Means, called up the Resolution making appropria-

obly. A Bill, apportioning five memding the county in two districts, so that two of the five members should be elected by one district comprising the city of Cincinnali, was introduced and passed the Senate. Such thing had acver before been done, nor could any reason be assigned except that the city was largely Whig, and the county largely Democratic. The Democratic members vain strated against the measure as a violation of e Constitution for party purposes. Some slight. mendments being made in the House, the Bill returned to the Senate, and thereupon, the Democratic Senators secended, so that there was no longer a constiational quorum to do business in that body. In this state of affairs a resolution was passed in the House, rescinding its amendments; whereupon the bill was signed by the Speakers as a law. The Democrats insisted that this was a gross asurpation of Legislative pow-er. That the Bill was in the Senate, and therefore could not be acted on by the douse ; and no action could be had in the Senate & want of a constitutional quorum, the Sth Section requiring " two thirds

OPINION. The provision of the Apportionment Law, div ing Hamilton county, is in my view clearly unco onal. The Levislative authority exists only by e Constitution, and those who exercise it must e within the Constitutional limits, or their act me asurpation and are void. Now; the Constiion has established a specific basis, upon which e Legislative authority must act, and according to which it must be apportioned. The geographical county limit, is ra as absolute as the limit of number. There are various conjectures as to the origin of the fire. M. There was another rumor of Cued by Louis, the servant of M. Monplaretr. All the rest escaped. It is said by those who were in the theatre at the time, that the fire originated from the scenery taking fire from the gas light over the prompters stand, which, being of such inflammable material, caused the flames to spread with great rapidity. Only about one-tenth of all the costames were a death by Cholera at one of the hotels. Of course too was unfounded.
