"The Good Old Times!"

Greasy tells his readers the election of General Taylor "will restore the government to something like its old loftiness of character; which it never failed to maintain, while under charge of the fathers of the Constitution—the achievers of the independence upon which it was founded"! How profoundly ignorant, or how consummately knavish these Federal scribblers must be, if they think to impress upon any —even the more intelligent of their own party,— the idea, that they have a particle of sympathy for the doctrines of any one of "the fathers of the Constitution." They well know, if they know anything, that but two of our Presidents had any agency in framing the Constitution; and that but one of these could be said to have borne towards it a parental relation. The administration of that *one* was cursed by all the Federal party of that day; and his supporters were spoken of by those, as the offscouring of the earth—creatures too low to merit the notice of honorable men, or too ignorant to excite any other sentiment than that of pity. Such was the "loftiness of character" which our government maintained, (in the view of such as this Federal organ,) during twenty-four years of the time, when its administration was in the hands of those, who were instrumental in achieving our independence, and framing the Constitution.

But, highly as we value the men of the early days of the Republic, there are men now living, (who have borne their part in carrying forward the good work begun by their fathers,) to whom succeeding generations will accord as high honors as to *any, save one*, of those who aided in starting our government upon its world-wide career. We are not among the number of those who conceive that all patriotism expired with the fathers of our constitution, and the glorious men who achieved our independence; and, though we would go farther, at any time, *to prove* our veneration of the memory of those patriots, than any of those enemies of our institutions who call themselves "Whigs;" yet we are fully satisfied, that men now live among us, who only lack the occasion, to prove themselves as great, as noble, and as patriotic, as any who have ever lived before them. Nearly all of these, are men who would be as basely traduced by the organs of the Federal party as this day, as were the *fathers* of the Constitution twenty or thirty years ago; and nearly all of them are as far above such creatures as the writer from whom we extract, as light is from darkness, piety from profanity, or patriotism from selfish, narrow-minded, and sordid Whiggery.

Another object for "Protection."

We extract the following article from the New York Journal of Commerce. It may be considered as giving out an intimation that we shall, ere long, be called upon, in most moving and eloquent strains, to *protect* the slaveholding tea-growers of the South, against the "pauper labor" of China! It will surely become an important article of culture, and we think that Dr. Smith will have as much right to demand protection, as Mr. Cotton Lord of Massachusetts, or Rhode Island, or Pennsylvania. *The cultivation of tea must be protected!* Our southern negroes can never compete with people who live on Birdseeds, mice and spiders! The idea is preposterous! We go in for *protecting* Tea, Coffee, Sugar, Cotton and *Tobacco!* Then let the government pay a bounty on wheat, corn, cabbages, &c. and we'll have glorious times!!!

THE TEA PLANT IN THE UNITED STATES.—The planters and farmers of the Southern States will be gratified to learn, that seven cases of black and green tea plants, Chinese stock, have just arrived from London, in the ship American Eagle, shipped by Dr. Junius Smith, during his last visit to that city. There are 600 plants, of from five to seven years' growth;—all are designed by the doctor for seed plants. A small quantity of tea seed was brought out by him, in the steamship Britannia, which was received in London overland, from the north-west provinces of India. We understand the Doctor designs to proceed soon to the South, with a view of forming a plantation. More plants and seeds are expected from India and China this season; and if we may judge from the progress already made, we have now the means in hand of extending tea plantations, throughout such sections of our country as may be found adapted to their culture.

A New Star.

The Cleveland Plaindealer announces that a new star, in the person of B. B. TAYLOR, Esq., was to "appear in public on the stage," in that city, of the evening of the 13th inst., in the character of Rolla, in the play of Pizarro. We know Mr. Taylor well —he is a gentleman of unquestioned talents, and will no doubt succeed in his new profession. He was formerly a distinguished member of the Ohio Senate from Licking county; was appointed consul to one of the South American Republics, by President Polk, but declined the honor; and has for a few years past been a prominent member of the Cleveland bar. Our Democratic friends in this city will remember an eloquent address delivered by him before the the Jackson Association in 1841. Successto Col. Taylor. We trust he may be induced to visit Pittsburgh, and appear at Gov. Porter's establishment.

