The Result on Tuesday. The organs of Nativism, "Free Dirt,", &c. are making great calculations upon the result of their union, which is to be manifested on Tuesday next. They estimate the entire vote of the State at about 326,000; and taking the state of the polls at the last Governor's election as a criterion, they confidently calculate upon carrying the State for their candidate by a large majority. It has, perhaps, never occurred to them, (such was the deep-rooted conviction in the minds of all, that Governor Savag would have elected.) that a very large proportion of his political friends, stayed at home—not baving an idea that their votes would accomplish any other result, than that of swelling a majority almost unprecedented, which every one believed he would receive. They have not, probably ever thought, that there have been many causes in operation, to increase the Democratic vote, -and that not the least fruitful of these; they themselves set in motion, at the time of their Convention in Philadelphia; while their course in relation to the war, and upon the various other leading measures, affecting the country, has not been calculated to impress the People very favorably, in relation, either to their honesty as politicians, on their devotion to the country's interests. We have no hesitation in saying, that the prospects of the Democratic party in this State, were never more promising; and that we never confidently calculated upon a most triumphant victory over all the combination, of Anti Masonry, Abolitionism, Nativeism, Van Burenism, and Federalism.

Whic Deceptions. The Whigs and Natives have united in one com-

mon effort against the Democrats. They have the same candidates for President and Vice President for Governor and Canal Commissioner. In Philadel phia county, they have divided the offices, and are (so far as our county and our State are concerned, supporting one ticket. Yet. in the face of this open, the proof of the design is furnished us from among and admitted fact, they are endeavoring to conciliate and procure the votes of our adopted fellow-citizens, ganization. Something then remains to be done .-Governor Johnston plays a cunning card for the German vote of this county, by appointing Leopold Sahl, a German Catholic, as his Aid ; and this is her alded to the people, as evidence of his great liberality to Catholics and foreigners.

The same effort is being made for Gen. Taylor At the discussion in Pine township, on Thursday and that is, to leave those with whom he has been last, the Whig candidates were busily employed in connected, and by whom he has been deceived, and circulating a pamphlet of eight pages, entitled-"AN ANSWER!
