Constant employut trust-worthy persons need apply. New Mexico---Slavery. Mr. Benron, in the Senate, con Wednesday last, esented a petition from the people of New Mexies; assembled in Convention at Santa Fe, asking the organization of a Territorial government in that erritory, and that Congress may provide against the luction of Slavery therein. The petition was. signed by Jose Martinez, as President, and J. M iddings, as Sectetary. Mr. Calhoun declared that the petition was insolent in its character, because the country was conquered by the very men whom the netitioners wish to exclude. Messrs. Wescot and Foote thought there might be a possibility that he petition was a hoax, and it would be well for the Senate to look into the matter. They were not Rusk claimed that the territory in question belongs of right to Texas, as her title includes all the land this side of the Rio Grande. Measrs Benton and Clayton said that the petition, in their opinion, was genuine, and the former repelled, with much earnontended that the petition embraced nothing more than what was asserted by the Nicholson letter; but this position was denied by Mr. Foote. this position was denied by Mr. Foote.

If it should appear that the Convention in question was a regularly called body, in which the people of New Moxico were fairly represented; and the petition to Congress was but the expression of the will of the people of that territory—we think it but right that their wishes should be granted. The citizens of the territory have the right to say what form novement. If the voice of the people is not respected by Congress, then Republican Liberty is but mockery and a name. The following are the year and mays on printing the memorial in question: YEAS .- Merses Allen, Atchison, Atherton, Badger, Baldwin, Benton, Bradbury, Breeso, Butler, Cameron, Clauke, Clayton, Corwin, Dayton, Dickin-son, Dir, Dodge, Douglass, Felch, Fitzgerald, Hale, Hamlin, Johnson of Maryland, Johnson of Louisi-Stargeon, Underwood, Upham, and Walker—33

The question being then put upon the reference it was referred to the Committee on Territories. Ho! for the Land of Gold. We are informed that a company of young in this city are making arrangements to start for the California gold region, about the first of January. We are personally acquainted with a number of the gentlemen, and we know them to be men of intelligence, enterprise and ambition. There are no es or mere adventurers amongst them. The gold fever is spreading all over the country. Our exchanges are filled with articles on the subjec-We see it stated that the Government is about send ing a number of armed vessels to the Coast of Califor nin, to protect the gold region—that is, of course against English and other foreign adventures. This perfectly right. The amount of Gold in California, by all accounts is equal to the whole amount now in circulation through the world. A letter from a gentleman i California states that the extent of the gold region was such as to afford employment for fifty thousand people for fifty years. The Californian newspaper values the ore already discovered, at one thousand millions of dollars.

The whole chain of the Sierra Nevada or Snowy mountains of California seems to abound with the mineral. There has, no doubt, been collected within the last six months, a million and a half of dollars, at \$16 per called for will be very interesting to the country: ounce, which is the price allowed for it at the stores. ounce, which, is the price allowed for it at the stores.

There are now some 60 or 70 vessels up at Bos. ton, New York, Philadelphia, and Baltimore, for California and Chagres. A New York letter, o Thursday evening, says: "The Panama, the second steamer of the line to leave Panama 15th February, is full, and the owners of the line are taking passengors for the Oregon, to leave lat of March. The excitement here is still very great. Fifty vessels up for Chagres or the gold egions."
The New York Sun says: "Another expedition to the Gold Region is form-ing onboard the ship Apollo, first of Chambers street. North tiver, to sail in a few days. We understand that passengers will be found with all requisite sup-plies out and home, and while at San Francisco, for about two hundred and fifty dollars. This includes every expense for the whole voyage to San Fran-cisco and back to New York, and also the privilege of boarding on the ship while there, if being under-stood that the ship is to remain near the Gold Mines for soveral months.

A move has already been made in Congress on this ibject. Among the resolutions submitted to the ouse or Monday, was the following by Mr. Eck-Resolved, That the Committee of Ways and Means be instructed to inquire into the expediency of re-porting a tariff bill based on the principles of the Tariff of 1842.
