, whence expressed a resolve to panish corrupuon, whensu-ever and wheresoever detected—they might still have occupied the high position from which they have been recently so summarily and so uncerem-niously ejected. A friend has obligingly furnished us with the following narrative of the occurrence. The extract from the letter of that distinguished soldier, Colonel Childs, now Governor of Puebla, is highly creditable to the head and heart of the gallant Colonel. It will be read, we have no doubt, with frelings of pride and pleasure, by the family and friends of our chivaltic young townsman, Dr. Kane:

So it happened—to make a long story short—that, after these physicians had announced that there was no more hope, the efficient solicitude of the generous family that watched over him, seemed able, as it were, to detain his passing breath, and preserve his life for an indebtedness to them in turn.

If it happens (which is been under his parental roof, he could not have been with all the care, anxiety, and tenderness, that gratitude and affection could dictate. In a letter dated Nov. 12, 1846, he holds the follow ing language: "We shall certainly be out before any more gets here, even if you forward immediately. Send plent of pamphlets. I must say, there is no medicine we have ever dealt in, which has obtained so great and decided a eputation as yours. The most singular and unaccoun ble part of the matter is, the uniform and unexception ble part of the matter is, the uniform and unexceptionable testingony of its curnitive properties in every case. We have good medicines for many single complaints—but yours seems to obviate the use of All other nanneens—it goes over the whole ground. You will be surprised to learn that in every case of Fever and Agne, which I have tried it for, it has never failed to cure. And not only in one kind, but all kinds of Billous diseases, its effect is the same." Thus writes Mr. Jacobs concerning the Great American Reinedy—G. C. Vangin's Vegatable Lithoutripite Metatre.

LOCAL MATTERS: QUARTER BESSIONS Present-Judges Parron, Prest, Johns and Kenn.

March 27 1848.
The commission of Judge Jones was read and he ok his place on the bench. The names of the persons summoned as Grans Jurors, were called over, and the following gentlemen were sworn: Robt. Knox, Foreman; John Allen, George A. Kurtz, Henry Hannen, Andrew Kirkwood, James Murray, John Anderson, A. Streeper. Joseph: Dorrington, Jee. Reed, Isaac

Ritchie, Jas. M'Fadden, John MManus, Thomas Scott, Robert Snudgrass, Joseph Gordon, B. Kelly His Honer, Judge Patton, read a Charge to the Grand Jury, which we heard spoken of in high terms by those who heard it. He was severe upon the practice of selling Lottery Tickets in our city; and urged to Jurors to investigate the matter, and ence wor to sustain the laws by en orcing them against the guilty. We would suggest to the Juors, that the Post Office and Telegraph clerks might be made important witnesses, as they enjoy some means of knowing a little on the subject. The names of the Traverse Jurors were next call ed over, and the absentees fined \$20 each.

After the transaction of some business in the)rphan's Court, and some other unimportant maty ers, a Surety of the Peace case was taken up. We saw Wilson in Court during the trial, and could not avoid sympathizing with him. He is a fine looking man; quite well and fashionably dressed; and looks much more like a "rich merchant" than a third. He sat quietly by his counsel, and ethibited no charge of countenance. The testimony was closed, and, after addresses from counsel, a charge from the Court, the case went to the jury. Their verdict was sealed, and will be opened this morning.

THE COUNTERFEITERS,-The three men noticed if les days ago, so having been committed to prison by the Mayor on the charge of passing counterfeit money, were re-examined yesterday morning, and two of them discharged; the other, Fish, was recommitted for a further hearing. Gone-Mr. Clay left resterday for Cincinnati, on
