MENERS HENDERSHOTT & STRENCH: GENTLEMEN I take peasure in adding my testimony in favor of the excellent preparation called Dr. Parish's Chince Hair Craim; for, about two years ago my hair whas very dry; bristly, and disposed to come out; but having procured a bottle of the Cream, and used in according to the prescription, it is now elastic, soft, and firm to the head. Many balsams and oils were applied, each leaving my hair in a worse state than before. This Cream, however, has met my expectations.

As an article for the toilet, my wife gives it preference over all others, being delicately perfumed and not disposed for rancidity. The ladice, especially, will find the Chinese Cream to be a desideratum. In their preparations for the toilet.

ADIES are cautioned against using Common Preparative Chalk: They are not aware how frightfully injurious tits to the skin how coarse, how rough, howsallow, yellew, and anhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of lead! We have prepared a beautiful vegetable article, which we call Jones Spanish Lilly White. It is perfectly innocent, being purified of all delectrious quasities, and it imparts to the akin a natural, healthy, alabaster, clear, lively white; as the same time acting as a cosmetic on the skin, making it soft and smooth.

Dr. James Anderson, Fractical Chemist of Massachusetts, says: "After analysing Jones' Spanish Lilly White, I find it possesses the most beautiful and natural, and at the same time innocent, white I ever saw. I certainly can conscientiously recommend its use to all whose skin, requires beautifying." Price 25 cents a box. Directions—the best way to apply Lilly White, is with self feather or wood—the former is preferable.

After sax or Terry for 25 cents a box. Directions—the best way to apply Lilly White, is with self feather foul breath, healthy gums. Yellow and unhealthy teeth, after being once or twice cleaned with Jones' Ambor Tooth Paste, have the appearance of the most beautiful ivory, and, at the same time it is so perfectly innocent and exquisitely fine, that its constant daily use is highly advantageous, even to those teeth that are in good condition; giving them a beautiful polish, and preventing a premature decay. Those already decayed, it prevents from becoming worso—it also fastens such as is becoming loose, and by perseverance it will render the foulest teeth delicately white, and make the breath deliciously sweet.
