Human Progress.

Among the many evidences of advancement in human society which have been brought to light upon the increasing interest manifested upon the subject of Education, is one of the most cheering.

Mr. Johnson said "The human soul, without education, is like a marble in the quarry; and it is the duty of the parent to see that it is brought to the work of the mill, and polished into the gem."

Works, and how indispensably necessary it is, in those who assume to teach others, should themselves be fully enlightened, upon the various subjects, within the scope of their duties as teachers.

While we admit, as all who examine into the facts must do, the great devotion to the cause of Education on the part of the sister Methodist ministry, the necessary labor they are called upon to perform, in their almost wilderness circuits, the parents they educate, and the mere pittance of pay which they receive, we are satisfied that their sphere of usefulness will be in no degree circumscribed.

It is not only the duty of the parent to see that his child is brought to the work of the mill, and polished into the gem, but it is the duty of the parent to see that his child is brought to the work of the mill, and polished into the gem.

"The progress of science in matters of knowledge, and skill in execution, requires of the Church a corresponding advance in these respects. She cannot fulfill her mission, unless she prepares herself to meet the progress of the age."

"The Baltimore Conference has formerly taken the same course, and it is to be regretted that it has not done so since."

"The Baltimore Conference has formerly taken the same course, and it is to be regretted that it has not done so since."

"The Baltimore Conference has formerly taken the same course, and it is to be regretted that it has not done so since."

Public Meetings.

Pursuant to adjournment, the citizens of the 6th, 7th and 8th streets of Pittsburgh, met at the time and place appointed.

The meeting was organized, the committee appointed at the last meeting, to prepare a memorial to Congress, in relation to the "City of the Future," in regard to the erection of additional streets, and containing such facts, arguments and suggestions, as may exhibit the importance of the improvement, and the policy of the proposed action, submitted through their Chairman, a draft of a memorial; which was read and unanimously adopted.

On motion, it was Resolved, That inasmuch as there has not been a dissenting voice to the memorial, it be signed by the citizens of the City of Pittsburgh, and presented to the Congress of the United States, at the next session.

The meeting was addressed by a number of gentlemen, who expressed their hearty interest in the improvement, and many arguments were adduced to show the effect upon the progress and prosperity of the city.

On motion, the meeting adjourned, to be convened again by the Officers, should the action of Congress be such as to require it.

On motion, the meeting adjourned, to be convened again by the Officers, should the action of Congress be such as to require it.

LOCAL MATTERS.

Mr. Sanderling's second series of lectures will not do to be so attended as his first. Last evening he had a fine audience, his lecture was scientific and well delivered; and the experiment was wonderful for those who have no confidence in the pretensions of such philosophers as Mr. Sanderling.

He will continue his exhibitions during the present week; and we hope our citizens will call at Phila Hall once or twice at least. Persons who have heretofore been so successful in exploding Mesmerist humbugs, should be certain to attend and see the wonders of Mr. S.

New Waverly—The Water Meeting in the New Waverly on Saturday evening was well attended. A memorial to Congress, showing the necessity and policy of the additional Water Works, was adopted.

There is not one feeling with the public on the subject, and if Congress turn a deaf ear to the prayer of the memorialists, they will incur a degree of indignation that it would be better to avoid. We cannot say any good will arise out of a proclamation of the absolute independence of the Republic.

A Squabble—We judge that the toll gatherer at the Upper Bridge had to deal with some customers during the day. On Monday a female attempted to pass without furnishing the required fee.

St. Paul's—The St. Paul's Episcopal Church, under the pastorate of the Rev. Mr. Sanderling, has been very successful in its efforts to increase its membership.

News by Telegraph.

Reported for the Morning Post. Correspondent of the Pittsburgh Morning Post.

THE ACADIA! NEWS OF THRILLING INTEREST! GREAT EXCITEMENT IN EUROPE! THE REVOLUTION SPREADING LIKE FIRE!

General Convention in England! Philadelphia, April 25, 1848. The Acadia arrived at Boston yesterday bringing news of great interest.

The King of Sardinia is in Europe in increasing force, which crossed from Piedmont into Lombardy, fighting against Austria, and matched direct troops had been sent to Milan.

All the Italian Ditches are in an insubordinate state. Charles Albert will soon have 200,000 troops—sufficient to liberate Lombardy, and threaten Austria even at the Gates of Vienna.

Royalty has declared a Republic. Liberal governments have been conceded to Baden, Wurtemberg, and Saxony.

The triumph of the People in Hanover was complete. The King of Prussia has promised to extend the Constitutional Reform, but has expatriated Russia by encouraging the independence of Poland.

Belgium and Holland are tranquil. Turkey refuses to acknowledge the French Republic. An emigrant book was published at Madrid; many people are flocking to the frontier, to watch the movement of Italy.

On the 24th, Lamartine received Smith O'Brien, and other members of the Repeal Association. He made a speech, full of dignity and sympathy, but declaring non-intervention.

Smith O'Brien has repeated the declaration that the government would throw its entire weight to maintain order and suppress rebellion. The Repeal in Ireland were meeting. Additional troops had arrived from England. The Repealers in the city are now equally excited, and are supported by provinces which are electing delegates to council to be held in Liverpool, to see what can be done to prevent the Repeal of the Union.