Ho! for Salt River!

The Editor of the Journal has agreed to act as Captain, to "row the Democrats up Salt River,"—provided, Gen. Cass and Col. M'Candless be of the party. We dispute the right of Capting Riddle to impose any such condition on the Democrats. We presume Gen. Cass will take passage at Detroit, upon another craft, and will have plenty of comrades, without troubling *our* "bully boat and bully crew." Now, good pilot, get your boat ready, and announce the day of departure, and the b'hoys will be about. But, remember, we wish it distinctly understood, that you are not to row us to that *other* whig colony, over the river Styx, where resides the great leader of the "Universal Whig Party."

John D. Davis, Esq.

The Gazette is requested to state, that our fellow-citizen, JOHN D. DAVIS, Esq., at present an auctioneer and commission merchant, is an applicant for the office of Post Master. Mr. Davis is a gentleman, and a man of business. He is "a whig, but not an *ultra* whig;" but, as there are an hundred applicants, more or less, for the office, we presume Gen. Taylor and Old Whitey will have some trouble in making a selection. It is said, that one of the applicants at least, is now on his road to Baton Rouge, to advocate his claims in *propria persona*! Some people will be disappointed—that's certain; and then look out for "an *ultra*" storm!

Michigan Legislature.

The Senate is composed of 32 members, of which the democrats have 17 as far as heard from, and will probably have two more.

The House of Representatives stands, 50 democrats, to 10 whigs, with six districts to hear from, which will be about equally divided.

Cold Comfort for the Natives.

The Native American faction in Pennsylvania, (says the Washington Union,) with scarcely a single exception, voted for General Taylor. He was the candidate of their party; and through the influence of such desperate political jugglers as Levin, Sken Smith, and others, they were induced to believe the, the old General was a good Native, and fully sympathized with them in their hostility to citizens of foreign birth. The following letter speaks for itself. It was written in July, but not published until after the election; but copies were doubtless shown to every leading Irish and German whig in New York and Philadelphia. Corwin, in one of his miscellaneous harangues, recently said that if General Taylor was elected, "*somebody would be cheated.*" The letter already shows that the Natives have been cheated, and time will determine whether Mr. Corwin and his Free Soil friends are not doomed to a like fate.

BATON ROUGE, July 13, 1848.

Dear Sir: I have the honor of acknowledging the receipt of your letter of the 24th ult., stating that some of the papers in your part of the country are denouncing me as a Native American, and in favor of their principles, because they have made use of my name as their candidate for the presidency; and also that I am opposed to the exercise of the elective franchise by them. In reply to these charges, I have only to say *that they are absolutely false.* I have ever considered that adopted citizens are entitled to all the rights and privileges of native citizens; and while the constitution makes no distinctions, it would be an act of injustice to withhold from them any of their rights and privileges. I may refer you to that for the last ten years I have associated with a large number of foreigners as well as Americans, and have always treated them with equal respect, and they deserve the honor of the country for the courage, zeal and fidelity, with which they have defended her interests and honor.

With my best wishes for your health and prosperity, I am sincerely yours, &c.,

Z. TAYLOR.

To H. B. MILLER, Esq.,
Publisher of the Buffalo Telegraph.

What Does it Mean?

We find the following very singular communication in the Gazette, of Wednesday. It looks curious to see such an article in a "Whig" paper; and we cannot but regard it as a mean insult offered to the President elect. The Whigs themselves so consider it:

To the Editors of the Pittsburgh Gazette.

Not to be behind-hand with my neighbors, I beg leave to nominate for a seat in General Taylor's Cabinet, his faithful friend and companion—the sharer of his dangers and toils—*Old Whitey.*

Yours, &c., McSYCOPHANT.

P. S.—As Old Whitey and the General may expect to be very intimate, I hope you will take notice that I am the *first* to suggest the appointment.

For sale, and possession given immediately, a beautiful CHICKEN COCK. He has never had much occasion for crowing, but he would doubtless do the part of a chicken's duty handsomely, if he had the chance. For terms, enquire at this office.

[Nashville Union.

