The Ir n Business .-- The Tariff of '46. "For some time we have noticed that the rolling mills on the Monongahela side of the river were stopped; and, upon inquiry, learn, that nearly one half of the mills are idle. It was not so last year at this time. \* \* The mills have slackened their this time. \* The mills have stackened their production, in consequence of the operation of the swindling British American Tariff, inflicted upon the country, by Polk, Dilias, and the rest of, the theorising demagogues, who, under pretence of free thick, and equal burders, have defrauded the laboring this means of linelihood. \* What

The Tariff that now ests out our vitals, was then new; and its effects less felt. Now our sid and powerful revals are in the field.

The consequence is, that our mills are partly idle,—sorican they be kept in operation at a profit that will repay their owners."—Gazette, April 1,—("all Fhol's Day.")

We have before us a statement of the amount and value of the business done in this vast establishment—in the manufacture of boiler and establishment—in the manufacture of boiler and establishment—in the manufacture of boiler and the manufacture and the manufacture of boiler and the manufacture and the manufacture of boiler and the manufacture slicet iron, bar iron, nail cutting, and the manufacbusiness, in these several manufactures, was valued, in June last, at seven hundred and ten thousand dollars, and the cost of the materials used in the manufacture, at three hundred and eighty-two thousand eight hundred and thirty dollars. The manufactured articles taken to make up the first of these great sums are-55,000 kegs of Nails, 3,000 tons of bar iron, 1,500 tons of boiler and sheet iron, &c., and here at a higher rate than they have been computed to cost elsewhere; the profits on these manufactures would amount to the very handsome sum of two hundred and five thousand dollars (say \$200,000,) or fifty per cent. upon the investment, after deducting il expenses, excepting, perhaps that of house rent; and assuming, as we do, that the different articles of the 3d instant. says: profits at fifty per cent. upon their whole investment. It is a well known fact, that nearly all who have

actures quoted, of ten or even of fifteen dollars a ton, we do not see that the iron manufacturer is luced in a worse condition than a large proportion of his neighbors; and we do not recognise his right, nor that of any other manufacturer, to be placed by law upon a more favorable footing than the rest o he can realize a profit of six per cent, upon his outlay. The owner of real estate feels that he is succeeding admirably, if his annual income from rents, produces six per cent, upon the value of his property. Those who invest their money in stock companice always feel safe, if an income of six per cent. is derived from their investment; and larger dividends than from six to ten per cent, are looked upon as indicating a wonderful degree of prosperity. The editors of the Gazette, then, need not expect us to receive their statement, (that our iron mills

cannot "be kept in operation, at a profit that will repay their owners,") without a great degree of allowance. They are identified with the interests of those who conceive that the true policy of the government is, to " take care of the rich, and the rich will take care of the poor:" they sustain all the men, and all the measures, favoring this system-the wealthy capitalists, the paper money bankers, the incorporated companies, with all other schemes calculated to lead to the dependence of the masses on the few; and therefore it is to be expected that they will always be ready to minister to any flame, which those with whom they are alijed may seek to enkindle, calculated to light their way to fortune, even though it may consume the men who they assert are defrauded, by the acts of a Democratic administration, of their means of livelihood. Recollect entlemen of the Gazeite, the language of the late enerable MATTHEW CAREY, addressed to your party le said, " As your country rises your party sinks and as your party rises your country sinks! may cry panie! panie!! panie!!! We'know that you will do this on the eve of every important elecion. It has been the constant policy of your party o do so; but, unless you have in your own hands he means by which to produce distress in the comnunity, all your cries of panic, distress, and ruin. will be unavailing. When the country is laboring

under real embarrassment, from whatever cause, then is the time when your party can make their harvest: for then, no matter what may be the true causes, the mass of our countrymen FEEL that there s something wrong; and may be as they sometimes have been, misled. But we can ever enjoy the glori ous consolation, (whenever Federal cries, operating upon the necessities of the People, may gain for you party a triumph,) that your elevation is but temporary for " the sober second thought of the People, se dom wrong, and always efficient," has never yet tolerated your continuance in power.
