Daily Review of the Markets. OFFICE OF THE POST, TUESDAY MORNING, November 14, 1848. WOOL-The receipts of Wool in this market d

ring the past few weeks, have been pretty heavy olders are beginning to let out their supplies, in view of the increasing demand and enhanced prices. The tendency of the market is still upward; and now, that nothing further is to be gained politically,

we presume manufacturers who have been interested in depressing the market, will lift their feet and let ral it spring up. Commercial reporters in the cast speak encouragingly. A New York paper says : " There has been a determined effort by manufacturers and their organs, to produce the impression that Wool has been too high, and that goods cannot be pro-

duced at the present rate of the raw matenial. The result seems to be that they have done their worst. Britain gives favorable indications as to the Wool trade. The demand is increasing in England and

Scotland. From our country large amounts will be required, should no political convulsions intervene a divert the trade from its natural channel. FLOUR-There was nothing reportable in the

Flour market yesterday, except a regular business at the quotations of Saturday. We heard of sales of bout 400 bbls. at \$4,08@4,06 ; sales from store at 4.12@4.20.

BARLEY-Sales from store at 58c. ; tendency WHISKEY-Tendency downward; sale of bbls. at 20c. cash.

GROCERIES-No change. LUMBER-Some receipts from above, which wer quickly picked up at prices not reported to us.