☞ Pray, don't let your "beautiful chicken cock" pass into the hands of the Editor of the Pittsburgh Gazette, unless you effect an insurance upon his neck. The Deacon extends very *fowl* treatment to roosters.

☞ Dr. Laurence Reynolds, formerly of Liverpool, agent for *The Nation*, (a new weekly paper just commenced in New York,) and devoted to the cause of bleeding Ireland,) is expected in this city in a few days, when we trust our Irish fellow citizens and other friends of the oppressed will aid him in procuring subscriptions to the paper.

Part of a Prophecy Realized.

On the very day of the election, (says the Pennsylvanian,) we received a letter written from our friend SLAMM, purser in one of our vessels of war, dated in August last, at Montevideo. In this letter he prophecies the election of TAYLOR, but adds quaintly enough. "I always say to my brother officers, when they boast about TAYLOR's election, that even if we don't carry General CASS, our Whig friends will elect an *anti. Whig President*, who will be sufficient for all useful purposes."

Ohio Legislature.

Many think this body will not organize. We believe no such thing. We believe it will organize; that the Free Soil men will have a controlling influence in it; and that such laws will be passed, and such men elected to office, as the best interests and honor of the State demand.—*Ohio Statesman.*

Extent of the Oregon Territory.

On the East it skirts 800 miles along the Rocky Mountains, on the South 300 miles along the Snowy Mountains, on the West 700 miles along the Pacific Ocean, on the North 250 miles along the North American possessions of Russia and England. This areas, or immense valley contains 35,000 square miles, capable undoubtedly of forming seven States as large as New York, or forty States of the dimensions of Massachusetts. Some of the Islands on the coast are very large, sufficient to form a State by themselves. They are situated North of the parallel of 48. Vancouvre's Island, 260 miles in breadth, contains 12,000 square miles, an area larger than Massachusetts and Connecticut. Queen Charlotte's or rather Washington Island, 150 miles in length and 30 in breadth, contains 4000 square miles.

On both of these immense islands, though they lie between the high parallels of 40 and 50 deg., the soil is said to be well adapted to agriculture. The straits and circumjacent waters abound in fish of the finest quality. Coal of good quality, and veins of other minerals have been found.

THE COLORED VOTERS.—The vote of this class of citizens last Tuesday, was highly creditable. Notwithstanding the extraordinary efforts which were made to seduce them from their allegiance to the party with which they have always acted, only four of them, so far as we can learn, voted for Van Buren.—*Providence Journal, Nov. 9.*

THE NESTORIAN BISHOP.—Mar Yohannan, well known in this country from having visited here with Rev. Mr. Perkins, has been excommunicated from the Nestorian Church, by the Patriarch, for his adherence to Protestantism.

CARRIERS FOR MAIL SERVICE.—A correspondent of the Louisville (Ky.) Democrat proposes the use of Bactrian camels in travelling to California and New Mexico and Oregon. They would be very useful in carrying the mail—Good authorities state, that they can carry 1000 lbs. weight 100 miles per day, for eight or ten days in succession, and subsist on a very scanty supply of the coarsest herbage, only requiring water once in two or three days. With the aid of this animal, the United States mail might be carried from St. Louis, Mo., to Astoria, at the mouth of the Columbia, in twenty days, or in a shorter time from the mouth of the Arkansas river to the harbor of San Francisco, in California. At a comparatively small expense, and within two or three years, a monthly or even weekly mail might be established between these points. They could be got in their native country, Asia, and brought by land to the Black Sea, and shipped for the United States direct.

"General-Taylor-Never-Surrenders."

It is known, that Gen. TAYLOR, President elect of the United States, still holds on to his post as a full Major General in the army, at seven or eight thousand dollars a year, and is in the active discharge of his pleasant military duties. This is doing very handsomely *for a man of peace!*

☞ The government are in the market after a ship of about 800 tons burthen, to convey troops and stores to California. They prefer a steamer, but if a suitable one can be obtained, will not take a sailing vessel.

☞ It is worthy of note that General Taylor has beaten Mr. Van Buren in his own town; Kinderhook, —the vote standing, Taylor 295, Van Buren 244, Cass 169. In 1844 the town gave a majority of 76 for Polk.

