STRAW FOR THE POTATO ROT.—Mr. Skinner read, at the Farmer's Club, on Tuesday evening, an extract of a letter from D. W. Naill, of Maryland, stating that a genileman of Frederick County Md, from Mr. Naill. Mr. N. had just been informed by that gentleman, that he manured and prepared his deep, covering them with earth in drills, about 18 inches apart, placing the tubers about one foot asan-d der in the drills, and immediately gave the whole surface a covering of straw from three to four inchess in thickness. The covering of straw prevented the growth of weeds and superseded the necessity of cultivation. The result was an excellent crop of sound potatoes, so far as they were covered.