INCREASE OF THE POPULATION.—Since the second of April, 148,477 emigrants have arrived at New York alone, from the European continent—nearly *one hundred and fifty thousand* in less than seven months.

ARTESIAN WELLS.—The New York and New Haven Railroad have lately, by boring 16 feet below high water in the canal basin, near their Engine house in New Haven, obtained an abundant supply of good fresh water for all their purposes.

A SPLENDID ALOE.—There is now in bloom, in the garden of Drummond Castle, Perthshire, England, a splendid American Aloe, with a stem thirty feet high, supporting two thousand eight hundred flowers.

☞ A Jesuit College has been started in New Orleans. The building is quite large and imposing, and it will be inhabited by a number of members of that order now in St. Louis.

NAVAL.—Orders have been received at the Navy Yard at Gosport, Virginia, to fit out the United States Frigate Raritan, destined to the Gulf of Mexico, it is said, as the flag ship of Commodore Lawrence Kearney.

ICE EXPORTS.—Fifty-two thousand and eighty-four tons of ice have been exported from the port of Boston during the past nine months.

BOSTON.—Since January last, domestic cotton goods, of the value of $1,753,235, have been exported from this port.

☞ The nett receipts for nine months, to October 31st, of the Toronto, Niagara and St. Catharine's Telegraph Company, exceed 12½ per cent.

☞ WHOOPING COUGH.—Dr. Clickener's Sugar-coated Vegetable Pills are an infallible remedy for the whooping cough, as will be seen by Dr. Dolbear's letter.

PROSPECT, Ill., Jan. 13, 1845.

Dr. C. V. Clickener—MY DEAR SIR: Not long since, a child of mine was taken badly with the whooping cough, and as we have no Doctor within 30 or 40 miles of us, I asked a neighbor of mine if he knew of anything that was good for it. He said he did not know of any, but to recommend, but there was a box of Clickener's Sugar-coated Vegetable Pills in the house, which he had bought of a pedlar the last time he was at Chicago, and if they were as good as they pretended to be, there was no telling but they might be of service to me. I accordingly concluded to try them, and shall never regret that I did so first, and its augmentation may be scarcely perceptible, yet, when it once seizes the lungs, all the other parts of the body will be sympathetically affected, and a confirmed Consumption and premature death will be the inevitable result. A little care would save many a life, and the timely use of a proper remedy might have arrested many a consumption. But many persons have an invincible repugnance to taking any medicine, and rather than use the means towards arresting a disease, simply because the remedy may not be a pleasant one, would suffer and languish for a long time, before they would resort to the aid of medicine.

Dr. A. Fahnestock & Co.'s Cough Balsam has a great advantage in this respect over many other Cough preparations, as its pleasant taste permits it to be used without inconvenience. But in one as a Balsam contains in the speediness of its cure. We have known some of the most desperate coughs, some of which had been running on for a considerable length of time, yield almost immediately to its power.

LOCAL MATTERS.

THE ECONOMY CASE.—This case occupied the time of the Court yesterday. As near as we could learn, it amounts to this: It is an action for slander commenced by Mr. Baker, of the Economy Society, against Mr. Wagner, of Philipsburg, who formerly belonged to the Society. Wagner had five sisters at the Society, who chose to remain after he left—this was during the Count Leon troubles in 1832. A few years ago a relation in the old country died, leaving a large fortune to be distributed equally among the sisters of Wagner and himself. He went over and obtained the money. He alledges that the dying declarations of the relative were, that his wealth should never go into the Economy Society. Wagner was determined to keep it out if possible; while his sisters were determined to take their shares in, and gave Mr. Baker power to receive their money for them. In 1847, Wagner was induced to come to this city for the purpose of making some arrangements with Baker; he was arrested upon an affidavit, or affidavits, and imprisoned. In a conversation afterwards, he charged Baker with perjury. Upon this charge, the present suit for damages was founded. It is tried in this county, on account of the prejudice that exists in the minds of some of the Beaver county people, against the Society. Wagner was arrested while on business in this city.

The case has been hotly contested on both sides. For Plaintiff, Messrs. Forward and M'Candless; for Defendant, Messrs. Dunlop, Shaler and Ritchie. Judge Lowrie on the Bench.

LUXURIES.—The work of the world is performed with a view to the gratification of the senses, and the most important of these is Taste. Much as some may deride the *newfangled* that are yearly introduced by epicurean philosophers, we contend, with reason on our side, that these people do much good. Nay, their services are indispensable. Taste must be cultivated; and as man grows up nearer to human perfectibility, so must the food furnished to both mind and body be of the most improved kinds.

Who would confine a son to the study of old books, excluding those of latest date? No one who possesses good sense. And so we think those who live in this civilization—in this age of progress—should be required to supply his "returning wants" with the diet that suited our half-civilized forefathers.

Now what is the *drift* of all this? Well, we will tell: Bennett, in Diamond alley, keeps constantly the most refined and polished Oysters in the shells and in cans, which he serves up to his friends in the very *newest* styles; having an eye to the wants of all. He can furnish other viands in other ways. We call attention to his card.

MAYOR'S OFFICE.—*Thursday morning.*—There were five cases before the Mayor—all charged with drunkenness. The "Dutch Preacher" was among them. He was committed a few days ago for "twenty-four hours," and was no sooner out than he began his capers again. It is said he makes pretensions to being a Minister of the Gospel; and indeed he looks like a man of education who had fallen. He could speak no English, so as to be understood; he had a good deal to say in his own mother tongue, every word of which fell from his lips to avail him nothing, for there was no interpreter present. But his Honor desired none, this being the second offence in a short time. He was sent up for thirty days. The next case was a very respectable looking gentleman from the country—a constable at that. He plead guilty, and threw himself upon the mercy of the magistrate. Having a little money, he paid his fine and was off.

WASHINGTON ASSEMBLY ROOM.—We yesterday took a stroll through the new Halls of Mr. Fitzsimmons, on Wood street, between Virgin alley and Fifth. We were dazzled by its magnificence on entering. Though not as large as some other public rooms in the city, its style of finish is superior. The arrangements for the accommodation of parties are excellent. There is a gallery for music; four dressing rooms; and the fourth story has been fitted up in good taste for Supper Room.

Washington Assembly Rooms will be open on the occasion of the grand Soiree of the Eagle Fire Company, which comes off on Monday evening next. We trust the ladies and gentlemen of the two cities will be prepared to make a grand entree on that evening.

THE BRACKENRIDGE CASE.—Yesterday morning H. M. Brackenridge and B. M. Brackenridge appeared in Court. The old gentleman read a paper apologising for his conduct in Court, on Tuesday. The son also apologised verbally. Judge Patton then "pronounced sentence" upon them: A fine of one hundred dollars each.

This case is likely to give trouble yet. We heard of prosecutions brewing in all directions against interested persons, for subornation and perjury. The city is very much excited—for people will talk and get indignant about such things. The end of all will be an expense to the county and to the parties.

SOMETHING COMING.—We notice in the play bills that, "*A Squint at Pittsburgh*," will shortly be given. We hope it has been prepared by some sensible person, who will hit off a few of the peculiarities of some of our people, without hitting any one.

We call attention to his card.

☞ Strickland is to furnish the Supper for the Eagle Ball next Wednesday evening. He will do it in fine style, we are assured.

☞ Several of our citizens left for the South and West, yesterday, on the steamers Brilliant and Telegraph. They are all on business of some kind.

☞ Mr. and Mrs. Connor have been attracting large audiences. They are old favorites in this city, and bound to take with the lovers of the drama.

☞ We heard of three deaths by scarlet fever, yesterday, in this city and Allegheny.

☞ The Circuit Court of the United States commences its session on next Monday. There are a few interesting cases to be tried.

☞ We understand that R. BIDDLE ROBERTS, Esq., has been appointed Clerk of the U. S. District Court, in the room of Thos. Liggett, Esq., resigned.

☞ The Sims case occupied the time of the Court of Quarter Sessions yesterday. There was nothing new elicited during this trial.

☞ A detachment of the California Regiment arrived in this city last night. They leave for St. Louis at 10 o'clock this morning.

☞ Mr. Conner appears as Othello to-night; Mrs. Conner as Desdemona.

☞ There was a very full quadrille party in Washington Rooms last evening.
